

Canton MS/HS Online Learning Plan

How will my student access their coursework?

- All students in grades 6-12 will be completing their work on the Google Classroom platform.
- Many students have already used this website for work in their current classes.
- This site works on all types of technology. (laptops, tablets, chromebooks, phones, etc.)

How does my student access their Google Classroom account?

- Your student must use their K12 email account to login to the system. (They should know how to do this, but you may contact any staff member to help if they are having trouble.)
- Many staff sent emails to invite students to join their class.
- All course codes can be found on the MS and HS pages of our District's website.

What if my student is having trouble with an assignment?

- The best way to contact a staff member is through their school email account.
- Each staff member has chosen a specific window for office hours where they will respond with more speed. These times are found on the MS and HS pages of our District's website.

Who should I contact if my student's technology is not working?

- If your student's school issued laptop is not working, please reach out to Mr. Townsend at russell.townsend@k12.sd.us or Mr. Falk at bob.falk@k12.sd.us

Will these assignments count toward my student's grade?

- In our first week of implementation, we are not overly concerned with grades. We want to get all students familiar with the Google Classroom platform and give our staff more time to develop learning experiences.
- If the school closure draws out in length, we will be increasing the amount of work and will reflect completed work in your student's grade. All classes will start with a relatively small amount of work so that students do not feel overwhelmed.

How will Dual Credit courses be handled?

- All classes that students are taking for College credit must maintain their pace regardless of our school closures. Students should already have been working on these classes.

Will students enrolled in credit recovery courses remain on target for completion?

- Yes. Thankfully these classes were already using the Edgenuity platform for online work. Staff will be monitoring this site to open assignments and provide opportunities for progress.
