SCHOOL DISTRICT LEGAL STATUS

The United States Constitution leaves to the individual states responsibility for public education.

In South Dakota, the legislature is charged by the Constitution “to establish and maintain a general and uniform system of public schools” which is open to all children and free from sectarian control. The state constitution also calls for a State Board of Education and a state superintendent of elementary and secondary education, who is the executive officer of the state board.

The Constitution outlines the responsibilities of the state superintendent and the state board. The State Board of Education is responsible for the adoption of all policies for the government of the Division of Elementary and Secondary Education, and for the adoption and implementation of regulations for supervising the elementary and secondary schools.

School districts exist for the purpose of operating a school or schools to provide the people of each local community adequate opportunity to avail themselves of a free public elementary and secondary education program.

This school district shall constitute a school corporation under the name of “Canton School District, No. 41-1 of Lincoln County, South Dakota.”

Established by law

COMMUNITY INVOLVEMENT IN DECISIONMAKING

The Board recognizes the importance of community involvement with the program and the operations of the public schools. By working together the quality of the educational program for students can only improve.

To foster mutual respect and confidence between the public and the Board, an atmosphere of openness and honesty will prevail. The Board will encourage interested groups and representatives to express

ideas, concerns and judgments about the schools to the school administration, to staff appointed advisory bodies and to the Board. It will be the Board's responsibility to provide the public with accurate and complete information on the schools and the Board's activities.

The advice of the public will be given careful consideration. In the evaluation of such contributions, the first concern will be for the educational program as it affects the students.

Citizens' Advisory Committees

The Board recognizes that one of the best methods to maintain good communications with the community, and to establish sound public relations, is through temporary citizens' advisory committees.

These committees will be appointed when needed for a specific time and purpose, and will be under the supervisory control of the superintendent. He will report to the Board on its membership, function, progress and final report.

NONDISCRIMINATION

The Board is committed to a policy of nondiscrimination in relation to race, sex, religion, national background, handicap and other human differences. Respect for the dignity and worth of each individual will be paramount in the establishment of all policies. The Constitutions of our nation and state, pertinent legislation enacted at those two levels of government, as well as court interpretations regarding citizens' rights, undergird this statement.

In keeping with these statements, the following will be objectives of this school district:

1. To promote the rights and responsibilities of all individuals as set forth in the state and federal constitutions, pertinent legislation and applicable judicial interpretations.
2. To encourage positive experiences in human values for children and adults who have differing personal and family characteristics or who come from various socioeconomic, racial and ethnic groups.
3. To carefully consider, in all decisions made which affect the schools, the potential benefits or adverse consequences that those decisions might have on the human relations aspects of all segments of society.

Objectives of this policy.

The Board's policy on nondiscrimination will extend to students, staff, the general public and individuals with whom it does business.

SEXUAL HARASSMENT

It is the policy of the Canton School District that no person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any of the school district's programs or activities. The district is required by Title IX (20 U.S.C. § 1681) and 34 C.F.R. part 106 to not discriminate in such a manner.

1. Title IX Coordinator

1.1. **Designation.** The district will designate and authorize at least one employee to coordinate its efforts to comply with its responsibilities under this policy, who will be referred to as the "**Title IX Coordinator.**" The district will notify applicants for admission and employment, students, parents or legal guardians of students, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the district, of the name or title, office address, electronic mail address, and telephone number of the Title IX Coordinator. Any person may report sex discrimination, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment). This report may be made by any means, including but not limited to, in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. Such a report may be made at any time (including during non-business hours).

2. Definitions. As used in this policy, the following terms are defined as follows:

2.1. **Actual knowledge** means notice of sexual harassment or allegations of sexual harassment to any district employee. Imputation of knowledge based solely on vicarious liability or constructive notice is insufficient to constitute actual knowledge. This standard is not met when

the only district employee with actual knowledge is the respondent (as that term is defined below). “Notice” as used in this paragraph includes, but is not limited to, a report of sexual harassment to the Title IX Coordinator as described in subsection 1.1 above.

2.2. **Complainant** means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

2.3. **Formal complaint** means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the district investigate the allegation of sexual harassment. The only district official who is authorized to initiate the Grievance Process for Formal Complaints of Sexual Harassment against a respondent is the Title IX Coordinator (by signing a formal complaint). At the time of filing a formal complaint with the district, a complainant must be participating in or attempting to participate in the district’s education program or activity. A formal complaint may be filed with the Title IX Coordinator in person, by mail, or by electronic mail, by using the contact information required to be listed for the Title IX Coordinator under subsection 1.1 above, and by any additional method designated by the district. As used in this paragraph, the phrase “document filed by a complainant” means a document or electronic submission (such as by electronic mail or through an online portal provided for this purpose by the district) that contains the complainant’s physical or digital signature, or otherwise indicates that the complainant is the person filing the formal complaint. Where the Title IX Coordinator signs a formal complaint, the Title IX Coordinator is not a complainant or otherwise a party under this policy or under 34 C.F.R. part 106, and will comply with the requirements of this policy and 34 C.F.R. part 106, including subsections 5.1.3–5.1.4 and 34 C.F.R. § 106.45(b)(1)(iii).

2.4. **Respondent** means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

2.5. **Consent** for purposes of this policy means the willingness in fact for conduct to occur. An individual may, as a result of age, incapacity, disability, lack of information, or other circumstances be incapable of providing consent to some or all sexual conduct or activity. Neither verbal nor physical resistance is required to establish that an individual did not consent. District officials will consider the totality of the circumstances in determining whether there was consent for any specific conduct. Consent may be revoked or withdrawn at any time.

2.6. **Sexual harassment** means conduct on the basis of sex that satisfies one or more of the following:

- 2.6.1. An employee of the district conditioning the provision of an aid, benefit, or service of the district on an individual’s participation in unwelcome sexual conduct;
- 2.6.2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district’s education program or activity;
- 2.6.3. **Sexual assault**, as defined in 20 U.S.C. § 1092(f)(6)(A)(v), which means an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation:

- 2.6.3.1. **Sex Offenses, Forcible**—Any sexual act directed against another person, without the consent of the victim including instances where the victim is incapable of giving consent.
 - 2.6.3.1.1. **Rape**—(Except Statutory Rape) The carnal knowledge of a person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.
 - 2.6.3.1.2. **Sodomy**—Oral or anal sexual intercourse with another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity
 - 2.6.3.1.3. **Sexual Assault With An Object**—To use an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity
 - 2.6.3.1.4. **Fondling**—The touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity
- 2.6.3.2. **Sex Offenses, Non-forcible**—(Except Prostitution Offenses) Unlawful, non-forcible sexual intercourse.
 - 2.6.3.2.1. **Incest**—Non-Forcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law
 - 2.6.3.2.2. **Statutory Rape**—Non-Forcible sexual intercourse with a person who is under the statutory age of consent
- 2.6.4. **Dating violence**, as defined in 34 U.S.C. § 12291(a)(10), which means violence committed by a person—
 - 2.6.4.1. who is or has been in a social relationship of a romantic or intimate nature with the victim; and
 - 2.6.4.2. where the existence of such a relationship shall be determined based on a consideration of the following factors:

- 2.6.4.2.1. The length of the relationship.
- 2.6.4.2.2. The type of relationship.
- 2.6.4.2.3. The frequency of interaction between the persons involved in the relationship.

2.6.5. **Domestic violence**, as defined in 34 U.S.C. § 12291(a)(8), which includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.

2.6.6. **Stalking**, as defined in 34 U.S.C. § 12291(a)(30), which means engaging in a course of conduct directed at a specific person that would cause a reasonable person to—

- 2.6.6.1. fear for his or her safety or the safety of others; or
- 2.6.6.2. suffer substantial emotional distress.

2.7. **Supportive measures** means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the district's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the district's educational environment, or deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work or housing locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures. The district will maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of the district to provide the supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

3. **Discrimination Not Involving Sexual Harassment.**

3.1. **General Prohibition.** Except as provided elsewhere in Title IX, 34 C.F.R. part 106, or this policy, no person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any academic, extracurricular, research, occupational training, or other education program or activity operated by the district.

3.2. **Specific Prohibitions.** Except as provided elsewhere in Title IX, 34 C.F.R. part 106, or this policy, in providing any aid, benefit, or service to a student, the district will not on the basis of sex:

- 3.2.1. Treat one person differently from another in determining whether such person satisfies any requirement or condition for the provision of such aid, benefit, or service;
- 3.2.2. Provide different aid, benefits, or services or provide aid, benefits, or services in a different manner;
- 3.2.3. Deny any person any such aid, benefit, or service;
- 3.2.4. Subject any person to separate or different rules of behavior, sanctions, or other treatment;
- 3.2.5. Apply any rule concerning the domicile or residence of a student or applicant;
- 3.2.6. Aid or perpetuate discrimination against any person by providing significant assistance to any agency, organization, or person which discriminates on the basis of sex in providing any aid, benefit or service to students or employees;
- 3.2.7. Otherwise limit any person in the enjoyment of any right, privilege, advantage, or opportunity.

3.3. **Complaint Procedure.** All complaints regarding any alleged discrimination on the basis of sex, including without limitation violations of this policy, 34 C.F.R. part 106, Title IX, Title VII, or other state or federal law—when the alleged discrimination does not arise from or relate to an allegation of sexual harassment as defined in subsection 2.6 above—shall be addressed pursuant to the district’s general complaint procedure, Board Policy AACA-E(1)

4. **Response to Sexual Harassment**

4.1. **Reporting Sexual Harassment.** Any person who witnesses an act of unlawful sexual harassment is encouraged to report it to the District’s Title IX Coordinator. No person will be retaliated against based on any report of suspected sexual harassment or retaliation. Any District employee who receives a report of sexual harassment or has actual knowledge of sexual harassment must convey that information to the Title IX Coordinator as soon as reasonably practicable, but in no case later than the end of the following school day.

4.2. **General Response to Sexual Harassment.** When the district has actual knowledge of sexual harassment in its education program or activity against a person in the United States, the district will respond promptly in a manner that is not deliberately indifferent. The district will be deemed to be deliberately indifferent only if its response to sexual harassment is clearly unreasonable in light of the known circumstances. For the purposes of this policy “education program or activity” includes locations, events, or circumstances over which the district exercised substantial control over both the respondent and the context in which the sexual harassment occurs. The district’s response will treat complainants and respondents equitably by offering

supportive measures as defined in subsection 2.7 above to a complainant, and by following the grievance process described in section 5 below before the imposition of any disciplinary sanctions or other actions that are not supportive measures, against a respondent. The Title IX Coordinator will promptly contact the complainant to discuss the availability of supportive measures, consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint.

4.3. **Emergency Removal.** Nothing in this policy precludes the district from removing a respondent from the district's education program or activity on an emergency basis, provided that the district undertakes an individualized safety and risk analysis, and determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal. In the event that the district so removes a respondent on an emergency basis, then the district will provide the respondent with notice and an opportunity to challenge the decision immediately following the removal. This provision may not be construed to modify any rights under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act.

4.4. **Administrative Leave.** Nothing in this policy precludes the district from placing a non-student employee respondent on administrative leave during the pendency of a grievance process that complies with section 5 below. This provision may not be construed to modify any rights under Section 504 of the Rehabilitation Act of 1973 or the Americans with Disabilities Act.

4.5. **General Response Not Conditioned on Formal Complaint.** With or without a formal complaint, the district will comply with the obligations and procedures described in this section 4.

5. **Grievance Process for Formal Complaints of Sexual Harassment.**

5.1. **General Requirements.**

5.1.1. **Equitable Treatment.** The district will treat complainants and respondents equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made against the respondent, and by following the grievance process described in this section 5 before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent. Remedies will be designed to restore or preserve equal access to the district's education program or activity. Remedies may include the same individualized services described in subsection 2.7 as "supportive measures"; however, remedies need not be non-disciplinary or non-punitive and need not avoid burdening the respondent.

5.1.2. **Objective Evaluation.** This grievance process requires an objective evaluation of all relevant evidence—including both inculpatory and exculpatory evidence. Credibility determinations may not be based on a person's status as a complainant, respondent, or witness.

- 5.1.3. **Absence of Conflicts of Interest or Bias.** The district will require that any individual designated by a recipient as a Title IX Coordinator, investigator, decision-maker, or any person designated by a recipient to facilitate an informal resolution process, not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent.
- 5.1.4. **Training.** The district will ensure that all individuals or entities described in this Training section 5.1.4 receive training as provided below. Any materials used to train these individuals will not rely on sex stereotypes and will promote impartial investigations and adjudications of formal complaints of sexual harassment.
- 5.1.4.1. **All District Employees and Board Members.** All district employees and board members will be trained on how to identify and report sexual harassment.
- 5.1.4.2. **Title IX Coordinators, Investigators, Decision-Makers, or Informal Resolution Facilitators.** The district will ensure that Title IX Coordinators, investigators, decision-makers, or any person designated by the district to facilitate an informal resolution process receive training on:
- 5.1.4.2.1. The definition of sexual harassment in subsection 2.6;
- 5.1.4.2.2. The scope of the district's education program or activity;
- 5.1.4.2.3. How to conduct an investigation and grievance process including hearings, appeals, and informal resolution processes, as applicable; and
- 5.1.4.2.4. How to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias.
- 5.1.4.3. **Decision-Makers.** The district will ensure that decision-makers receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, as set forth in subsection 5.6.
- 5.1.4.4. **Investigators.** The district will also ensure that investigators receive training on issues of relevance to create an investigative report that fairly summarizes relevant evidence, as set forth in subsection 5.5.8.
- 5.1.5. **Presumption.** It is presumed that the respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.
- 5.1.6. **Reasonably Prompt Time Frames.** This grievance process shall include reasonably prompt time frames for conclusion of the grievance process, including reasonably prompt time frames for filing and resolving appeals and informal resolution

processes if the district offers informal resolution processes. The process shall also allow for the temporary delay of the grievance process or the limited extension of time frames for good cause with written notice to the complainant and the respondent of the delay or extension and the reasons for the action. Good cause may include considerations such as the absence of a party, a party's advisor, or a witness; concurrent law enforcement activity; or the need for language assistance or accommodation of disabilities.

- 5.1.7. **Range of Possible Sanctions and Remedies.** Following a determination of responsibility, the district may impose disciplinary sanctions and remedies in conformance with this and the district's student discipline policy, and other state and federal laws. Depending upon the circumstances, these policies provide for disciplinary sanctions and remedies up to and including expulsion.
- 5.1.8. **Range of Supportive Measures.** The range of supportive measures available to complainants and respondents include those listed in subsection 2.7.
- 5.1.9. **Respect for Privileged Information.** The district will not require, allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege.

5.2. **Notice of Allegations.**

- 5.2.1. **Initial Notice.** Upon receipt of a formal complaint, the district will provide the following written notice to the parties who are known:
 - 5.2.1.1. A copy of this policy.
 - 5.2.1.2. Notice of the allegations of sexual harassment potentially constituting sexual harassment as defined in subsection 2.6, including sufficient details known at the time and with sufficient time to prepare a response before any initial interview. Sufficient details include the identities of the parties involved in the incident, if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident, if known. The written notice will include a statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process. The written notice will inform the parties that they may have an advisor of their choice, who may be, but is not required to be, an attorney, under subsection 5.5.5, and may inspect and review evidence under subsection 5.5.5. The written notice will inform the parties of any provision in the district's code of conduct that prohibits knowingly making false statements or knowingly submitting false information during the grievance process.
- 5.2.2. **Supplemental Notice.** If, in the course of an investigation, the district decides to investigate allegations about the complainant or respondent that are not included

in the Initial Notice described above, the district will provide notice of the additional allegations to the parties whose identities are known.

5.3. Dismissal of Formal Complaint.

- 5.3.1. The district will investigate the allegations in a formal complaint.
- 5.3.2. **Mandatory Dismissals.** The district **must** dismiss a formal complaint if the conduct alleged in the formal complaint:
- 5.3.2.1. Would not constitute sexual harassment as defined in subsection 2.6 even if proved;
 - 5.3.2.2. Did not occur in the district’s education program or activity; or
 - 5.3.2.3. Did not occur against a person in the United States.
- 5.3.3. **Discretionary Dismissals.** The district **may** dismiss the formal complaint or any allegations therein, if at any time during the investigation or hearing:
- 5.3.3.1. The complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
 - 5.3.3.2. The respondent is no longer enrolled in or employed by the district; or
 - 5.3.3.3. Specific circumstances prevent the district from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.
- 5.3.4. Upon a dismissal required or permitted pursuant to subsections 5.3.2 or 5.3.3 above, the district will promptly send written notice of the dismissal and an explanation of that action simultaneously to the parties.
- 5.3.5. Dismissal of a formal complaint under this policy does not preclude the district from taking action under another provision of the district’s code of conduct or pursuant to another district policy.

5.4. Consolidation of Formal Complaints. The district may consolidate formal complaints as to allegations of sexual harassment against more than one respondent, or by more than one complainant against one or more respondents, or by one party against the other party, where the allegations of sexual harassment arise out of the same facts or circumstances. Where a grievance process involves more than one complainant or more than one respondent, references in this policy to the singular “party,” “complainant,” or “respondent” include the plural, as applicable.

5.5. Investigation of Formal Complaint. When investigating a formal complaint and throughout the grievance process, the district will:

- 5.5.1. Designate and authorize one or more persons (which need not be district employees) as investigator(s) to conduct the district's investigation of a formal complaint;
- 5.5.2. Ensure that the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rest on the district and not on the parties provided that the district cannot access, consider, disclose, or otherwise use a party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party, unless the district obtains that party's voluntary, written consent to do so for a grievance process under this section (if a party is not an "eligible student," as defined in 34 CFR 99.3, then the district will obtain the voluntary, written consent of a "parent," as defined in 34 CFR 99.3);
- 5.5.3. Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence;
- 5.5.4. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence;
- 5.5.5. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney, and not limit the choice or presence of advisor for either the complainant or respondent in any meeting or grievance proceeding; however, the district may establish restrictions regarding the extent to which the advisor may participate in the proceedings, as long as the restrictions apply equally to both parties;
- 5.5.6. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all hearings, investigative interviews, or other meetings, with sufficient time for the party to prepare to participate;
- 5.5.7. Provide both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in a formal complaint, including the evidence upon which the district does not intend to rely in reaching a determination regarding responsibility and inculpatory or exculpatory evidence whether obtained from a party or other source, so that each party can meaningfully respond to the evidence prior to conclusion of the investigation. Prior to completion of the investigative report, the district will send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy, and the parties will have at least 10 calendar days to submit a written response, which the investigator will consider prior to completion of the investigative report; and

- 5.5.8. Create an investigative report that fairly summarizes relevant evidence and, at least 10 calendar days prior to the time of determination regarding responsibility, send to each party and the party's advisor, if any, the investigative report in an electronic format or a hard copy, for their review and written response.

5.6. **Exchange of Written Questions.** After the district has sent the investigative report to the parties pursuant to subsection 5.5.8, but before reaching a determination regarding responsibility, the decision-maker(s) will afford each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. The decision-maker(s) will explain to the party proposing the questions any decision to exclude a question as not relevant.

5.7. **Determination Regarding Responsibility**

- 5.7.1. **Decision-Maker(s).** The decision-maker(s) cannot be the same person as the Title IX Coordinator or the investigator(s).
- 5.7.2. **Written Determination.** The decision-maker(s) will issue a written determination regarding responsibility. To reach this determination, the decision-maker(s) will apply the preponderance of the evidence standard. The written determination will include:
- 5.7.2.1. Identification of the allegations potentially constituting sexual harassment as defined in subsection 2.6;
 - 5.7.2.2. A description of the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held;
 - 5.7.2.3. Findings of fact supporting the determination;
 - 5.7.2.4. Conclusions regarding the application of the district's code of conduct to the facts;
 - 5.7.2.5. A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions the district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the district's education program or activity will be provided by the district to the complainant; and

- 5.7.2.6. The district's procedures and permissible bases for the complainant and respondent to appeal.
 - 5.7.3. The district will provide the written determination to the parties simultaneously. The determination regarding responsibility becomes final either on the date that the district provides the parties with the written determination of the result of the appeal, if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.
 - 5.7.4. The Title IX Coordinator is responsible for effective implementation of any remedies.
- 5.8. **Appeals.** The district will offer both parties the opportunity to appeal from a determination regarding responsibility, and from the district's dismissal of a formal complaint or any allegations therein, on the grounds identified below.
- 5.8.1. **Time for Appeal.** Appeals may only be initiated by submitting a written Notice of Appeal to the Office of the Superintendent of Schools within ten (10) calendar days of the date of the respective written determination of responsibility or dismissal from which the appeal is taken. The Notice of Appeal must include (a) the name of the party or parties making the appeal, (b) the determination, dismissal, or portion thereof being appealed, and (c) a concise statement of the specific grounds (from subsection 5.8.2 below) upon which the appeal is based. A party's failure to timely submit a Notice of Appeal will be deemed a waiver of the party's right to appeal under this policy, 34 C.F.R. part, 106, and Title IX.
 - 5.8.2. **Grounds for Appeal.** Appeals from a determination regarding responsibility, and from the district's dismissal of a formal complaint or any allegations therein, are limited to the following grounds:
 - 5.8.2.1. Procedural irregularity that affected the outcome of the matter;
 - 5.8.2.2. New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
 - 5.8.2.3. The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.
 - 5.8.3. As to all appeals, the district will:
 - 5.8.3.1. Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties;

- 5.8.3.2. Ensure that the decision-maker(s) for the appeal is not the same person as the decision-maker(s) that reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator;
- 5.8.3.3. Ensure that the decision-maker(s) for the appeal complies with the standards set forth in subsections 5.1.3–5.1.4.
- 5.8.3.4. Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome;
- 5.8.3.5. Issue a written decision describing the result of the appeal and the rationale for the result; and
- 5.8.3.6. Provide the written decision simultaneously to both parties.

5.9. **Informal Resolution.** The district will not require as a condition of enrollment or continuing enrollment, or employment or continuing employment, or enjoyment of any other right, waiver of the right to an investigation and adjudication of formal complaints of sexual harassment consistent with this section. Similarly, the district will not require the parties to participate in an informal resolution process under this section and may not offer an informal resolution process unless a formal complaint is filed. However, at any time prior to reaching a determination regarding responsibility the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and adjudication, provided that the district:

- 5.9.1. Provides to the parties a written notice disclosing:
 - 5.9.1.1. The allegations;
 - 5.9.1.2. The requirements of the informal resolution process including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations;
 - 5.9.1.3. That at any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint; and
 - 5.9.1.4. Any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared;
- 5.9.2. Obtains the parties' voluntary, written consent to the informal resolution process; and
- 5.9.3. Does not offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.

5.10. **Recordkeeping.**

- 5.10.1. The district will maintain for a period of seven years records of:
- 5.10.1.1. Each sexual harassment investigation including any determination regarding responsibility, any disciplinary sanctions imposed on the respondent, and any remedies provided to the complainant designed to restore or preserve equal access to the district's education program or activity;
 - 5.10.1.2. Any appeal and the result therefrom;
 - 5.10.1.3. Any informal resolution and the result therefrom; and
 - 5.10.1.4. All materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process. The district will make these training materials publicly available on its website, or if the district does not maintain a website then the district will make these materials available upon request for inspection by members of the public.
- 5.10.2. For each response required under section 4, the district will create, and maintain for a period of seven years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment. In each instance, the district will document the basis for its conclusion that its response was not deliberately indifferent, and document that it has taken measures designed to restore or preserve equal access to the district's education program or activity. If the district does not provide a complainant with supportive measures, then the district will document the reasons why such a response was not clearly unreasonable in light of the known circumstances. The documentation of certain bases or measures does not limit the district in the future from providing additional explanations or detailing additional measures taken.

6. **Superintendent Authorized to Contract.** The board authorizes the Superintendent to contract for, designate, and appoint individuals to serve in the roles of the district's investigator(s), decision-maker(s), informal resolution facilitator(s), or appellate decision-maker(s) as contemplated by this policy.

7. **Access to Classes and Schools.**

7.1. **General Standard.** Except as provided in this section or otherwise in 34 C.F.R. part 106, the district will not provide or otherwise carry out any of its education programs or activities separately on the basis of sex, or require or refuse participation therein by any of its students on the basis of sex.

- 7.1.1. **Contact sports in physical education classes.** This section does not prohibit separation of students by sex within physical education classes or activities during participation in wrestling, boxing, rugby, ice hockey, football, basketball, and other sports the purpose or major activity of which involves bodily contact.

7.1.2. **Ability grouping in physical education classes.** This section does not prohibit grouping of students in physical education classes and activities by ability as assessed by objective standards of individual performance developed and applied without regard to sex.

7.1.3. **Human sexuality classes.** Classes or portions of classes that deal primarily with human sexuality may be conducted in separate sessions for boys and girls.

7.1.4. **Choruses.** The district may make requirements based on vocal range or quality that may result in a chorus or choruses of one or predominantly one sex.

7.2. **Classes and Extracurricular Activities.** The district may provide nonvocational single-sex classes or extracurricular activities as permitted by 34 C.F.R. part 106.

8. **Athletics.** It is the policy of the district that no person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, be treated differently from another person or otherwise be discriminated against in any interscholastic, club, or intramural athletics offered by the district, and that the district will not provide any such athletics separately on such basis.

8.1. **Separate Teams.** Notwithstanding the foregoing paragraph, the district may operate or sponsor separate teams for members of each sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport.

8.2. **Equal opportunity.** The district will provide equal athletic opportunity for members of both sexes. Unequal aggregate expenditures for members of each sex or unequal expenditures for male and female teams will not constitute noncompliance with this section.

9. **Certain Different Treatment on the Basis of Sex Permitted.** Nothing herein shall be construed to prohibit the district from treating persons differently on the basis of sex as permitted by Title IX or 34 C.F.R. part 106. For example, and without limiting the foregoing, the district may provide separate toilet, locker room, and shower facilities on the basis of sex, but such facilities provided for students of one sex shall be comparable to such facilities provided for students of the other sex.

10. **Retaliation Prohibited.** Neither the district nor any other person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX, 34 C.F.R. part 106, or this policy, or because the individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under this policy. The district will keep confidential the identity of any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness, except as may be permitted by the FERPA statute, 20 U.S.C. § 1232g, or FERPA regulations, 34 C.F.R. part 99, or as required by law, or to carry out the purposes of 34 C.F.R. part 106, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder. Complaints alleging retaliation may be filed according to shall be addressed pursuant to Board Policy 2006 (Complaint Procedure).

10.1. **Specific Circumstances.**

- 10.1.1. The exercise of rights protected under the First Amendment does not constitute retaliation prohibited by this section.
- 10.1.2. Charging an individual with a code of conduct violation for making a materially false statement in bad faith in the course of a grievance proceeding under this part does not constitute retaliation prohibited under this section, provided, however, that a determination regarding responsibility, alone, is not sufficient to conclude that any party made a materially false statement in bad faith.

11. **Notification of Policy.** The district will notify applicants for admission and employment, students, parents or legal guardians of students, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the district of the existence of this policy. The requirement to not discriminate, as stated in Title IX and 34 C.F.R. part 106, in the district's education program(s) or activities extends to admission and employment, and inquiries about the application of Title IX and 34 C.F.R. part 106 to the district may be referred to the district's Title IX Coordinator, the Assistant Secretary for Civil Rights of the United States Department of Education, or both.

12. **Publication of Policy.** The district will prominently display on its website, if any, and in each handbook that it makes available to applicants for admission and employment, students, parents or legal guardians of students, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the district, the name or title, office address, electronic mail address, and telephone number of the employee or employees designated as the Title IX Coordinator(s).

13. **Application Outside the United States.** The requirements of this policy apply only to sex discrimination occurring against a person in the United States.

14. **Scope of Policy.** Nothing herein shall be construed to be more demanding or more constraining upon the district than the requirements of Title IX (20 U.S.C. § 1681) and 34 C.F.R. part 106. To the extent that the district is in compliance with Title IX and 34 C.F.R. part 106, then all of the district's obligations under this policy shall be deemed to be fulfilled and discharged.

Employees, volunteers, contractors and agents of the Canton School District are prohibited from assisting another school employee, contractor or agent in obtaining a new job if the District or the employee, contractor or agent of the District has knowledge of, or probable cause to believe, that the employee engaged in sexual misconduct with a minor or a student in violation of the law.

“Assisting” includes but is not limited to giving a positive recommendation to a potential employer, but does not include the routine transmission of administrative and personnel files or information related to name of employee, contractor or agent, dates of employment/contract, and position held or work performed.

“Probable cause’ exists where the facts and circumstances within the [person’s] knowledge, and of which they have reasonably trustworthy information, are sufficient in themselves to warrant a belief by a person of reasonable caution that [an offense] has been or is being committed.”

“Sexual misconduct’ is the umbrella term federal regulators use to categorize behavior that includes sexual assault, unwanted sexual contact, and sexual harassment.”

The requirements of this prohibition do not apply if the information giving rise to probable cause has been properly reported to a law enforcement agency, or any other authorities as required by local, state or federal law or regulations, AND at least one of the following conditions applies:

The matter has been officially closed or the prosecutor or police with jurisdiction over the alleged misconduct has investigated the allegations and notified school officials that there is insufficient information to establish probable cause that the school employee, contractor or agent engaged in sexual misconduct regarding a minor or student in violation of the law; or
2. The school employee, contractor or agent has been charged with, and acquitted or otherwise exonerated of the alleged misconduct; or
3. The case or investigation remains open and there have been no charges filed against or indictment of the school employee, contractor or agent within four years of the date on which the information was reported to a law enforcement agency.

PERFORMANCE ASSESSMENT - TEACHERS

The Canton Board of Education recognizes that a sound assessment of the performance of the teaching staff is critical in achieving the educational goals of the district. Although teacher evaluation is a complex and subjective endeavor, it is the philosophy of the Canton School District that the performance assessment process shall indicate the effectiveness of the classroom teacher, shall provide direction and development for the school faculty, and shall protect the rights of school district employees.

Nothing in this policy shall be deemed or construed to assure or imply in any manner the renewal of contracts of employees, the right of employees to receive or retain a particular assignment or position, or the establishment of any personal rights not explicitly established by statute or Board policy. Neither shall anything in this policy be deemed or construed to establish in any manner any conditions prerequisite or similar factors relative to nonrenewal of contracts, transfer, assignment, dismissal, or any other personnel procedures relating to employees of the school district.

The district's performance appraisal system has been established to serve the following purposes:

1. To improve instruction and performance;
2. To enhance the implementation of programs and curriculum;
3. To serve as a measurement of professional growth and development;
4. To appraise the level of performance of certificated personnel.
5. To document unsatisfactory performance for dismissal/non-renewal proceedings

Therefore, administrators who evaluate teaching performance must provide guidelines, suggest ways to overcome difficulties, and make recommendations for improving teaching performance regardless of the current quality of performance.

The Board shall, on a yearly basis, consult with the superintendent of schools, principal, and teachers to review and enhance the assessment process outlined in this policy. The focus of this yearly review shall be to improve the effectiveness of the process in meeting the purposes stated above.

The basic requirements of the performance assessment process shall be:

1. There shall be one annual assessment of all full-time and part-time certificated employees of the district, including at least one formal observation, which shall be completed by April 15. Employees who have not achieved continuing contract status will be observed at least two times. This assessment process shall consist of the following components: goal-setting, informal observation, pre-conferencing (optional), formal observation, data gathering and analysis, self-evaluation, conferencing, third party input (optional), and, if appropriate, a specific improvement plan.
2. All supervision and assessment shall be conducted in a fair and friendly manner and shall be based on effective teaching techniques for each staff member's particular position.
3. All data on which an assessment judgment is based shall be documented and available for the teacher's review. No data gathered by electronic means shall be used without the evaluatee's permission; however, teachers are encouraged to videotape their own teaching and invite their supervisor to view those tapes with them.
4. An assessment document shall be prepared in writing. The document shall be specific as to performance strengths and areas of question and shall specifically identify the time of observation and the data sources. It may contain a written improvement plan which includes specific improvements needed and recommendations for improvement.
5. The staff member concerned shall have an opportunity to review the document with the evaluator and both shall sign and date it as evidence of the review (although the signature does not necessarily constitute agreement with the contents of the report). The staff member shall be given the opportunity to make the final comments ("the last word") on the assessment document, and shall receive a copy of the complete final document.
6. An appeals process shall be available in the event that the evaluatee believes the appraisal procedure has been inappropriately applied. The appeals process begins with the evaluatee indicating a desire to appeal and the basis for appeal directly on the completed final evaluation document. The superintendent will respond to the evaluatee in the first step of the evaluation appeals process. If the evaluatee is not satisfied with the superintendent's response in Step 1, the evaluatee may take his/her appeal to the Board of Education in the second step of the appeals process by submitting a request in writing to the superintendent. The decision of the Board of Education is final.
7. All assessors shall be evaluated on their ability to conduct fair, professional, and credible assessments, and shall receive in-service training to enhance their skills of observation, analysis, and conferencing.

SCHOOL BOARD MEMBER ETHICS

The School Board recognized that there are rules of ethical conduct for public officials and employees that extend beyond the responsibilities and duties delegated by law.

The following principles of conduct will serve as a guide for the official conduct of Board members.

1. I will view service on a school board as an opportunity to serve my community, state, and nation because I believe public education is the best means to promote the welfare of our people and to preserve self government.
2. I will work unremittingly to help the people in my community understand the importance of public education and to support willingly the highest level of education we can afford.
3. I will try to make decisions in terms of the best interests of the educational welfare of children. I will seek to provide an educational opportunity equally open to all children regardless of ability, race, creed, sex or location of residence.
4. I will recognize that my responsibility is not to run the schools but to see that they are well run. I will confine my board action to policy making, planning and appraisal.
5. I will refuse to represent special interests or partisan politics or to use the schools for personal gain or for the gain or friends of supporters.
6. I will arrive at conclusions only after I have discussed matters fully with members of the professional staff and board members. Once a decision has been reached by the majority of the board assembled at the meeting, I will support it graciously.
7. I will recognize that authority vests with the whole board assembled in meeting and that I have no legal status to bind the board outside of a meeting.
8. I will support and protect school personnel in performance of their duties. I will vote only for competent and trained technical and professional personnel who have been properly recommended by the appropriate administrative officer.
9. I will refer all complaints, including my personal criticisms to the appropriate administrative officer and only after failure of administrative solution will discuss such matters at a regular board meeting.
10. I will observe and enforce state laws and regulations pertaining to public education.
11. I will respect the limited intent and scope of executive session and respect privileged communications from executive sessions and other administrative sources.

SCHOOL BOARD MEETINGS

REGULAR MEETINGS

All regular official School Board meetings will be held on the second Monday of each month.

The official meetings of the school board are open to the public unless a specific law is cited by the school board to close the official meeting to the public. An official meeting is any meeting of a quorum of the school board at which official business of the school district is discussed or decided, or public policy is formulated, whether in person or by means of teleconference.

Subject to the following rules, any person may record, through audio or video technology, a school board meeting that is open to the public as long as the recording is reasonable, obvious, and not disruptive.

A person who wishes to audio or video record some or all of an official school board meeting must inform the school board president/chairperson or superintendent prior to the beginning of the meeting of the person's intent to record. At the beginning of the meeting, the school board president will then inform all persons present of the recording.

The quantity and type of recording equipment used shall be subject to the discretion of the school board, and the school board president/chairperson shall have the discretion to exclude or terminate recording of the meeting. This discretion is not to be exercised in an effort to restrict the public's right to be informed of school board meeting proceedings, but only where these rules have been violated.

Recording equipment must not produce distracting light or noise, and no artificial lighting device of any kind shall be employed with a video camera.

Recording equipment must not obstruct the vision of persons attending the school board meeting and their ability to see all school board members.

Any person violating the rules set forth above may be directed to cease the recording or leave the premises.

SPECIAL MEETINGS

Special meetings may be called by the President of the Board, or in his or her absence the Vice-President, or a majority of the Board members. Notice stating the time and place of any special meeting and the purpose for its call, will be given each Board member and the Superintendent by the Business Manager, either orally or in writing, in sufficient time to allow each member's presence. No business other than that stated in the notice will be transacted at a special meeting. Local news media that have requested notice will be notified of the special meeting by mail, e-mail, delivered in person or telephone prior to the meeting.

TELECONFERENCE

Any official meeting, including executive meetings, may be conducted by teleconference. A teleconference is an exchange of information by audio, video, or electronic medium, including the internet. A member is deemed present if the member answers present to the roll call conducted by teleconference for the purpose of determining a quorum. Each vote at an official meeting held by teleconference shall be taken by roll call. A teleconference may be used to conduct a hearing. If the school board conducts an official meeting by teleconference, the school board shall provide a place at which the public may listen to and participate in the teleconference meeting. For any official meeting held by teleconference, which has less than a quorum of school board members participating in the meeting who are present at the location open to the public, arrangements shall be provided for the

public to listen to the meeting via telephone or internet. The requirement to provide one or more places for the public to listen to the teleconference does not apply to an executive meeting.

EXECUTIVE SESSIONS

It is the Board's belief that educational matters should be discussed and decisions made, at public meetings of the Board to fulfill the rationale for the creation of public governing bodies.

However, some matters are more properly discussed by the Board in private session. As permitted by law, an executive or closed meeting may be held for the sole purposes of: (1) Discussing the qualifications, competence, performance, character or fitness of any public officer or employee or any independent contractor; (2) Discussing the expulsion suspension discipline, assignment of or the educational program of a student; (3) Consulting with legal counsel of reviewing communications from legal counsel about proposed or pending litigation or contractual matters; (4) Preparing for contract negotiations or negotiating with employees or employee representatives; (5) Discussing marketing or pricing strategies by a board or commission of a business owned by the state or any of its political subdivisions, when public discussion may be harmful to the competitive position of the business. All discussions will be considered confidential, but all official actions concerning the matters discussed will be made only at an open official meeting.

An executive session may be held only upon a majority vote of the members of the Board present and voting. The motion calling for an executive session must refer to the general purpose for which it is called. BOARD MEETING AGENDAS

The school board is committed to conducting the public's business in public and providing community members an opportunity to observe and participate in school board meetings. In keeping with those commitments, and to provide for the orderly conduct of the district's business, the superintendent, in cooperation with the board president, will prepare board meeting agendas that outline matters to be brought to the school board's attention at meetings.

The district will attempt to accommodate anyone who may request to have an item placed on a board meeting agenda, provided the request is reasonable, timely and made in a manner consistent with board policy and board meeting procedures. Each agenda will reflect that the board reserves suitable time at each meeting to allow citizens to address the board.

CONSENT AGENDA

To encourage efficiency during school board meetings, the school board may elect to use a consent agenda for items which usually do not require discussion or explanation. A consent agenda allows the board to consider and vote on certain items as a group with a single motion.

Any item may be removed from the consent agenda at the request of any school board member. All requests shall be honored and do not require a second by any member or a vote of the entire board. An agenda item removed from the consent agenda will be discussed and acted upon immediately following the consideration of the consent agenda.

PUBLIC PARTICIPATION AT BOARD MEETINGS

The Board welcomes the public to attend its sessions so they may become better acquainted with the operation and programs of the schools. While public participation is encouraged at the meeting, public board meetings are for the school board to conduct its business in public, and are not meetings of the public.

In order to assure that citizens who wish to appear before the Board may be heard, and, at the same time, allows the Board to conduct its meetings properly and efficiently, the following procedures have been adopted:

Public Forum Procedures

1. Each Public Forum participant is required to complete the "Public Forum Sign-In Sheet" which lists the person's name, address, phone number and topic in which he/she wishes to speak. This must be presented to the Superintendent prior to speaking. Any individual who desires to speak about an item on the agenda is asked to raise his/her hand during the meeting when the agenda item is being discussed.
2. The speaker's presentation should be as brief as possible. Unless an extension of time is granted by the Chairman, a speaker is limited to 5 minutes.
3. Groups should designate one spokesperson to represent them during the Public Forum.
4. Speakers should not be repetitive in their message and only new information provided.
5. Personnel matters or complaints that directly or indirectly identify an employee shall not be discussed. Such complaints shall be resolved in accordance with the Conflict Resolution policy.
6. Threatening or intimidating remarks will not be allowed.

7. The Board Chairman has the option to stop any speaker that is intimidating, offensive or deals with a personnel matter.
8. Public Forum will be limited to 30 minutes but may be extended for an identified period of time by a vote of the Board of Education.
9. The board will not take formal action on any item brought up in Public Forum. Citizens who desire Board action on an item not on the agenda, will submit the item to the Superintendent's office at least 10 days prior to the meeting of the Board, at which they wish for the item to be considered.

BOARD POLICY DEVELOPMENT

The Board considers policy development one of its chief functions. It is the intent of the Board to develop policies and put them in writing so that they may serve as guidelines and goals for the successful and efficient functioning of the public schools.

It is through the development and adoption of written policies that the Board will exercise its leadership in the operation of the school system; it is through study and evaluation of reports concerning the execution of its written policies that the Board will exercise its control over school operations.

It is the Board's intention that its written policies serve as guides for the discretionary action of those to whom it delegates authority and as a source of information and guidance for all persons who are interested in, and affected by, the district schools.

The policies of the Board are developed, and are meant to be interpreted, in terms of state laws, regulations of the State Board of Education, and other applicable county, state and federal regulations. The policies are also framed, and meant to be interpreted, in terms of those educational objectives, procedures and practices that are broadly accepted by leaders and authorities in the public education field. Policies adopted by the board shall not be construed so as to create contractual relationships which must be otherwise established.

Access to District Policies is available on the school website www.canton.k12.sd.us.

Changes in needs, conditions, purposes and objectives will require revisions, deletions and additions to the policies of present and future boards. The Board will welcome suggestions for ongoing policy development.

PRELIMINARY DEVELOPMENT OF POLICIES

Proposals regarding school district policies and operations may originate at any of several sources: a parent, a student, a community resident, an employee, a member of the Board, the superintendent, a consultant, a civic group.

A careful and orderly process will be used in examining such proposals prior to action upon them by the Board.

Final action on such proposals, whatever their source, will be by the Board in accord with its policy on policy adoption. The Board will take action on most matters on the basis of recommendations presented to the Board by the superintendent. The superintendent will base his/her recommendations on the outcomes of study and upon the judgment of the professional staff and study committees.

POLICY ADOPTION

Adoption of new policies or changing existing policies is solely the responsibility of the Board. Policies will be adopted and/or amended only by the affirmative vote of a majority of the members of the Board when such action has been scheduled on the agenda of a regular or special meeting.

To permit time for study of all new policies or amendments to policies and to provide an opportunity for others to react, proposed policies or amendments will be presented as an agenda item to the Board in the following sequence:

1. Information item--distribution with agenda (this may be an announcement that a policy is being developed in a particular area and that interested persons may submit suggestions).
2. First Reading/discussion item--first reading of proposed policy or policies; response from superintendent; report from any Board or advisory committee assigned responsibility in the area; Board discussion and directions for any redrafting.
3. Second Reading/action item--discussion, adoption or rejection.

Amendments to the policy at the action stage will not require repetition of the sequence, unless the Board so directs.

In instances, the Board may dispense with the above sequence to meet emergency conditions.

Policies will be effective upon adoption by the Board. Once adopted, policies of the Board will be distributed to the community, staff and students.

The Board will readopt its collection of written policies annually at the organizational meeting.

EVALUATION OF SCHOOL BOARD OPERATIONAL PROCEDURES

The Board will review its performance annually to ensure its proper discharge of responsibilities to the community. The Board recognizes that fault-finding and disparaging remarks serve no constructive purpose, and therefore, evaluation will be based on a positive approach, which will indicate the strengths of the Board and the areas of needed improvement.

The evaluation would meet local needs and provide for objective examination. Certain conditions are recommended to help the Board meet this goal, and thereby provide for the improvement of school board leadership. These conditions include:

1. Board member involvement in the development of standards by which they will evaluate themselves.
2. Holding the evaluation at a scheduled time and place, with no other items on the agenda, at a study or executive session and with all Board members present.
3. Developing a composite of individual members' opinions, and discussion of the results of a Board as a whole.
4. Supporting each judgment by as much rational and objective evidence as possible.

Upon final discussion of the results, the Board will develop both short- and long-range priorities to ensure continued proficiency in its areas of excellence, strengthening of adequate or weak areas and elimination of those areas no longer applicable to its performance.

ADMINISTRATION GOALS

The purpose of school administration is to help create and foster an environment in which pupils can learn most effectively. All administrative duties and functions will be appraised in terms of the contributions that they make to better instruction and to higher student motivation and achievement.

The Board will rely on its chief executive officer, the superintendent of schools, to provide the professional administrative leadership that such a goal demands. The design of the administrative organization will be such that all schools are part of a single system subject to the policies set forth by the Board and implemented through a single chief administrator, the superintendent. Within district policies and regulations, principals will be responsible and accountable for the administration of their respective schools.

Major goals of administration in the district will be:

To manage the district's various units and programs effectively.

To provide professional advice and counsel to the Board and to any advisory groups established by Board action.

To implement the management function through a team management approach so as to assure the best and most effective learning programs through achieving such sub-goals as (a) providing leadership in keeping abreast of current educational developments (b) arranging for the staff development necessary to the establishment and operation of learning programs, facilities, equipment, and materials; and (c) providing access to the decision making process for the ideas of staff, students, parents and others.

EVALUATION OF THE SUPERINTENDENT

The purpose of the superintendent evaluation is to:

- A. Assist the superintendent in the performance of the duties.
- B. Provide a basis for determining employment status and salary.
- C. Assist in maintaining open communications with the school board.
- D. Provide feedback regarding the successful aspects of job performance.
- E. Provide feedback regarding aspects of performance that need improvement.

The superintendent will be evaluated by the school board in a manner determined by the board. Data for the evaluation may be gathered from other administrators, teachers, other school employees, community members and board members. The evaluation will be reduced to writing and presented to the superintendent in an executive session of the school board. The evaluation must be signed by the board chairperson and the superintendent. The superintendent's signature will indicate that the evaluation and conference took place and that a copy of the evaluation was presented to the superintendent regarding any or all parts of the evaluation within 10 working days following receipt of the evaluation.

The superintendent shall be evaluated at least once each semester during the first two years of employment in the district and at least once each year after the second year of employment.

The criteria upon which the superintendent will be evaluated follow:

- A. Relationships with the Board.
- B. Community Relationships.
- C. Staff and Personnel Relationships.
- D. Educational Leadership.

- E. Business and Finance.
- F. Personal Qualities.

A final written recommendation shall be presented to the superintendent by the board no later than the third Monday in March for continuing contract superintendents and no later than May 1 for superintendents not under continuing contract. The recommendation shall consist of one of the following:

ADMINISTRATIVE ORGANIZATION PLAN

The central administration will be organized in a manner that assures that the schools will be able to effectively and efficiently carry out programs and respond to any new programs demanded by needs or opportunities, or suggested by research or successful practice. The organization must allow the schools opportunities to address their particular needs and improve existing programs.

The legal authority of the Board will be transmitted through the superintendent along specific paths from person to person through the approved organizational structure.

The organizational structure approved by the Board will represent direction of authority and responsibility; it will not restrict cooperation among staff members at all levels or the flow of ideas necessary in the decision-making processes.

The superintendent will be responsible for keeping the administrative structure of the school district up to date with the changes in goals, curriculum, instructional arrangements, and school services, and will recommend revisions in the structure as necessary to the Board.

LINE AND STAFF RELATIONS

All personnel employed by the Board will be responsible to the Board through the superintendent. The Board expects that the superintendent will establish clear understandings on the part of all personnel of the working relationships in the school district.

Personnel will be expected to refer matters requiring administrative action to the administrator to whom they are responsible. The administrator will refer such matters to the next higher administrative authority when necessary. Additionally, all personnel are expected to keep the person to whom they are immediately responsible informed of their activities by whatever means the person in charge deems appropriate.

It is expected that the established lines of authority will serve most purposes. But all personnel will have the right to appeal any decisions made by an administrative officer in accordance with the approved grievance procedures.

Additionally, lines of responsibility and authority do not restrict in any way the cooperative, sensible working together of all people on all professional level? in order to develop the best possible school program. The established lines of authority represent direction of authority and responsibility in the implementation of policy; when the staff is working together to improve the district's programs and operations, the lines represent avenues for a two-way flow of ideas.

APPROVAL OF HANDBOOKS AND DIRECTIVES

To make pertinent Board policies, district regulations and departmental and/or school rules and procedures known to all staff members and students, district administrators and principals are granted authority to issue staff and student handbooks as found necessary and desirable.

Therefore, the Board expects all handbooks to be approved prior to publication by the superintendent or other district administrator(s) as he/she directs.

The superintendent will use his/her judgment as to whether a specific handbook needs approval by the Board. However, all handbooks published will be made available to the Board for informational purposes.

As in the case of regulations affecting staff members, handbooks published specifically for a particular group of employees will be distributed to all of the employees affected.

FACILITY USE POLICY**GUIDING PRINCIPLES**

The public schools belong to the people of the district, and since plant facilities are established, maintained, and operated by funds largely provided by local taxes, the Board of Education accepts the responsibility for making the public school facilities of the Canton School District available to the community for appropriate activities which do not infringe upon or interfere with the conduct and best interest of the school system. Therefore, the Board actively seeks to respond to the educational, recreational and cultural needs of the total community through the resources of the community schools based upon the following criteria:

1. Any activity connected with a Canton School District program will take precedence over any request for use of the District property for any other purpose. Priority will then first be given to school activities and Community Education activities.
2. The District facilities may be used by other groups or organizations in the community when such use does not conflict with District programs.
3. Each request will be evaluated for the potential damage to the requested facility or equipment. This evaluation may result in special restrictions, fees, or denial of the request.
4. All groups using District assets shall abide by applicable State and Federal laws and Board policy.

It is understood that such use shall be for community purposes or the promotion of community activities and that any program shall have worthwhile educational, recreational, or cultural values and is free from objectionable qualities. It is also understood that District permission to rent or make available District facilities does not imply or infer any endorsement by the District.

APPLICATION PROCEDURES

1. Community groups wishing to use any district facilities are required to complete a Facility Use Request Form (FDF-1) and submit it to the Superintendent at least 72 hours in advance of the event. The Superintendent will then act upon the request following the established policies to ensure that proper activities will be carried on which will not cause damage to facilities or equipment.
2. If the request is approved, the Superintendent will provide the representative of the group making the request with a contract. The contract will contain all fee information as well as all operating procedures that will need to be followed.
3. The applicant shall be held fully responsible for the proper use of the building facilities and the conduct of persons in attendance. All activities must be under the sponsorship and supervision of a competent adult(s) who is directly responsible to the organization. Should damage or theft occur as a result of failure to comply, the individual or organization shall make prompt payment for any assessments levied by the district.
4. All payments for the use of school facilities will be made to the Business Manager of the Canton School District. Failure to make payment within a reasonable length of time, following the use of facilities, shall be considered justification for canceling or withholding permission for subsequent use.

LIMITATIONS AND RESTRICTIONS ON USE OF FACILITIES

Permission will not be granted to any group or individual for the following:

1. Promulgating any theory or doctrine subversive to the laws of the United States or any political subdivision thereof advocating governmental change by violence.
2. Any activity that may violate the canons of good morals, manners, or taste or be injurious to the buildings, grounds or equipment.

3. Any purpose in conflict with school activities.
4. Activities which are discriminatory in the legal sense.
5. Fund raising purposes except those intended to be of a benefit or service to students of the school district or are permitted by special action by the Superintendent or the Board.
6. Public school buildings and classroom equipment may not be used for private teaching for which tuition charge is made either by staff members employed by the school district or by any other outside agencies or persons, unless specifically authorized by the Board of Education.

REASSIGNMENT

No organization or individual having been issued a permit for use of a school facility can sublet or assign any part of the facility to another individual or group.

SMOKING/ALCOHOLIC BEVERAGES

The use of intoxicating liquor shall not be permitted on school property. The Canton School District Board of Education, recognizing that the Surgeon General of the United States has stated that tobacco, tobacco products and tobacco smoke pose a serious threat to the health and well-being of the district's students, employees and patrons, and knowing that these products are detrimental to a healthful and effective operation of the schools, hereby adopts the following policy:

1. The use of all tobacco products is strictly forbidden on school campuses and in all school vehicles.
2. This policy applies to all persons regardless of age and regardless of whether they may legally use the products.

USE OF SCHOOL EQUIPMENT

A request to use public address systems, projection equipment and screens, spotlights, stage sceneries, pianos, tables and chairs, volleyball poles and nets, etc., must be included in the original application for the use of school property.

USE OF SCHOOL CAFETERIAS AND KITCHENS

The use of cafeteria dining rooms may be granted with or without use of kitchen facilities.

1. A regular working supervisor of the cafeteria staff must be present while the kitchen is in use. The said supervisor will be paid the prevailing hourly rate of time and a half and be contacted in this regard by the Superintendent of the school district. The charge will be billed to the organization.
2. The working supervisor shall operate all burners and ovens which may be used and generally supervise the use of the cafeteria and equipment.
3. The group granted the use of the cafeteria would see that tables, floors and equipment are cleaned to the satisfaction of the supervisor. All decorations are to be removed and garbage and waste disposed of at the direction of the supervisor on duty.
4. Children under 12 years old are not allowed in the school cafeteria kitchens.
5. The Food Service Director must be involved in the planning, operation, and supervision of any event which will use the cafeteria kitchen and/or equipment.

CUSTODIAL SERVICES

A school custodian may be assigned for continuous duty during the time the group is using the school facility outside of the regular working hours. The custodian will open the building prior to the time set for the meeting, make any necessary arrangements for the requested facility and be on call should the need arise during the time of the event. No one except qualified custodians shall be allowed to operate or adjust equipment in the building.

Custodians are instructed not to open any areas other than those requested in the application process. Additional space may be arranged by filing an additional application.

BUILDING USE WITHOUT CHARGE

No rental fee shall be charged to the following school affiliated and community youth serving organizations for their regularly scheduled meeting (except a key deposit when necessary):

1. Parent/Teacher Associations, Band Parents, Booster Clubs
2. Boy Scouts/Cub Scouts/Girl Scouts/Brownies/4-H groups
3. Latchkey Activities
4. Organizations or groups which the Board so designates.

If there should be facility use by the above mentioned community groups that requires school employees (custodial or food service) to be present for additional time other than regular employed hours, the organization will be charged according to its regular scale as determined by the policies of the Board of Education.

BUILDING USE SUBJECT TO CHARGE

Charges made for the use of school facilities are not rentals, as that term is generally considered, but are based upon cost of operating expenses that would otherwise have been incurred. This includes items such as utilities, supplies, maintenance of facilities, custodial and cafeteria services, as well as clerical services necessary to process each application. Such charges are subject to change, as the Board of Education may deem necessary. Fees per usage rental period will be charged as indicated below.

A 10% non-refundable fee is necessary in order to reserve the facility for the requested date.

A 50% deposit is required in order to obtain the keys to the facility for the event.

- Stop the vehicle and protect the scene to prevent a secondary accident
- Activate flashers
- Call for medical assistance and assist any injured people, if necessary
- Call the police and School Supervisor as soon as possible
- Locate any witnesses and get important information from them. If possible, get names, addresses and phone numbers
- Exchange pertinent information with other drivers

Vehicle accident reports are to be filled out by the driver and returned to the Superintendent as soon as reasonably possible. The Superintendent will determine accident preventability and the proper course of disciplinary action that might be necessary. Trends in types of accidents or multiple accidents by the same driver will receive additional scrutiny, as they may signal the need for driver training or changes to driver selection procedures.

Reporting Vehicle Accident Involving Employee Injury

Employees injured on the job are to report the injury to the Business Manager within 72 hours. The Business Manager will follow the established employee injury or accident investigation program. The goal of this reporting and investigation process is not to find fault, but to determine the root cause so that corrective actions can be made in order to prevent future accidents or incidents.

In application for a CDL bus driver's license and in accordance with state law, each bus driver will be required to have a physical examination every other year.

Part II**DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS**

School bus drivers shall be subject to a drug and alcohol-testing program that fulfills the requirements of the Federal Code of Federal Regulations. Other persons who drive vehicles designed to transport 16 or more passengers, including the driver, are likewise subject to the drug and alcohol-testing program. In an effort to comply with federal law by the required compliance date, any testing done under the district's permissive authority before that date shall be conducted in accordance with the procedures set forth in federal regulations.

Pre-employment Test

Tests shall be conducted before the first time a driver performs any safety-sensitive function for the district. Any driver who refuses to submit to a pre-employment, post offer test shall not perform safety sensitive functions.

Safety-sensitive functions include on-duty functions performed from the time a driver begins work or is required to be ready to work until he/she is relieved from work and all responsibility for performing work. It includes driving; waiting to be dispatched; inspecting and servicing equipment; supervising; performing or assisting in loading and unloading; repairing or obtaining and waiting for help with a

disabled vehicle; performing driving requirements related to accidents; and performing any other work for the district or paid work for any other entity.

Drug and Alcohol Testing For School Bus Drivers

The tests shall be required of an applicant only after he/she has been offered the position.

Exceptions may be made for drivers who have had the alcohol test required by law within the previous six months and participated in the drug-testing program required by law within the previous 30 days, provided that the district has been able to make all verifications required by law.

Post Accident Tests

Alcohol and controlled substance tests shall be conducted as soon after an accident as practicable on any driver:

Who was performing safety-sensitive functions with respect to the vehicle, if the accident involved loss of human life; or

Who receives a citation under state or local law for a moving traffic violation arising from the accident.

No such driver shall use alcohol for eight hours after the accident, or until after he/she undergoes a post-accident alcohol test, whichever occurs first.

If an alcohol test is not administered within two hours or if a drug test is not administered within 32 hours, the district shall prepare and maintain records explaining why the tests were not conducted. Tests need not be given if not administered within eight hours after the accident for alcohol or within 32 hours for drugs.

Tests conducted by authorized federal, state or local officials will fulfill post-accident testing requirements provided they conform to applicable legal requirements and are obtained by the district. Breath tests will validate only the alcohol test and cannot be used to fulfill controlled substance testing obligations.

Random Tests

Tests shall be conducted on a random basis at unannounced times throughout the year. Tests for alcohol shall be conducted just before; during or just after the performance of safety-sensitive function. Drivers shall be selected by a scientifically valid random process, and each driver shall have equal chance of being tested each time selections are made.

Reasonable Suspicion Tests

Tests shall be conducted when a supervisor or district official trained in accordance with law has a reasonable suspicion that the driver has violated the districts' alcohol or drug prohibitions. This reasonable suspicion must be based on specific, contemporaneous, articulable observations concerning the driver's appearance, behavior, speech or body odors. The observations may include indications of the chronic and withdrawal effects of controlled substance.

Alcohol tests are authorized for reasonable suspicion only if the required observations are made during, just before or just after the period of the workday when the driver must comply with alcohol prohibitions. An alcohol test may not be conducted by the person who determines that reasonable suspicion exists to conduct such a test. If an alcohol test is not administered within two hours of a determination of reasonable suspicion, the district shall prepare and maintain a record explaining why this was not done. Attempts to conduct alcohol tests shall terminate after eight hours.

A supervisor or district official who makes a finding of reasonable suspicion shall also make a written record of his/her observations leading to a reasonable suspicion drug test within 24 hours of the observed behavior or before the results of the drug test are released, whichever is earlier.

Return-to-Duty Tests

A drug or alcohol test shall be conducted when a driver who has violated the districts' drug or alcohol prohibition returns to work to perform safety-sensitive duties.

Employees whose conduct involved drugs cannot return to duty in a safety-sensitive function until the return-to-duty in a safety-sensitive function until the return-to-duty drug test produces a verified negative result.

Employees whose conduct involved alcohol cannot return to duty in a safety-sensitive function until the return-to-duty alcohol test produces a verified result that meets federal and district standards.

Follow-up Tests

A driver who violates the districts' drug or alcohol prohibition and is subsequently identified by a substance abuse professional as needing assistance in resolving a drug or alcohol problem shall be subject to unannounced follow-up testing as directed by the substance abuse professional in accordance with law. Follow-up alcohol testing shall be conducted just before, during or just after the time when the driver is performing safety-sensitive functions.

Records

Employee drug and alcohol test results and records shall be maintained under strict confidentiality and released only in accordance with law. Upon written request, a driver shall receive copies of any records pertaining to his/her use of drugs or alcohol, including any records pertaining to his/her drug or alcohol tests. Records shall be made available to a subsequent employer or other identified persons only as expressly requested in writing by the driver.

Notifications

Each driver shall receive educational materials that explain the requirements of the Code of Federal Regulations, Title 49, Part 382, together with a copy of the districts' policy and regulations for meeting these requirements. Representatives of employee organizations shall be notified of the availability of this information. The information shall identify:

The person designated by the district to answer driver questions about the material;

The categories of drivers who are subject to the Code of Federal Regulations;

Sufficient information about the safety-sensitive functions performed by drivers to make clear what period of the work day the driver is required to comply with Part 382;

Specific information concerning drivers' conduct that is prohibited by Part 382;

The circumstances under which a driver will be tested for drugs and/or alcohol;

The procedures that will be used to test for the presence of drugs and alcohol, protect the driver and the integrity of the testing process, safeguard the validity of test results and ensure that test results are attributed to the correct driver;

The requirement that a driver submit to drug and alcohol tests;

An explanation of what constitutes a refusal to submit to a drug or alcohol test and the attendant consequences;

The consequences for drivers found to have violated the drug and alcohol prohibitions of Part 382, including the requirement that the driver be removed immediately from safety-sensitive functions and the procedures for referral, evaluation and treatment;

The consequences for drivers found to have an alcohol concentration of 0.02 or greater but less than 0.04; and

Information concerning the effects of drugs and alcohol on an individuals' health, work and personal life; signs and symptoms of a drug or alcohol problems (the driver's or a co-worker's); and available methods of intervening when a drug or alcohol problem and/or referral to management.

Each driver shall sign a statement certifying that he/she has received a copy of the above materials. Before any driver operates a commercial motor vehicle, the district shall provide him/her with post-accident procedures that will make it possible to comply with post-accident testing requirements.

When tests are given pursuant to the Code of Federal Regulations, Title 49, Part 382, the district shall so inform drivers before drug and alcohol tests are performed.

The district shall notify a driver of the results of a pre-employment drug test if the driver request such results within 60 calendar days of being notified of the disposition of his/her employment application. The district shall notify a driver of the results of random, reasonable suspicion and post-accident drug tests if the test results are verified positive. The district shall also tell the driver which controlled substance(s) were verified as positive.

Drivers shall inform their supervisors if at any time they are using a controlled substance, which their physician has prescribed for therapeutic purposes. Such a substance may be used only if the physician has advised the driver that it will not adversely affect his/her ability to safely operate a commercial motor vehicle.

A driver who is tested and found to have an alcohol concentration of 0.02 or greater but less than 0.04 shall not perform or continue to perform safety-sensitive functions including driving a commercial motor-vehicle until the start of the driver's next regularly scheduled duty period, but not less than 24 hours after the test was administered.

A driver who in any other way violates district prohibitions related to drugs and alcohol shall receive from the district the names, address, and telephone numbers of substance abuse professionals and counseling and treatment programs available to evaluate and resolve drug and alcohol-related problems. The employee shall be evaluated by a substance abuse professional who shall determine what help, if any, the driver needs in resolving such a problem. Any substance abuse professional who determines that a driver needs assistance shall not refer the driver to a private practice, person or organization in which he/she has a financial interest, except under circumstances allowed by law.

An employee identified as needing help in resolving a drug or alcohol problem shall be evaluated by a substance abuse professional to determine that he/she has properly followed the prescribed rehabilitation program and shall be subject to unannounced follow-up tests after returning to duty.

SERVICE ANIMAL POLICY

The Canton School District has established the following procedures for the evaluation of any request to bring a service animal into the school district on a regular basis, whether the request is coming from a member of the public, a staff member or from a student.

Definition of a Service Animal

The Americans with Disabilities Act of 2010, under 28 CFR 35.104, define a service animal as follows:

Any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protections or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals of diabetic highs and lows, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone,

providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, and companionship do not constitute work or tasks for the purposes of this definition.

Admission of Service Animals to Public Events

Individuals with disabilities may be accompanied by their service animal while on district property for events that are open to the general public.

School district staff may inquire of the owner or handler of the animal whether the animal is required because of a disability and the specific tasks that the animal has been trained to perform. Staff may not ask questions about an individual's disability. The district shall not require an owner or handler of a service animal to pay an extra charge for the animal to attend events for which a fee is charged.

Procedures for Admission of Service Animal into the School Building

Prior to the admission of any service animal to be present in the school building on a regular basis, the parent of the student or the individual employee requesting the presence of a service animal must provide written notification of the intent to bring a service animal into the school. The notification must include the following information which will be presented to the building principal for his/her approval:

- Documentation of a diagnosed disability with a statement of medical needs.
- A description of the specific disability related work or task(s) the dog is trained to perform for the individual in school.
- Documentation of appropriate and current vaccinations, a statement of good health and the absence of any parasites from a licensed veterinarian, as well as any required municipal licensure.
- A criminal background check for the handler when the student is not the handler.

No service animal may be brought into any district building by a staff member or student without prior approval. See Appendix A for Annual Registration of a Service Animal.

Responsibility and Care of Service Animal

The Canton School District is not responsible for the care or supervision of a service animal, including walking the animal or responding to the animal's need to relieve itself. The owner or handler of a service animal shall be solely responsible for:

- Supervision and care of the animal, including any feeding, exercising, clean up and stain removal. In the case of a young child or a student with disabilities who is unable to care for or supervise the service animal, the parent is responsible for providing care and supervision of the animal.
- Control of the animal at all times through the use of a harness, leash, tether, or by other effective means.
- Required training for the use of, and inclusion of, the service animal in the school environment will be the responsibility of the parent or their animal's service organization. This includes any training required for the students or staff in that school.

Liability

The staff member owning the service animal or the student/parent owner is liable for any damage to school district or personal property and any injuries to individuals caused by their service animal. The school district is not responsible for any costs related to the service animal. The staff member or student/parent who uses a service animal on school district property will hold the school district harmless, and indemnify the school district from any such damages. See Appendix A for registration of a service animal.

Exclusion of Service Animal

A service animal may be denied access to school property if any of the following occur:

- The dog is not housebroken.
- The dog acts more like a pet than a service animal.
- The dog is not under the control of its handler. The dog must have a harness, leash or other tether, unless the handler is unable because of a disability to use a harness/leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective use of work or tasks. In this case, the handler must use voice control, signal, or other effective means to control the service animal.
- The dog poses a direct threat to the health or safety of others that cannot be eliminated by reasonable accommodations/modifications.
- The inclusion of the dog represents a fundamental alteration or disruption to the learning environment.

If a service animal is excluded, the individual with a disability will still be given an equal opportunity to participate in district services, programs, or activities with appropriate accommodations, modifications, and supports but without the presence of the service animal on the premises.

Appeal Process

Any individual with a service animal who is aggrieved by a decision to exclude, limit, or remove a service animal may appeal that decision to the superintendent. The appeal must be in writing and provide specific and detailed information regarding the basis of the appeal. Decisions made by the Superintendent may be appealed to the Canton Board of Education.

Parents of Non-Service Animal Students

Parents of non-service animal students may request a change of placement for their child if they do not wish to have their child in the same classroom with a service animal.

FACILITIES DEVELOPMENT GOALS

The Board accepts the premise that a school building should reflect the philosophical convictions of the school district about education. The Board recognizes, however, that educational programs are neither unchanging or simple to incorporate into a facility plan. Anticipation of program change makes the need for flexible use of buildings necessary.

School buildings will be functionally compatible with desired school experiences. The program, not the physical setting, will dictate the manner in which the building is used.

The Board recognizes that funds are limited, and when planning facilities, priorities must be established to make the best use of the school building dollar. The Board's first objective will be to develop a plan that provides adequate space for each student's educational development. Whenever possible, the cultural as well as educational needs of the community will be considered in planning facility expansion.

Architects retained by the Board will be expected to plan for simplicity of design; sound economics, including low long-range maintenance costs, efficiency in energy needs, low insurance rates; high educational use; and flexibility.

FACILITIES PLANNING

The Board is responsible for the regular operation and orderly development of its physical plant. For this reason, the Board will concern itself with both short- and long-range planning as it relates to the properties of the school district.

To this end, the Board will follow the policy of having a long-term building program to serve as a guide for capital improvements. In developing a long-range program, the Board, will monitor:

1. The analysis of existing facilities in terms of capacity and function.
2. The projection of life expectancy of facilities and maintenance costs.
3. Enrollment projections and community development patterns.
4. Site availability and acquisition.
5. Changing instructional requirements and services.

This program will be subject to systematic study, revision, and extension from time to time, and the respective construction projects will be acted upon individually when proposed for implementation.

The Board's building program will be designed to provide adequate facilities to conduct approved educational programs for students residing in the district. The building program will be based upon specific Board policies related to curriculum, availability of construction funds, and changes in enrollments.

FACILITIES CAPITALIZATION PROGRAM

To finance the facilities program, the Board, as established by law, may at its discretion authorize an annual tax levy not to exceed 3 dollars per thousand dollars on the taxable valuation of the district for the capital outlay fund. The Board may also issue and sell capital outlay certificates. Money received from the sale of these certificates will also be placed in the capital outlay fund. Capital Outlay certificates exceeding 1 ½% of taxable valuation of the school district are subject to hearing and to referendum.

The capital outlay fund is a fund provided by law to meet expenditures on three hundred dollars or more for the purchase of land; improvement of grounds; construction of, additions to and remodeling of facilities; or for the purchase of equipment. It may also be used for installment of lease-purchase payments for the purchase of real property, plant or equipment, where the installment of lease purchase contract does not exceed 20 years, and for the payment of the principal and interest of capital outlay certificates. When used for the purchase of capital outlay certificates and the payment of installment or lease-purchase contracts, the total accumulated unpaid principal balances cannot exceed three percent of the taxable valuation.

Construction of new facilities, or additions to facilities which will require advertising for bids, must have a public hearing at least 10 days prior to the advertisement of any contract specifications. Following this public hearing and approval of the Board, the district may use the capital outlay fund for payment of the new construction or addition; however, the district may not change the originally advertised use of the fund without holding another public hearing.

In accordance with law, the Board will develop and maintain a five-year plan on the annual projected revenues and expenditures for the capital outlay fund. The projected expenditures will itemize the projected costs for new or additional facilities.

If you are planning to issue such certificates, ASBSD urges that every district makes sure it meets all of the statutory requirements. To ensure compliance it is advisable to consult with your school attorney and you may also wish to involve a financial consultant.

FACILITIES DEVELOPMENT PLANS AND SPECIFICATIONS

Schools are generally planned and designed for educational purposes for many years in the future. To provide long-term usefulness to the district and to justify the expensive investment in a school plant, the

following general principles will be applied to the design of new buildings and the renovation of older facilities.

1. **Flexibility:** Versatile construction materials will be used so as to provide a building adjustable to future changes in curriculum and teaching methods.
2. **Durability:** Buildings will be constructed of durable materials. These may not necessarily be expensive; on the other hand, materials of an initial higher cost may be chosen to offset operational or maintenance expense.
3. **Safety:** Construction materials, and architectural and equipment specifications will meet the state safety requirements to ensure the safety of the students and staff, as well as other persons who may use the school facilities.
4. **Expandability:** The building design should provide for the possibility of future addition, while leaving the original concept of the structure intact.
5. **Accessibility:** Buildings should be designed to allow easy flow of traffic for all who use the building. This principle applies not only to vehicular traffic (accessibility to public thoroughfares and ample provision for parking), but also to the establishment of good traffic patterns inside the school.
6. **Environmental:** Aesthetic values and energy conservation measures will be considered in planning the total school environment. In order to provide the best possible learning environment, the surroundings should be comfortable, pleasing, and safe.

Before advertising for bids on the plans and sites for the building or remodeling of school facilities, the Board will submit all plans to the Superintendent of Elementary and Secondary Education for examination and approval.

CONSTRUCTION COST ESTIMATES AND DETERMINATIONS

Preliminary and Final Estimates

After the architectural firm has been selected, a cost ceiling estimate indicating the maximum cost of the new construction of remodeling project will be submitted by the architect. Then after final plans have been made concerning building design and building size or remodeling needs a final cost estimate will be drawn up by the architect.

Periodic and Final Computations During Construction

At regular intervals during the construction period, the school superintendent, business manager, the architect, the contractor, construction superintendent, and, if necessary, the school attorney will review earlier projected costs and actual construction expenditures to determine the financial position of the project at that particular point. VETERAN'S PREFERENCE

If a veteran possesses the qualifications necessary to discharge the duties of the position involved, the veteran shall receive preference for employment and promotion. For the purposes of this policy, the term "veteran" means any person who:

- (1) has served the full obligation for active duty, reserve, or National Guard service in the military, or received an early discharge for a medical condition, hardship, reduction in force, or at the convenience of the military; and
- (2) has been separated or discharged from such service honorably or under honorable conditions.

In order to determine if the veterans' preference applies, each applicant for employment shall complete an employment application on which the applicant is asked if the applicant is a veteran. All veterans are subject to criminal background check requirements as set forth in state law.

Age, loss of limb, or other physical impairment which does not in fact incapacitate does not disqualify the veteran. A veteran who has a service-connected disability shall be given a preference over a nondisabled veteran.

The unmarried spouse of a veteran who died while in service, or later died from a service connected cause, is entitled to the preferences given to the veteran if the spouse possesses the qualifications and business capacity necessary to discharge the duties of the position involved. If a veteran disabled due to a service connected cause is unable to exercise the right to a veteran employment preference due to the disability, the veteran's spouse is entitled to the preferences given to the veteran if the spouse possesses the qualifications and business capacity necessary to discharge the duties of the position involved.

If a veteran applies for appointment for employment under this policy, the District shall, before employing anyone to fill the position, investigate the qualifications of the applicant. If the applicant possesses at least the minimum qualifications necessary to fill the position, the officer, board, or person shall interview the applicant. However, nothing within this policy requires the school district to hire a veteran interviewed. At the conclusion of the hiring procedure and protocol, should a veteran and nonveteran be equally qualified for the position the veteran shall be granted veteran's preference and shall be offered employment in the position.

USE OF ALCOHOL, DRUGS, AND CONTROLLED SUBSTANCES

Student and employee safety is a paramount concern to the school board. Employees under the influence of alcohol and/or other drugs are a serious risk to themselves, to students, and to other employees. Therefore, the school board will not tolerate the unlawful manufacture, use, possession, sale, distribution, or being under the influence of alcohol and/or other drugs on school property or at a school event off school property. Additionally, it shall be a violation of this policy for any employee to manufacture, use, possess, sell, distribute or be under the influence of medical cannabis in any manner inconsistent with South Dakota state law. Any employee who violates this policy will be subject to disciplinary action, which may include dismissal, and referral for prosecution. Each employee of the district is hereby notified that, as a condition of employment, the employee must abide by the terms of this policy and will report to the superintendent any criminal alcohol and/or other drug statute convictions for any alcohol and/or drug violation. Such notification must be made by the employee to the superintendent no later than five (5) days after conviction. Should the affected employee be the superintendent s/he will report to the Board no later than the next regular meeting of the Board. Within thirty (30) days after receipt of information concerning an alleged or proven violation(s) of this policy, the district will take appropriate disciplinary action, which may include termination of employment, requiring the employee to participate in alcohol and/or other drug abuse assistance or rehabilitation programs, and possible referral for prosecution.

The school board recognizes that employees who have an alcohol and/or other drug use/abuse problem should be encouraged to seek professional assistance. An employee who requests assistance shall be provided a listing of the regional treatment facilities or agencies to assist him/her in their choice of a service provider.

If there is reason to suspect that a staff member is under the influence of alcohol and/or illegal drugs, the staff member will not be allowed on school property or to participate in school activities. Staff members will be subject to discipline for arriving at school or at a school activity under the influence of alcohol and/or an illegal drug. For the purposes of this policy, "illegal drug" means narcotics, drugs and controlled substances as defined in federal law or state law. "Illegal drugs" also includes any prescription or over-the-counter drug that does not meet the following four criteria:

1. the employee has a current and valid prescription for the drug or the drug is sold over-the-counter;
2. the drug is used or possessed for the purpose for which it was prescribed or sold over-the-counter;
3. the drug is used or possessed at the dosage prescribed or recommended; and
4. the drug is used or possessed consistent with the safe and efficient performance of the employee's job duties.

Any staff member who is taking a drug or medication, whether or not prescribed by the staff member's physician, which may adversely affect that staff member's ability to perform work in a safe or productive manner is required to report such use of medication to his or her supervisor. This includes

drugs that are known or advertised as possibly affecting judgment, coordination or any of the senses, including those that may cause drowsiness or dizziness.

The school board hereby commits itself to a continuing good faith effort to maintain a drug-free environment.

A copy of this policy shall be given to all present and future employees.

MILITARY LEAVE

Employees of the District who qualify under the Uniform Employment and Reemployment Rights Act (USERRA) shall receive all leave, benefits and protections afforded by that Act. Employees requesting military leave will provide notice and documentation to the District as required by USERRA. An employee shall be granted military leave for service in the uniformed services of the United States, upon receipt of the required notice. Benefits shall be maintained for these employees as required by law and any applicable collective bargaining agreement. A service member who returns to the District for work following a period of active military duty must be reinstated to the same or similar position and at the same rate of pay unless otherwise provided by law. Reemployment of a person is excused if an employer's circumstances have changed so that reemployment of the person would be impossible or unreasonable. A reduction-in-force that would have included the person would be an example.

USERRA requires that service members provide advance written or verbal notice to their employers for all military duty unless giving notice is impossible, unreasonable, or precluded by military necessity. An employee should provide notice as far in advance as is reasonable under the circumstances. All requests for military leave will be submitted to the Superintendent or Superintendent's designee accompanied by copies of the proper documentation showing the necessity for the military leave request.

To qualify for USERRA's protections, a service member must be available to return to work within certain time limits. These time limits for returning to work depend (with the exception of fitness-for-service examinations) on the duration of a person's military service.

If the length of service was 30 days or less, the person must report to the District by the beginning of the first regularly scheduled work period that begins on the next calendar day following completion of service, after allowance for safe travel home from the military duty location and an 8-hour rest period.

If the length of service was 31 days to 180 days, an application for reemployment must be submitted to the employer no later than 14 days after completion of a person's service. If submission of a timely application is impossible or unreasonable through no fault of the person, the application must be submitted as soon as possible on the next day when submitting the application becomes possible.

If the length of service was 180 days or more, an application for reemployment must be submitted to the employer no later than 90 days after completion of a person's military service.

Disability-related service: The reporting or application deadlines are extended for up to two years for persons who are hospitalized or convalescing because of an injury or illness incurred or aggravated during the performance of military service. The two-year period will be extended by the minimum time required to accommodate a circumstance beyond an individual's control that would make reporting within the two-year period impossible or unreasonable.

Unexcused Delay: A person's reemployment rights are not automatically forfeited if the person fails to report to work or to apply for reemployment within the required time limits. In such cases, the person will be subject to the disciplinary procedures established in the negotiated agreement or respective employee handbook.

Individuals performing military duty of more than 30 days may elect to continue employer sponsored health care for up to 24 months; however, the individual is required to pay 102 percent of the full premium. For military service of less than 31 days, health care coverage is provided as if the service member had remained employed. South Dakota Retirement System shall be done pursuant to USERRA and SDRS requirements.

NOTE:

Military Leave Pay is a mandatory subject of collective bargaining. USERRA does not require an employer to pay employment wages while an employee is on military leave. Whether or not to pay wages, and if wages are paid under what circumstances, will need to be negotiated with CEA this Spring.

FAMILY & MEDICAL LEAVE ACT

The Family and Medical Leave Act ("FMLA") provides eligible employees the opportunity to take unpaid, job-protected leave for certain specified reasons. The maximum amount of leave an employee may use is either 12 or 26 weeks within a 12-month period depending on the reasons for the leave.

Employee Eligibility

To be eligible for FMLA leave, you must:

1. have worked at least 12 months for the District in the preceding seven years (limited exceptions apply to the seven-year requirement); and
2. have worked at least 1,250 hours for the District over the preceding 12 months.

All periods of absence from work due to or necessitated by service in the uniformed services are counted in determining FMLA eligibility.

Conditions Triggering Leave

FMLA leave may be taken for the following reasons:

- birth of a child, or to care for a newly-born child (up to 12 weeks);
- placement of a child with the employee for adoption or foster care (up to 12 weeks);
- to care for an immediate family member (employee's spouse, child, or parent) with a serious health condition (up to 12 weeks);
- because of the employee's serious health condition that makes the employee unable to perform the employee's job (up to 12 weeks);
- to care for a covered Service Member with a serious injury or illness related to certain types of military service (up to 26 weeks) (see Military-Related FMLA Leave for more details); or
- to handle certain qualifying exigencies arising out of the fact that the employee's spouse, son, daughter, or parent is on covered active duty or call to covered activity duty status in the Uniformed Services (up to 12 weeks) (see Military-Related FMLA Leave for more details).

The maximum amount of leave that may be taken in a 12-month period for all reasons combined is 12 weeks, with one exception. For leave to care for a Covered Service Member, the maximum combined leave entitlement is 26 weeks, with leaves for all other reasons constituting no more than 12 of those 26 weeks.

Definitions

A “Serious Health Condition” is an illness, injury, impairment, or physical or mental condition that involves either an overnight stay in a medical care facility, or continuing treatment by a health care provider for a condition that either prevents the employee from performing the functions of the employee’s job, or prevents the qualified family member from participating in school or other daily activities. Subject to certain conditions, the continuing treatment requirement includes an incapacity of more than three full calendar days and two visits to a health care provider or one visit to a health care provider and a continuing regimen of care; an incapacity caused by pregnancy or prenatal visits, a chronic condition, or permanent or long-term conditions; or absences due to multiple treatments. Other situations may meet the definition of continuing treatment.

Identifying the 12-Month Period

The District measures the 12-month period in which leave is taken by the “rolling” 12- month method, measured backward from the date of any FMLA leave with one exception. For leave to care for a covered servicemember, the District calculates the 12-month period beginning on the first day the eligible employee takes FMLA leave to care for a covered servicemember and ends 12 months after that date. FMLA leave for the birth or placement of a child for adoption or foster care must be concluded within 12 months of the birth or placement.

Using Leave

Eligible employees may take FMLA leave in a single block of time, intermittently (in separate blocks of time), or by reducing the normal work schedule when medically necessary for the serious health condition of the employee or immediate family member, or in the case of a covered service member, his or her injury or illness. Eligible employees may also take intermittent or reduced-scheduled leave for military qualifying exigencies. Intermittent leave is not permitted for birth of a child, to care for a newly-born child, or for placement of a child for adoption or foster care. (Refer to Fact sheet #28F) Employees who require intermittent or reduced-schedule leave must try to schedule their leave so that it will not unduly disrupt the District’s operations.

Use of Accrued Paid Leave

The District requires the employee to use accrued paid leave (such as sick leave, personal leave, or vacation), concurrently with your FMLA leave.

Maintenance of Health Benefits

If you and/or your family participate in our group health plan, the District will maintain coverage during your FMLA leave on the same terms as if you had continued to work. If applicable, you must make arrangements to pay your share of health plan premiums while on leave. In some instances, the District may recover premiums it paid to maintain health coverage or other benefits for you and your family. Use of FMLA leave will not result in the loss of any employment benefit that accrued prior to the start of your leave.

Notice and Medical Certification

When seeking FMLA leave, you are required to provide:

1. sufficient information for us to determine if the requested leave may qualify for FMLA protection and the anticipated timing and duration of the leave. Sufficient information may include that you are unable to perform job functions, a family member is unable to perform daily activities, the need for hospitalization or continuing treatment by a health care provider, or circumstances supporting the need for military family leave. You must also inform the District if the requested leave is for a reason for which FMLA leave was previously taken or certified. If the need for leave is foreseeable, this information must be provided 30 days in advance of the anticipated beginning date of the leave. If the need for leave is not foreseeable, this information must be provided as soon as is practicable and in compliance with the District's normal call-in procedures, absent unusual circumstances.
2. medical certification supporting the need for leave due to a serious health condition affecting you or an immediate family member within 15 calendar days of the District's request to provide the certification (additional time may be permitted in some circumstances). If you fail to do so, we may delay the commencement of your leave, withdraw any designation of FMLA leave or deny the leave, in which case your leave of absence would be treated in accordance with our standard leave of absence and attendance policies, subjecting you to discipline up to and including termination. Second or third medical opinions and periodic re-certifications may also be required;
3. periodic reports as deemed appropriate during the leave regarding your status and intent to return to work; and
4. medical certification of fitness for duty before returning to work, if the leave was due to your serious health condition. The District will require this certification to address whether you can perform the essential functions of your position.

Failure to comply with the foregoing requirements may result in delay or denial of leave, or disciplinary action, up to and including termination.

Employer Responsibilities

To the extent required by law, the District will inform employees whether they are eligible under the FMLA. Should an employee be eligible for FMLA leave, the District will provide him or her with a notice that specifies any additional information required as well as the employee's rights and responsibilities. If employees are not eligible, the District will provide a reason for the ineligibility.

The District will also inform employees if leave will be designated as FMLA-protected and, to the extent possible, note the amount of leave counted against the employee's leave entitlement. If the District determines that the leave is not FMLA-protected, the District will notify the employee.

Job Restoration

Upon returning from FMLA leave, eligible employees will typically be restored to their original job or to an equivalent job with equivalent pay, benefits, and other employment terms and conditions.

Failure to Return After FMLA Leave

Any employee who fails to return to work as scheduled after FMLA leave or exceeds the 12-week FMLA entitlement (or in the case of military caregiver leave, the 26-week FMLA entitlement), will be subject to the District's standard leave of absence and attendance policies. This may result in termination if you have no other District-provided leave available to you that applies to your continued absence. Likewise,

following the conclusion of your FMLA leave, the District's obligation to maintain your group health plan benefits ends (subject to any applicable COBRA rights).

Other Employment

The District strongly discourages employees from holding other employment during any absence, including FMLA leave.

Fraud

Providing false or misleading information or omitting material information in connection with an FMLA leave will result in disciplinary action, up to and including immediate termination.

Employers' Compliance with FMLA and Employee's Enforcement Rights

FMLA makes it unlawful for any employer to interfere with, restrain, or deny the exercise of any right provided under FMLA, or discharge or discriminate against any person for opposing any practice made unlawful by FMLA or for involvement in any proceeding under or relating to FMLA.

While the District encourages employees to bring any concerns or complaints about compliance with FMLA to the attention of the Human Resources Department, FMLA regulations require employers to advise employees that they may file a complaint with the U.S. Department of Labor or bring a private lawsuit against an employer.

Further, FMLA does not affect any Federal or State law prohibiting discrimination, or supersede any State or local law or collective bargaining agreement which provides greater family or medical leave rights.

MILITARY-RELATED FMLA LEAVE

FMLA leave may also be available to eligible employees in connection with certain service related medical and non-medical needs of family members. There are two forms of such leave. The first is Military Caregiver Leave, and the second is Qualifying Exigency Leave. Each of these leaves is detailed below.

Definitions

A "covered servicemember" is either: (1) a current servicemember of the Armed Forces, including a member of the National Guard or Reserves, with a serious injury or illness incurred in the line of duty for which the servicemember is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list; or (2) a "covered veteran" who is undergoing medical treatment, recuperation, or therapy for a serious injury or illness.

A "covered veteran" is an individual who was discharged under conditions other than dishonorable during the five-year period prior to the first date the eligible employee takes FMLA leave to care for the covered veteran. The period between October 28, 2009 and March 8, 2013 is excluded in determining this five-year period.

The FMLA definitions of "serious injury or illness" for current service members and veterans are distinct from the FMLA definition of "serious health condition." For current service members, the term "serious injury or illness" means an injury or illness that was incurred by the member in the line of duty while on active duty in the Armed Forces or that existed before the beginning of active duty and was aggravated by such service, that may render them medically unfit to perform the duties of their office, grade, rank or rating.

For covered veterans, this term means a serious injury or illness that was incurred in the line of duty while on active duty in the Armed Forces or that existed before the beginning of active duty and was aggravated by such service and manifested itself before or after the individual assumed veteran status, and is: (1) a continuation of a serious injury or illness that was incurred or aggravated when they were a member of the Armed Forces and rendered them unable to perform the duties of their office, grade, rank or rating; (2) a physical or mental condition for which the covered veteran has received a VA Service Related Disability Rating (VASRD) of 50 percent or greater and such VASRD rating is based, in whole or in part, on the condition precipitating the need for caregiver leave; (3) a physical or mental condition that substantially impairs the veteran's ability to secure or follow a substantially gainful occupation by reason of a disability or disabilities related to military service or would be so absent treatment; or (4) an injury, including a psychological injury, on the basis of which the covered veteran has been enrolled in the Department of Veterans Affairs Program of Comprehensive Assistance for Family Caregivers.

"Qualifying exigencies" include activities such as short-notice deployment, military events, arranging alternative childcare, making financial and legal arrangements related to the deployment, rest and recuperation, counseling, parental care, and post-deployment debriefings.

Military Caregiver Leave

Unpaid Military Caregiver Leave is designed to allow eligible employees to care for certain family members who have sustained serious injuries or illnesses in the line of duty while on active duty. Military Caregiver Leave is a special leave entitlement that permits eligible employees to take up to 26 weeks of leave to care for a covered servicemember during a single 12-month period.

To be "eligible" for Military Caregiver Leave, the employee must be a spouse, son, daughter, parent, or next of kin of the covered servicemember. "Next of kin" means the nearest blood relative of the servicemember, other than the servicemember's spouse, parent, son, or daughter, in the following order of priority: blood relatives who have been granted legal custody of the servicemember by court decree or statutory provisions; brothers and sisters; grandparents; aunts and uncles; and first cousins; unless the servicemember has specifically designated in writing another blood relative as his or her nearest blood relative for purposes of Military Caregiver Leave. The employee must also meet all other eligibility standards as set forth within the FMLA Leave policy.

An eligible employee may take up to 26 workweeks of Military Caregiver Leave to care for a covered servicemember in a "single 12-month period." The "single 12-month period" begins on the first day leave is taken to care for a covered servicemember and ends 12 months thereafter, regardless of the method used to determine leave availability for other FMLA-qualifying reasons. If an employee does not exhaust his or her 26 workweeks of Military Caregiver Leave during this "single 12-month period," the remainder is forfeited.

Military Caregiver Leave applies on a per-injury basis for each servicemember. Consequently, an eligible employee may take separate periods of caregiver leave for each and every covered servicemember, and/or for each and every serious injury or illness of the same covered servicemember. A total of no more than 26 workweeks of Military Caregiver Leave, however, may be taken within any "single 12-month period."

Within the "single 12-month period" described above, an eligible employee may take a combined total of 26 weeks of FMLA leave including up to 12 weeks of leave for any other FMLA-qualifying reason (i.e.,

birth or adoption of a child, serious health condition of the employee or close family member, or a qualifying exigency). For example, during the “single 12-month period,” an eligible employee may take up to 16 weeks of FMLA leave to care for a covered servicemember when combined with up to 10 weeks of FMLA leave to care for a newborn child.

An employee seeking Military Caregiver Leave may be required to provide appropriate certification from the employee and/or covered servicemember and completed by an authorized health care provider within 15 days. Military Caregiver Leave is subject to the other provisions in our FMLA Leave Policy (requirements regarding employee eligibility, appropriate notice of the need for leave, use of accrued paid leave, etc.). Military Caregiver Leave will be governed by, and handled in accordance with, the FMLA and applicable regulations, and nothing within this policy should be construed to be inconsistent with those regulations.

Qualifying Exigency Leave

Eligible employees may take unpaid “Qualifying Exigency Leave” to tend to certain “exigencies” arising out of the covered active duty or call to covered active duty status of a “military member” (i.e. the employee’s spouse, son, daughter, or parent). Up to 12 weeks of Qualifying Exigency Leave is available in any 12-month period, as measured by the same method that governs measurement of other forms of FMLA leave within the FMLA policy (with the exception of Military Caregiver Leave, which is subject to a maximum of 26 weeks of leave in a “single 12-month period”). Although Qualifying Exigency Leave may be combined with leave for other FMLA-qualifying reasons, under no circumstances may the combined total exceed 12 weeks in any 12-month period (with the exception of Military Caregiver Leave as set forth above). The employee must meet all other eligibility standards as set forth within the FMLA policy.

Persons who can be ordered to active duty include active and retired members of the Regular Armed Forces, certain members of the retired Reserve, and various other Reserve members including the Ready Reserve, the Selected Reserve, the Individual Ready Reserve, the National Guard, state military, Army Reserve, Navy Reserve, Marine Corps Reserve, Air National Guard, Air Force Reserve, and Coast Guard Reserve.

A call to active duty refers to a *federal* call to active duty, and *state* calls to active duty are not covered unless under order of the President of the United States pursuant to certain laws.

Qualifying Exigency Leave is available under the following circumstances:

- (1) Short-notice deployment. To address any issue that arises out of short notice (within seven days or less) of an impending call or order to covered active duty.
- (2) Military events and related activities. To attend any official military ceremony, program, or event related to covered active duty or call to covered active duty status or to attend certain family support or assistance programs and informational briefings.
- (3) Childcare and school activities. To arrange for alternative childcare; to provide childcare on an urgent, immediate need basis; to enroll in or transfer to a new school or daycare facility; or to attend meetings with staff at a school or daycare facility.

(4) Financial and legal arrangements. To make or update various financial or legal arrangements; or to act as the covered military member's representative before a federal, state, or local agency in connection with service benefits.

(5) Counseling. To attend counseling (by someone other than a health care provider) for the employee, for the military member, or for a child or dependent when necessary as a result of duty under a call or order to covered active duty.

(6) Temporary rest and recuperation. To spend time with a military member who is on short-term, temporary rest and recuperation leave during the period of deployment. Eligible employees may take up to 15 calendar days of leave for each instance of rest and recuperation.

(7) Post-deployment activities. To attend arrival ceremonies, reintegration briefings and events, and any other official ceremony or program sponsored by the military for a period of up to 90 days following termination of the military member's active duty status. This also encompasses leave to address issues that arise from the death of a military member while on active duty status.

(8) Parental care. To care for the military member's parent who is incapable of self-care. The parent must be the military member's biological, adoptive, step, or foster father or mother, or any other individual who stood in loco parentis to the military member when the member was under 18 years of age.

(9) Mutually agreed leave. Other events that arise from the military member's duty under a call or order to active duty, provided that the District and the employee agree that such leave shall qualify as an exigency and agree to both the timing and duration of such leave.

An employee seeking Qualifying Exigency Leave may be required to submit appropriate supporting documentation in the form of a copy of the military member's active duty or rest and recuperation orders or other military documentation indicating the appropriate military status and the dates of active duty status, along with a statement setting forth the nature and details of the specific exigency, the amount of leave needed and the employee's relationship to the military member, within 15 days. Qualifying Exigency Leave will be governed by, and handled in accordance with, the FMLA and applicable regulations, and nothing within this policy should be construed to be inconsistent with those regulations.

Limited Nature of This Policy

This Policy should not be construed to confer any express or implied contractual relationship or rights to any employee not expressly provided for by FMLA. The District reserves the right to modify this or any other policy as necessary, in its sole discretion to the extent permitted by law. State or local leave laws may also apply.

NEGOTIATIONS GOALS

The Board recognizes that education is a public trust; it therefore is dedicated to providing the best possible educational opportunities for the young people of this community. In negotiations, this objective may be best attained if there is a climate of mutual trust and understanding between the negotiating parties.

The Board believes that public education will be served by establishing procedures that provide an orderly method for the Board and representatives of the staff to discuss matters of common interest.

It is further recognized that nothing in negotiations should compromise the Board's legal responsibilities, nor should any employee's statutory rights and privileges be impaired.

ADMINISTRATION OF MEDICAL CANNABIS TO QUALIFYING STUDENTS

The School District restricts the administration of medical cannabis during school hours and at school-sponsored activities unless, in accordance with a practitioner’s recommendation, administration of medical cannabis cannot reasonably be accomplished outside of school hours or school-sponsored activities.

The District permits students with a valid registry identification card for medical cannabis under South Dakota law to be administered medical cannabis on school property or at a school-sponsored activity by their parent/guardian or other registered designated caregiver in accordance with this policy and South Dakota law. In order for a parent/guardian or other designated caregiver to administer medical cannabis to a qualifying student, the District will require the following to be provided initially and thereafter at the beginning of each school year and at any time when the qualifying student’s administration of medical cannabis changes:

- Presentation of the student’s valid State of South Dakota Department of Health approved registry identification card or nonresident card with the State of South Dakota Department of Health’s confirmation of registration (a copy of which will be kept by the school in the student’s educational record);
- Presentation of the State of South Dakota Department of Health approved caregiver’s card showing his/her status as the registered designated caregiver for the qualifying student (a copy of which will be kept by the school in the student’s educational record); and
- A written dated and signed certification by the qualifying student’s recommending practitioner that also includes the dosage, frequency or time of administration, and length of time between dosages.

The parent/guardian or other registered designated caregiver is the only person who may provide, administer, or assist the student with the consumption of medical cannabis. Schools will not store, and school personnel will not administer, medical cannabis.

Administration of medical cannabis to qualifying students shall be in accordance with this policy. Administration of all prescription and nonprescription medications to students shall be in accordance with applicable law and the District’s policy concerning the administration of medications to students.

Definitions

The following definitions apply for purposes of this policy:

1. “Designated location” means a location identified in writing by the school district in its sole discretion and may include a location on the grounds of the school in which the student is enrolled, upon school property in South Dakota, as that term is defined herein, or at a school-sponsored activity in South Dakota.
2. “Permissible form of medical cannabis” means non-smokable products such as oils, tinctures, edible products or lotions that can be administered and fully ingested or absorbed in a short period of time. Patches and other forms of administration that continue to deliver medical cannabis to a qualified student while at school may be appropriate for students who receive ongoing adult assistance

or on a case-by-case basis as determined by the district when adequate protections against misuse may be made. Smoking or vaping medical cannabis is strictly prohibited and is not a permissible form of medical cannabis for students in a school setting under any circumstances.

3. “Designated caregiver” means the qualifying student’s parent, guardian or other responsible adult over twenty-one years of age who is the qualifying student’s registered designated caregiver and who has a caregiver’s card approved by the South Dakota Department of Health. In no event shall another student be recognized as a designated caregiver. A designated caregiver is the only individual permitted to possess and administer to a qualifying student. Any designated caregiver seeking access to school property or school-sponsored activity for purposes of this policy must comply with the Board’s policy and/or procedures concerning visitors to school and all other applicable policies.
4. “School property” means any school premises, vehicle, or building, or on or in any premises, vehicle, or building used or leased for the school district’s functions.
5. “Qualifying student” means a student who possesses a valid registry identification card approved by the State of South Dakota Department of Health for the use of medical cannabis.
6. “Written certification” means the completed South Dakota Department of Health form dated and signed by a physician who is licensed with authority to prescribe drugs to humans, stating that in his/her professional opinion the patient is likely to receive a therapeutic or palliative benefit from the medical use of cannabis to treat or alleviate the patient’s debilitating medical condition or symptom associated with the debilitating medical condition. The document must specify the patient’s debilitating medical condition and that it is made in the course of a bona fide practitioner-patient relationship.

Permissible administration of medical cannabis to a qualifying student

A qualifying student’s designated caregiver may administer a permissible form of medical cannabis to a qualifying student in a designated location if all of the following parameters are met:

1. The qualifying student’s parent/guardian provides the following to the school before the administration of medical cannabis is allowed on school property or at a school-sponsored activity and thereafter at the beginning of each school year and at any time when the qualifying student’s administration of medical cannabis changes:
 - a. The qualifying student’s valid registry identification card from the State of South Dakota Department of Health or nonresident card with the State of South Dakota Department of Health’s confirmation of registration authorizing the student to receive medical cannabis;
 - b. The completed and signed Form JHCDE-E(1)(Medical Cannabis Administration Plan);
 - c. The designated caregiver(s) card approved by the State of South Dakota Department of Health; and
 - d. Written certification dated and signed by the student’s recommending practitioner that also includes the dosage, frequency or time of administration, and length of time between dosages.

2. The qualifying student's parent/guardian provides written notice to the school within ten (10) days of any of the following:
 - a. Change in a designated caregiver;
 - b. The student ceases to have a debilitating medical condition, as that term is defined in South Dakota law; or
 - c. The registry identification card is void, expired or revoked.
3. In the event that a new registry identification card is issued, the qualifying student's parent/guardian provides the new card to the school district within ten (10) days of the issuance of the card;
4. The qualifying student's parent/guardian signs the written acknowledgement in Form JHCDE-E(1)(Medical Cannabis Administration Plan) assuming all responsibility for the provision, administration, maintenance, possession, storage and use of medical cannabis under state law, and releases the district from liability for any claim or injury that occurs pursuant to this policy;
5. The qualifying student's parent/guardian or designated caregiver shall be responsible for providing the permissible form of medical cannabis to be administered to the qualifying student, shall transport it in a container that meets the packaging and labeling requirements specified by the South Dakota Department of Health, and shall not at any given time possess on school property an amount of medical cannabis that exceeds the qualifying student's prescribed daily dosage;
6. The district will determine the location and the method of administration of a permissible form of medical cannabis so to not create risk of disruption to the educational environment or exposure to other students;
7. After administering the permissible form of medical cannabis to the qualifying student, the student's designated caregiver shall remove any remaining medical cannabis from the school property or school-sponsored activity;
8. The written dated and signed plan contained in Form JHCDE-E(1)(Medical Cannabis Administration Plan) is prepared that identifies the form, designated location(s), and any protocol regarding administration of a permissible form of medical cannabis to the qualifying student.

Additional parameters

School personnel, in their role as employees of the school district, will not under any circumstances:

1. Assist a qualifying student or his/her designated caregiver in obtaining, administering, or using medical cannabis;
2. Store or hold medical cannabis in any form;

3. Ensure the qualifying student is properly using the medical cannabis as instructed by his/her recommending practitioner; or
4. Serve as the qualifying student's designated caregiver of medical cannabis.

This policy conveys no right to any student or to the student's parents/guardians or other designated caregiver to demand access to any general or particular location on school property or at a school-sponsored activity to administer medical cannabis.

When a school-sponsored activity occurs at another South Dakota public school, the location identified by that school will serve as the designated location for the designated caregiver's administration of medical cannabis.

This policy shall not apply to school property or school-sponsored activities located outside of the state of South Dakota, on federal property or any other location that prohibits cannabis on its property.

Permission to administer medical cannabis to a qualifying student may be limited or revoked if the qualifying student and/or the student's parent/guardian or other designated caregiver violates this policy or demonstrates an inability to responsibly follow this policy's parameters.

No student is permitted to possess or self-administer medical cannabis. Qualifying students with a valid registry identification card who possess or self-administer cannabis may be subject to discipline just as any other student without a valid registry identification card would be. Student possession, use, distribution, sale or being under the influence of cannabis inconsistent with this policy may be considered a violation of Board policy concerning drug and alcohol involvement by students or other Board policy and may subject the student to disciplinary consequences, including suspension and/or expulsion, in accordance with applicable Board policy.

If the federal government indicates that the District's federal funds will be lost or have been lost by this policy, the Board declares that this policy shall be suspended immediately and that the administration of any form of medical cannabis to qualifying students on school property or at a school-sponsored event shall not be permitted. The district shall post notice of such policy suspension and prohibition in a conspicuous place on its website.

The elementary schools will provide a variety of learning experiences that foster concrete and relevant applications of learning experiences. This learning will promote an understanding of themselves and their present and future environment.

ACADEMIC FREEDOM

Academic freedom may be defined as the right of qualified scholars in their own field of expertise to pursue the search for truth in its many forms, and to make public their methods and findings. It is the right of qualified teachers to encourage freedom of discussion of controversial questions in the classroom, and to develop in students a love of knowledge and a desire to search for truth. The teachers should keep in mind that academic freedom is not a guaranteed political right, but rather a necessary condition for the successful practice of the academic profession in a free society.

The board believes, however, that academic freedom also carries with it academic responsibility, which is determined by the basic ideals, goals, and institutions of the local community as they are expressed in the goals and objectives of the school district.

As a consequence of its responsibility to guarantee academic freedom to both students and teachers, the board expects that:

1. All classroom studies will be curriculum-related, and will be presented factually, objectively, and impartially.
2. Teachers will create and maintain an atmosphere of open-mindedness and tolerance.
3. Teachers will not attempt directly or indirectly to limit or control the students' judgment concerning any issue, but will make certain that full and fair consideration is given to the subject and that facts are carefully examined as to their accuracy and interpretation.

While the Board intends to protect teachers from any undue restraint that interferes with their classroom duties, the ultimate responsibility for determining curriculum, textbooks, and teaching methods must rest with the Board. It also expects that when controversial issues are presented, the maturity and intellectual grasp of students will be taken into account.

CURRICULUM DEVELOPMENT

Rapid social change, technological development, and expansion of knowledge are facts of contemporary life. Public education must respond appropriately. Therefore, it is imperative that individual schools, the school system as a whole and the Board continuously review and evaluate existing programs and practices, and adjust, modify, or change them as found advantageous in effectively meeting the needs of students and the expectations of the community. Therefore, the Board expects:

1. The administration and faculty to be perpetually sensitive to changing conditions that may require changes in curriculum.
2. All programs to be under continuous evaluation to see that they meet the needs of children.
3. The school system to undertake intensive curriculum evaluation and revision in certain areas from time to time as the need for this is demonstrated.

The Board will hear regular reports on district programs and ongoing curriculum study and revision. It will consider recommendations of the staff for intensive curriculum study and may authorize the establishment of task forces to work in particular areas. It will also be receptive to the desires of parents and students in considering changes in the curriculum.

As found desirable, the Board may appoint advisory committees and/or ad hoc Board committees to join with the faculty in examining desirable changes in particular areas.

Recommendations for curriculum changes submitted through appropriate channels will be acted upon by the Board. The curriculum will always be prescribed by the Board in accordance with state requirements.

A pilot program is defined as a new major program, planned on a limited scale and implemented to determine the degree to which the program would be applicable for future large-scale district adoption. Pilot programs may be approved by the Board for one, two or three years. Board approval will be required to move any pilot program to regular status or to extend the approval time for pilot programs. Modifications of present programs are not considered to be pilot programs.

The superintendent will submit to the Board status reports and evaluations on all such programs at least once a year. The responsibility for conducting the evaluations will be assigned to persons other than those who have designed or carried out the program.

CURRICULUM ADOPTION

The Board will rely on its professional administrators to design and implement instructional programs and courses of study that will forward the educational goals of the school district.

The superintendent will have authority to approve new programs and courses of study after such changes have been thoroughly studied and found to support educational goals. The Board itself will consider, and officially adopt, new programs and courses only when they constitute an extensive alteration in instructional content or approach. (An example might be the adoption of an innovative sequential program in a basic subject-matter area for all elementary grades.)

However, the Board wishes to be informed of all new courses and substantive revisions in curriculum. It desires to receive reports on changes under consideration, and an annual report on programs and courses offered in the schools. Its acceptance of these annual reports, including a listing of the high school program studies, will constitute its official adoption of the curriculum.

BASIC INSTRUCTIONAL PROGRAM

The determination of curriculum is fundamentally the responsibility of each school district in the state. However, the curriculum must meet certain educational requirements set by statute and by the Division of Elementary Secondary Education.

Because education is a life-long process, the educational program in this school district will provide both formal studies to meet the general academic needs of students, and opportunities for students to develop individual talents and interests that will help them progress in vocational, business, and other specialized fields.

In Canton schools, an atmosphere will prevail in which healthy growth is fostered, ability is recognized, and excellence encouraged, and in which a productive life is held before pupils as a model to emulate.

The various instructional programs will be developed so that each child, in his/her progression through the various grades of our schools, receives a balanced, varied, and sequentially organized education that will serve his/her educational needs and prepare him/her for a productive, useful life in society. Different abilities and interests levels will be served to meet this goal.

Commitment to Basics

As one of its educational priority objectives, the Board has endorsed the concept that a good basic education is the heart of preparation for any career or life goal.

The Board believes that a prime important objective of our schools should be to adequately provide each student with the basic skills of reading, writing, oral communications, and basic mathematics. No citizen can function adequately without these skills.

In addition to its commitment to the teaching of basic skills, the Board in its educational philosophy and its statement of goals and objectives, has committed itself to developing in students the means for self-realization and self-expression; the ability to form positive human relationships; a positive attitude

towards—and fundamental skills to function within—the world or work; a sense of civic responsibility; self-discipline; and an attitude towards learning that will recognize that education is a life-long process that does not end with formal education. to develop these skills and abilities the Board will encourage exposure to the fine arts, physical education, sciences, and social sciences.

CANTON SCHOOL DISTRICT CITIZENSHIP EDUCATION

It is a prime responsibility of the district to help students understand, appreciate, and feel a responsibility to perpetuate our American heritage, customs, traditions, and ideals. Therefore, the Board directs that students will be instructed in the history and the Constitution of the United States, the history and constitution of the state of South Dakota, and the general principles of free government so they can comprehend the rights, duties, and dignity of American citizenship. Also, students will be instructed on the proper manner to honor, respect, and display the flag of the United States.

The following citizenship education activities will be made available at the appropriate grade level on a regular basis:

- Learning and reciting the Pledge of Allegiance.
- Learning and singing a variety of patriotic songs, including the National Anthem.
- Listening to or reading stories about famous and/or historical facts or events.
- Participating in student government activities.
- Participating in a wide variety of local, state, and national government classroom simulations that include, but are not limited to mock elections, mock trials, and/or mock legislatures.
- Participating in patriotic exercises and observances in the classroom and/or in conjunction with school programs and events deemed appropriate for the occasion.
- Participating in any other activity that will lead to making students aware of their responsibility for the preservation of a free and democratic society as citizens of the United States.

HUMAN RELATIONS EDUCATION

(Moral Instruction)

Although the home and the church, as well as other community institutions, play an important role in contributing to the moral attitude of students, the Board recognizes that the schools may also influence a student's attitude and thinking.

In accordance with state law, the district will provide special moral instruction intended to impress upon the minds of students the importance of truthfulness, temperance, purity, public spirit, patriotism, respect for honest labor, obedience to parents, respect for the contributions of minority and ethnic groups to the heritage of South Dakota, and due deference to old age.

In developing curriculum for various courses, the superintendent and the professional staff will keep in mind lessons which can contribute to the moral instruction of the students. In addition, through the performance of their own activities staff members should keep in mind that they serve as role models for the students, and instruct students in these areas.

The Board will encourage parents and other community members to join them in providing guidance to students to enable them to develop their own code of ethics.

TEACHING ABOUT RELIGION

The Board recognizes that religious education is the responsibility of the home and church. Within the school district, neither the Board nor any of its employees will promote any particular religious belief or non belief. All students and staff members will be encouraged to appreciate and be tolerant of an individual's religious views. In the spirit of tolerance, students and staff members may be excused from participating in school activities—such as holiday assembly programs—which may be contrary to their religious beliefs.

The Board, however, realizes the importance of religion in history, culture, and the arts cannot be ignored and should have a place in education. A distinction will be made, however, between the studies as part of the curriculum and the celebration of religious holidays in a manner that is devotional, or doctrinal, or both. The distinction rests on whether the purpose or effect of such practices is the advancement of religion.

All efforts will be made to make opening prayers, invocations, benedictions, etc., ecumenical in nature at all school events when such prayers are appropriate.

The superintendent will develop administrative regulations what will include guidelines which are in consonance with the philosophy that religion in the schools must be educational in nature, and that the schools must be sensitive to all beliefs.

OCCUPATIONAL EDUCATION

Consistent with its commitment to meet the instructional needs of students, the Board recognizes that the goal of occupational-vocational education is to develop productive citizens. In meeting this goal, it is essential to provide the district's students with necessary decision-making and job-entry level skills.

Occupational-vocational education will be an integral part of the general curriculum in the high school, and also will be provided for post-secondary and adult students. The rules and regulations for carrying out an efficient occupational-vocational program will be in accordance with those established by the State Board of Vocational Education. The program will be geared to technological and economic conditions and changes and, as a core component of comprehensive education, will share with other aspects of the high school curriculum the purpose of development of character and attitudes as well as skills.

In an effort to meet the occupational-vocational training needs of regular high school students, adults, post-secondary students, and others identified by their needs, the district may provide programs in the following educational areas:

1. Agricultural.
2. Business and office.
3. Health occupations.
4. Home economics.
5. Trade and industrial.
6. Available testing such ASVAB—Armed Services Vocational Battery.
7. JPTA – Job Partnership Training Act.

Guidance and counseling services will be provided each occupational-vocational student throughout his/her program and when the time comes for placement in his/her chosen career.

CROSS REF.: LBB, Cooperative Educational Programs

NOTE: In accordance with state law, a school district may contract for any service in connection with programs for occupational-vocational training of residents within the district. See SDCL 13-39-27.

In addition, school boards of two or more school districts may submit to the State Board of Vocational Education a proposed plan to establish a multidistrict secondary occupational-vocational education center. Upon approval of the Board of Vocational Education, all participating school districts must enter an agreement of participation which must receive a vote of approval of the school board of each participating district. This multi-district secondary occupational-vocational education center will be operated by a center board, consisting of members of the boards of the participating school districts, and appointed by their respective school boards.

These multi-districts are subject to the rules adopted by the State Board and to the same statutory requirements as school districts. The center board has the same power, authority, responsibility, and obligations as a school board, except for the authority to levy taxes and issue bonds.

A school district that contracts for occupational-vocational services, of that participates in a multidistrict occupational-vocational education center, should indicate such in its policy statement under this code.

This category also may be used for career education, vocational education, or both. If you do not wish to combine policies in these areas, add a new sub-code to the IGAD sequence for file purposes. The first available sub-code for a locally devised category is IGADB*.

TEACHING ABOUT DRUGS, ALCOHOL, AND TOBACCO

The Board views with grave concern the serious implications of drug, alcohol, and tobacco use by young people in the school district. In keeping with its primary responsibility—the education of youth—the Board charges the professional staff of the district to continue to investigate the causes of student and school staff involvement with drugs and alcohol, and to develop suitable preventive measures however and whenever feasible.

The Board and the professional staff will continue to seek ways to educate students and school staff of the district about the dangers of the illegal use of drugs and the abuse of alcohol; they will support the majority of our students and staff who are resisting such use. Instructional units will include sessions about the causes and effects of drugs and alcohol abuse, especially in young people.

The following objectives must be realized if the goal of minimizing drug and alcohol abuse is to be achieved:

1. Students must be encouraged to identify the problem and its causes, and to organize to solve it.
2. They should understand the nature of legal and illegal drugs.
3. They must be encouraged to develop a set of values and behavioral insights which will give them a deeper understanding of themselves and society.
4. They must be encouraged to identify the variety of alternative forms of behavior, other than drug or alcohol abuse, which are available to satisfy their needs.
5. They must be encouraged to make constructive decisions concerning the use of drugs and alcohol.

While the Board in no way condones the abuse of illegal or harmful substances, it is in the interest of students and staff health that an “ombudsman” climate be created in the schools so that people with problems may seek and receive help.

FAMILY LIFE/SEX EDUCATION

The Board believes that the purpose of family life and sex education is to help students acquire factual knowledge, attitudes, and values that will result in behavior that contributes to the well-being of the individual, the family, and society.

Helping students attain a mature and responsible attitude toward human sexuality is a continuous task of every generation. Parents have the prime responsibility to assist their children in developing moral values. The schools should support and supplement parents’ efforts in these areas by offering students factual information and opportunities to discuss concerns, issues, and attitudes inherent in family life and sexual behavior, including traditional moral values.

In addition to the requirements listed below, the customary policies and regulations concerning the approval of new curriculum content, units, and materials will apply to any course(s) dealing with family life and sex education offered by the district:

1. Instructional materials to be used in family life/sex education will be available for review by the parent of guardian during school hours.
2. If, after review of materials used and a conference with the instructor and principal, a parent requests that his child not participate in a given aspect of the course, an alternate educational assignment will be arranged for the student with the approval of the principal.
3. Teachers who provide instruction in family life/sex education will have professional preparation in the subject area, either through preservice or in-service education.

CANTON SCHOOL DISTRICT WELLNESS POLICY

Wellness Council Members:

Superintendent
 Elementary Principal
 Middle/High School Principal
 Food Service Manager
 School Nurse
 Physical Education Teacher
 Teacher/Student Council Advisor
 Student Council President
 School Board Chairman
 Parent/Community Member

Rationale

Studies show that students who eat breakfast have better nutrition, fewer sick days, fewer disruptive behaviors, and better school performance. In addition, the increasing rates of overweight and obesity among youth threaten to jeopardize the future health and productivity of our children. Will academic success become more and more difficult for students to attain as lifestyle choices diminish a child's ability to learn? Will the students of today be the first generation to have a shorter life expectancy than their parents? Do over nourished and malnourished children face similar adversities?

Belief Statement

The Canton School District believes that a healthy school environment goes beyond school meals in the cafeteria. Living a healthy lifestyle and maintaining a healthy weight requires a combination of healthy food choices, knowledge of nutrition, and appropriate amounts of physical activity. Because of this, nutrition education and physical activity should be incorporated into the school day whenever possible. The Canton School District also believes that the healthy, nutritionally astute, and physically active child is more likely to be academically successful.

Policy Implementation

The Wellness Committee will meet annually to review the Wellness Policy, determine any needs, develop goals and objectives, and assess the effectiveness of the Wellness Plan. It shall be the responsibility of the Canton School Nurse to communicate progress made towards the goals/objectives set by the Wellness Council to all stakeholders in the Canton School District.

Wellness Components

The Wellness Policy of the Canton School District addresses four main components of wellness:

1. Nutrition Education
2. Physical Activity and Physical Education
3. Nutrition Standards
4. Other School-Based Activities.

Nutrition Education Component**Nutrition Education Goal**

The primary goal of nutrition education is to provide students with the knowledge and skills necessary to promote their health and, in turn, influence students' lifelong eating behaviors. To address this component, nutrition education will be integrated into the existing curriculums throughout the various grade levels. Nutrition promotions are messages targeted to a specific audience to inspire/motivate them to take action and will be incorporated into the school day as often as possible.

Nutrition Education Guidelines

- Nutrition education provides consistent scientifically-based nutrition messages throughout the school, classrooms, cafeteria, home, community, and media.
- Nutrition education is part of health education classes and/or stand alone classes.
- Nutrition education is included in the scope and sequence of the curriculum in core subjects such as math, science, language arts, social sciences, and elective subjects.
- The school cafeteria serves as a "learning laboratory" to allow students to apply critical

thinking skills taught in the classroom.

- Nutrition education follows the SD Health Education Standards and addresses nutrition concepts progressively in grades K through 12.
- Nutrition education provides enjoyable, developmentally appropriate, culturally relevant, and participatory activities (e.g. contests, promotions, taste testing, farm visits, and school gardens).
- Nutrition education offers information to families that encourages them to teach their children about health and nutrition.
- Nutrition education will be provided by staff members who are adequately prepared.

Physical Activity Component

Physical Activity Goal

The primary goal for the school's physical activity component is to provide opportunities for every student to develop the knowledge and skills for specific physical activities, maintain physical fitness, regularly participate in physical activity, reduce sedentary time and provide health education in order to instill an understanding of the short and long-term benefits of a physically active and healthful lifestyle.

Physical Activity Guidelines

- All students in grades K-5 will receive physical education a minimum of 60 minutes per week. Students in grades 6-8 will receive physical education on average minimum of 100 minutes per week. All high school students are required to complete the state mandated .5 credit of physical education. Students with disabilities and/or special health-care needs will be included in regular physical education classes to the extent possible.
- Students will spend at least 50% of physical education class time participating in moderate to vigorous physical activity.
- The physical education curriculum should demonstrate progression and sequence and be consistent with South Dakota and/or National Physical Education standards for Pre-K through grade 12.
- All physical education will be taught by a highly qualified physical education teacher as required by the SD Department of Education.
- Physical education classes teacher-to-student ratios should be equivalent to those of other subject area classes in the school.
- Student participation in other activities involving physical activity (e.g., interscholastic or intramural sports) will not be substituted for meeting the physical education requirement.
- Opportunities for physical activity are incorporated into other subject areas when feasible (e.g. math, language arts, science, and social studies).
- All elementary (K-5) school students will have at least 30 minutes a day of supervised recess, preferably outdoors, during which students are encouraged (verbally and through the provision of space and equipment) to engage in moderate to vigorous physical activity, unless excused by classroom teacher.
- When feasible, recess will occur prior to lunch to ensure appropriate healthful food intake.
- Recess or other physical activity will not be canceled in order to make up lost instructional time.
- Extended periods of inactivity, two hours or more, are discouraged. When activities, such as mandatory school-wide testing, make it necessary for students to remain indoors for long periods of time, students will be given periodic breaks during which they are encouraged to stand and be moderately active.
- When appropriate, physical activity will be encouraged during transition, break, and free time.
- The Canton Middle/High School will offer interscholastic sports programs and other activities that meet the needs, interests, and abilities of all students, including boys, girls, students with disabilities, and students with special health-care needs.

- The Canton School District will educate and encourage participation in community or club activities.
- After-school childcare and enrichment programs will provide and encourage (verbally and through the provision of space, equipment, and activities) daily periods of moderate to vigorous physical activity for all participants. • When possible school spaces and facilities will be available to students, staff, and community members before, during, and after the school day; on weekends; and during school vacations.
- Schools will educate the community, including parents and staff, about utilizing the facility. These spaces and facilities also will be available to community agencies and organizations offering physical activity and nutrition programs.
- Encourage active transportation (walking, biking, etc..) to and from school as healthy alternatives.

Nutrition Standards Component

Nutrition Standards Goal

ALTERNATIVE SCHOOL PROGRAMS

Some children have great difficulty coping with the conventional school program and, as a result, will drop out of school. Some children require more support and direct supervision than is reasonably available in conventional school settings. Some children require a special focus on life skills and an appropriate vocational involvement, along with a highly structured academic experience.

Therefore, the Board will provide alternative education programs where these needs have been identified, where establishment of such programs is feasible, and where the proposed programs fall within the function normally associated with the public school system.

These alternative educational programs will seek to provide an appropriate academic, social, and vocational experience to aid these young people either to reenter the regular school system, move into another educational setting, or prepare them for successful employment.

- The course is facilitated by a certified instructor.
- The curriculum taught aligns to the South Dakota Content Standards.
- The building principal approves the course in advance.

A student must be enrolled in the Canton School District before given access to an online course. Grades earned in an approved online course count towards a student's grade point average, class rank, and eligibility for athletic and extra-curricular activities. Students taking online classes are expected to use the state webmail system (www.K12.sd.us). In addition, students enrolled in any online program offered through the Canton School District are required to participate in all state mandated assessments.

To maintain instructional momentum, students are required to make adequate progress in their online courses. Any student who fails to earn one (1.0) unit of graduation credit per quarter will be placed on a "Plan for Success". The success plan will identify any obstacles to learning, an action plan including assistance to be offered, and a timeline for improvement. Students who fail to meet the requirements stipulated in the plan will be dropped from their specific online program.

COCURRICULAR AND EXTRACURRICULAR ACTIVITIES

The Board, in the interest of affording students attending its schools the highest level of educational experience obtainable, believes that student activities are an essential part of deliberate education. Such activities form a logical adjunct to the required or general curriculum and the elective or special curriculum.

Recognizing that student activities are a legitimate part of the school program, the Board has established the following criteria which all student activity programs must meet:

1. Student activities must have educational value for students.
2. Student activities must be in balance with other curricular offerings in the schools.
3. Student activities must be managed in a professional manner.

The following guidelines will govern the student activities programs:

1. Student activities are those school activities that are voluntarily engaged in by students, have the approval of the school administration and are sponsored by the faculty, and do not carry credit toward promotion or graduation.
2. Each school, under the direction of the principal and professional staff, may have a student activity program. This program shall be designed to stimulate student growth and development by supplementing and enriching the curricular activities.
3. Each activity should be designed to contribute directly to the educational, civic, social, ethical and leadership development of students involved.
4. The student activity program should receive the same attention in terms of philosophy, objectives, social setting, organization, and evaluation that is given the regular school curriculum.
5. Each school may develop definite written guidelines and procedures regulating the creation, organization, administration, and dissolution of student activity programs.
6. The expenses involved in participating in any student activity and in the total program for a school year should be set so that a majority of the students may participate without financial strain.

- 7. Activities must be open to all students, regardless of race, religion, sex, national origin, or handicaps.
- 8. Activities must not place undue burdens upon students, teachers, or schools.
- 9. Activities should be held on nonschool time or at an appropriate designated school time.
- 10. Activities at any level should be unique, not duplications of others already in operation.

In addition to the above guidelines district high schools will abide by the rules and bylaws of the South Dakota High School Activities Association, (SDHSAA). Membership in the SDHSAA will be renewed annually by approval of the Board.

STUDENT ORGANIZATIONS

Student organizations have an important place in the educational program of our schools. When properly organized and operated they:

- 1. Extend and reinforce the instructional program.
- 2. Give students practice in democratic self-government.
- 3. Build student moral and spirit of positive support for the school.
- 4. Honor outstanding student achievement.
- 5. Provide wholesome social and recreational activities.

In recognition of the potential educational value of student organizations, the Board authorizes the establishment of such according to the following guidelines:

- 1. The organization or club must have a regularly employed school staff member as an advisor.
- 2. The organization must have a direct relationship to or be an extension of some school class, area, or department.
- 3. The objectives of the organization must respond to an educational need of students in the public schools.
- 4. There must be enough student interest to warrant the formation or continuance of the organization.
- 5. The future status of an existing or proposed organization must be recommended by the school principal to the superintendent and then by the superintendent to the Board.

The Board will approve the formation or dissolution of all student organizations according to the above guidelines.

STUDENT PUBLICATIONS

Students will enjoy the constitutional rights of freedom of expression. They will have the right to express their views in speech, writing, or through any other medium or form of expression within limitations comparable to those imposed on all citizens but specifically designed for children and youth in a school setting.

The Board will encourage student publications not only because they offer an educational activity through which students gain experience in reporting, writing, editing, and understanding responsible journalism, but also because they provide an opportunity for students to express their views.

All student publications will be expected to comply with the rules for responsible journalism. This means that libelous statements, unfounded charges and accusations, obscenity, defamation of persons, false statements, material advocating racial or religious prejudice, hatred, violence, the breaking of laws and school regulations, or materials designed to disrupt the educational process will not be permitted.

The superintendent will establish guidelines that are in keeping with the above and provide for the review of the content of all student publications prior to their distribution.

Review of content prior to publication is not censorship, but part of the educational process as this concerns student publications. It can be pointed out to students, as it frequently is to journalists, that a publisher (in this case, the school system) enjoys freedom to determine what it will and will not publish.

Distribution of Literature

Students have a right to the distribution of literature on school grounds and in school buildings, except when the principal prohibits such distribution due to noncompliance with rules for responsible journalism. The principal may require that no literature be distributed unless a copy is submitted in advance.

The time, place, and manner of distribution of literature will be reasonably regulated by the principal.

STUDENT PERFORMANCES

The Board recognizes that worthy and appropriate educational values accrue from student participation in civic and community affairs. Teachers will be encouraged to provide students for public performance when:

1. Such performances fit both the aims of the schools and the needs of the students.
2. Such performances are free from the kinds of appeals, and pressures that limit the best development of participants.
3. No student is excluded because of race, color, creed, religion, sex, handicap, national origin, or ancestry.

Students may perform where admission fees are charged only if the proceeds are used by charitable, educational, or civic purposes. Payment for performances may be accepted by the school but not by the

individual students. Costs directly related to performances, the supervision of the students, liability protection for the participants will be responsibilities of the school district.

Approval for all public performances will be given by the superintendent when the above criteria have been met.

2. Fundraising products which are sold to the public should be of good quality and sold at a fair price.
3. A reasonable profit is made from a sale.
4. Product to be sold should be purchased locally, if the product is competitively priced with other vendors.

No project will be allowed that will involve the servitude of an individual.

No lottery will be permitted, including bingo.

There will be no solicitation of donations of any kind from students.

A categorical, itemized accounting of money raised at school or in connection with the school other than money deposited in the extracurricular account which is the responsibility of the building principals, will be submitted by the principal to the business manager, to be filed with the district financial records.

STUDENT ACTIVITIES FUNDS MANAGEMENT

The Board authorizes the establishment and maintenance of a student activity fund for each school which will be the only authorized depository fund for student clubs or organizations. The principal of the school will be responsible for the proper administration of the financial activities of each student activity account in accordance with the provisions of state law and appropriate accounting practices and procedures. All payments made from the student activity fund will have the prior approval of the faculty advisor and of the principal.

The annual school district audit will include an audit of student organization funds. Payment for the audit will be made from district funds.

Reserves will be limited to amounts estimated as necessary for the beginning of the following year's operation.

Money raised by student organizations must be expended for the benefit of students.

All fund-raising projects must be approved in advance by the organization advisor and the principal. This approval will be based upon the intended usage of the funds raised; the nature of the fund-raising activity and the degree to which the proposed activity fulfills the purposes of the organization.

When appropriate, the principal may require the faculty advisor to submit for approval a yearly budget listing proposed activities and projected expenditures and income.

INTERSCHOLASTIC ATHLETICS

The Board believes that students benefit from the experiences made possible through participation in interscholastic sports. Learning how to deal with success and failure, developing self-discipline, experiencing the successes of teamwork, and developing physical skills are some of the benefits which can come from these programs.

All interscholastic programs will require Board approval and will operate under the general supervision of the superintendent. Qualified personnel will be assigned to supervise and coach the various sports as needed.

Membership of the district or an individual school in an interscholastic athletic association or league will be subject to annual approval by the Board. The Board will review the constitution and bylaws of any such organization, and its rules and regulations for member teams, before granting approval.

It is the practice of the Board to maintain membership for the district schools in the South Dakota High School Activities Association (SDHSAA). In the conduct of interscholastic athletic programs, the rules, regulations, and limitations outlined by that association will be followed.

Eligibility requirements for participating in athletic programs will be set by the school administration with the approval of the Board and will conform with regulations of the SDHSAA. They will include the requirements that a student have the written permission as physically fit for the sport by the school physician or his personal physician.

Parents are strongly encouraged to purchase health and accident insurance for students who choose to participate in interscholastic athletics. The school purchases student Accident Assurance, which serves as a supplement to other forms of primary insurance.

GROUPING FOR INSTRUCTION

The school district may group students in order to increase the effectiveness of each teacher and to make it possible for the teacher to individualize instruction by narrowing the range of student needs within a particular class. Assignment of students to classes should be done on the basis of what is best for the individual student. Students may be assigned to class groups and sections in a manner that will best promote their general growth and development, as well as their intellectual achievement.

Good teaching and good administration takes into account the importance of parental understanding and acceptance of the grouping procedure used in the school. The school principal should cooperate with parents and teachers and other staff members in the most effective placement of students in classes. The assignment of classes to teachers is the responsibility of the principal working in cooperation with the superintendent and the teachers concerned.

Grouping within the classroom may be desirable and teachers should be encouraged to carry out this procedure. Grouping should be flexible. Some children may be grouped together for one activity and almost immediately following they may be regrouped for another activity. Children may not, however, remain in the same groups throughout the school year.

New instructional arrangements will be reported to the Board, used on a trial basis, and evaluated before being instituted on a wide or permanent basis.

TEXTBOOK SELECTION AND ADOPTION

The Board will officially adopt textbooks and textbook programs for use in the district schools upon the recommendation of the superintendent.

Responsibility for the review and selection of textbooks to be recommended will rest with textbook and/or curriculum committees as appointed by the superintendent of his/her designee. Membership on such committees shall include representation by teachers who will use the texts, administrators, and other staff members as found desirable. Students and parents may be asked to serve.

Principles that apply generally to the selection of instructional materials and library materials will apply to the selection of textbooks and books. The South Dakota Board of Education will have the power to review any books or other instructional material selected for use in the district schools. Additionally, basic textbooks and textbook programs will be chosen:

To advance the educational objectives of the school system and particular objectives of the course or program.

To contribute toward continuity, integration, and articulation of the curriculum.

To establish a general framework for the particular course or program.

Since the instructional purposes of textbooks, as stated above, are of such importance, particular care will be taken in their selection as to content.

Although many points must be examined, the Board directs the staff to be particularly mindful of the following considerations:

1. The needs of all learners, including slow learners and the exceptionally able, must be provided for.
2. Insofar as possible, multiethnic materials which depict a pluralistic society should be selected.
3. Attention should be given to sex roles depicted in the materials.
4. The textbook or textbook program should lead the student and teacher beyond the textbook into a wide variety of other materials and educational experiences.
5. If the textbook deals with problems and issues of our times, it should present and encourage examination of all points of view.
6. Because textbooks are selected for several years' use, special attention shall also be given their physical characteristics durability, format, and price.

4. Provide materials on opposing sides of controversial issues so that young citizens may develop under guidance the practice of critical reading and thinking.
5. Provide materials representative of the many religious, ethnic, and cultural groups and their contributions to our American heritage.
6. Place principle above personal opinion and reason above prejudice in the selection of materials of the highest quality in order to assure a comprehensive collection appropriate for the users of the library.

Initial purchase suggestions for library materials may come from all personnel—teachers, coordinators, administrators. Students will also be encouraged to make suggestions. The librarian will be responsible for evaluation and recommendation of all library materials recommended to be included in the school library. Final approval and authority for distribution of funds will rest with the building principal, subject to the approval of the superintendent and in keeping with the Board-approved budget.

The Board recognizes that instructional television can provide educational experiences and cultural involvement for students and adults alike. Therefore, the Board endorses the use of instructional television as an integral part of the school curriculum when practical.

When using instructional television in addition to general curriculum materials, a teacher should keep in mind that the program should be suitable to the maturity level of the students, and that the subject matter should be of specific interest to the class curriculum.

Cultural and enrichment television presentations of general interest to the community may also be used for instructional purposes to supplement the curriculum materials. Before the viewing of such a program, the teacher should determine whether the format and content of the program is suitable for students.

Cyber Bullying

Cyber bullying is all form of harassment over the Internet or other forms of electronic communications, including cell phones. Students and staff will refrain from using communication devices or District property to harass or stalk another. The District's computer network and the Internet, whether accessed at school or away from school, during or after school hours, may not be used for the purpose of cyber bullying. All forms of cyber bullying are unacceptable and viewed as a violation of this policy and the District's acceptable computer use policy and procedures.

Users are responsible for the appropriateness of the materials they transmit. Hate mail, harassment, discriminatory remarks, or other anti social behaviors are expressly prohibited. Cyber bullying includes, but is not limited to the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another person by sending or posting inappropriate and hurtful e-mail messages, instant messages, text messages, digital pictures or images, or website postings, including blogs. It is also recognized that the author (poster or sender) of the inappropriate material is often disguised (logged on) as someone else.

Students and community members, who believe they have been victims of such misuses of technology, as described in this policy, should not erase the offending material from the systems. A copy of the material should be brought to the attention of a principal or teacher.

In situations in which cyber bullying originated from a non-school computer, but brought to the attention of school officials, any disciplinary action shall be based upon whether the conduct is determined to be severely disruptive of the educational process so that it markedly interrupts or severely impedes the day to day operations of a school. In addition, such conduct must also violate a school policy. Such conduct includes, but is not limited to, threats, or making threats off school grounds, to harm a member of the school staff or a student.

Malicious use of District's computer system to develop programs or to institute practices that harass other users to gain unauthorized access to any entity on the system and/or change the components of an entity on the network is prohibited.

Disciplinary action may include, but is not limited to, the loss of computer privileges, detention, suspension, or expulsion for verified perpetrators of cyber bullying. In addition, when any kind of threat is communicated or when a hate crime is committed, it shall be reported to local law officials.

COMMUNITY INSTRUCTIONAL RESOURCES

Helping each child develop to his/her full potential and become a contributive citizen to this community are important objectives of this district's educational program.

Toward these ends, the Board will encourage administrative and instructional personnel to rely on the community as one available educational tool. The administration will direct the development of a community instructional resources program designed to involve the citizens, the institutions, and the environment of our community in the education of its children.

The superintendent will have supervisory control over the community resources program, which will include the school volunteer service. Members of the staff and of the community will be encouraged to offer their ideas and services through the channels developed by the administration. Community resource files may be developed, noting contracts for voluntary assistance, program contribution, and an evaluation of the effectiveness of each contribution.

From time to time, each school principal may be asked to provide the superintendent with a summary of the extent and effect of using such volunteers.

SCHOOL VOLUNTEERS

The School Board recognizes the need to develop a volunteer program to support district instructional programs and extracurricular activities. The purpose of the volunteer program will be to:

1. Assist employees in providing more individualization and enrichment of instruction.
2. Build an understanding of school programs among interested citizens, thus stimulating widespread involvement in a total educational process.
3. Strengthen school/community relations through positive participation.

A volunteer is a person who works on an occasional or regular basis at school sites or other educational facilities to support the efforts of professional personnel. Such an adult volunteer worker will serve in that capacity without compensation or employee benefits of any type, except for Workers' compensation as per SDCL 62-1-5.1. In addition, all volunteers who have unsupervised contact with students will be required to submit to a criminal background check prior to starting any volunteer work.

Volunteers will work with students under the immediate supervision and direction of a certificated person and are expected to comply with all rules and regulations set forth by the district. Volunteers are immune from civil liability in any action brought in any court in this state on the basis of any act or omission resulting in damage or injury if:

- (1) The individual was acting in good faith and within the scope of such individual's official functions and duties; and
- (2) The damage or injury was not caused by gross negligence or willful and wanton misconduct by such individual.

Parents or legal guardians who occasionally visit their child during non-instructional times are not considered volunteers under this Policy.

ACADEMIC ACHIEVEMENT

The philosophy of the Board concerning academic achievement is based on the premise that students have diverse capabilities and interests and individual patterns of growth and learning.

Therefore, the Board feels it important that teachers have adequate, appropriate and accurate knowledge of each student through tests and observations of students' intelligence, achievement, work habits, skills, health, and home environment.

The Board recognizes that many factors which cannot be clinically tested—attitude toward others and work habits, for example—may influence a student's success in school as much as his/her knowledge of subject areas.

In fairness to each student, achievement will be judged by assessing his/her work in relation to his/her own progress, and also in terms of his/her degree of mastery of the course work in relation to his/her peer group.

GRADING SYSTEMS

The Canton School Board believes that evaluating and reporting student achievement are ways by which schools and students account to parents/guardians and the community for the effectiveness of the educational experiences. Evaluation must be based on reasonable and clearly understood standards of

student performance. Reporting of student achievement must honestly and realistically convey the strengths and weaknesses of student performance.

It is the philosophy of this Board that students will respond more favorably to positive reinforcement than to the threat of failure. The district, therefore, will seek to make achievement both recognizable and possible for its students, and will emphasize achievement in its processes of evaluating student performance. In order to implement this philosophy, the following administrative guidelines have been developed and are to be incorporated into the district's grading procedures:

- The grade must reflect the student's performance based on the learning standards.
- Permits the individual student to maintain dignity even when academic weaknesses are being presented.
- Teachers should provide opportunities which encourage and permit students to make up past deficiencies in their performance without penalty.
- Grades need to be recorded and communicated to students in a timely manner.
- The final grade must include multiple factors such as exams, quizzes, homework, performance in activities, supplemental work, make-up work, projects, and reports.
- Inform parents/guardians through both formal and informal ways when a student's work and performance become unsatisfactory or show marked or sudden decline.
- Notify parents/guardians formally or informally with information when a student is performing well.

The grading system will evaluate and report student progress. These records and reports of individual students will be kept in a form which will be meaningful to parents as well as for teachers.

Kindergarten will only use the following coded system to report student progress:

S – Satisfactory

I – Improving

N – Needs Improvement

U - Unsatisfactory

X – Does not apply at this time

Letter grades will only be assigned in the following content areas in the elementary school. All other content areas in the elementary will report progress through a coded system.

Grades 1-2 = Math, Reading and Spelling

Grade 3 = Math, Reading, E/LA and Spelling

Grade 4—5 = Math, Reading, E/LA, Science, Social Studies and Spelling.

Grades 1-12 will use the following grading scale:

A	100-95	D+	73-71
A-	94-92	D	70-68

B+	91-89	D-	67-65
B	88-86	F	64-0
B-	85-83		
C+	82-80		
C	79-77		
C-	76-74		

The Board will approve the grading and reporting system as developed by the faculty, upon the recommendation of the superintendent. The Board will support administration and professional staff efforts to find better ways to measure and report student progress.

The Board recognizes that any grading system, however effective, is subjective in nature, but will urge all faculty members to conduct student evaluations as objectively as possible.

STUDENT HOMEWORK

The Board believes that homework—when carefully planned, properly aligned to learning outcomes and tailored to the needs of individual student—has a purpose in the educational program. Homework is designed to help students learn by providing practice in the mastery of skills, experience in data gathering and integration of knowledge, and an opportunity to remediate learning problems. To this end, the administration will develop regulations for the assignment of homework according to these principles:

- Homework should be a properly planned part of the curriculum extending and reinforcing the learning experience provided in the classroom.
- The educational objectives for all assignments are clearly communicated to students/parents and support appropriate learning goals. (The homework assigned is important and worth the time.)

- Homework assignments are a teaching strategy. As such, homework should never be relied upon as an assessment as to what a child actually knows. Homework should help prepare the student for the assessment.
- In assigning homework, a teacher should consider a student's age and mastery of skills; his/her need for play time; and/or his/her out-of-school responsibilities and activities, which often aid a student in developing his/her interests or tastes.
- Homework should reflect or reinforce concepts already introduced in class and should encourage application of real world concepts.
- Because retention increases with short, intense practice periods distributed over time, homework assignments must be designed with this in mind.
- Timely feedback to students and/or parents should follow all homework assignments.
- Students will be evaluated on the accuracy of their homework. The Canton School District will not grade assignments based merely on completion.
- Homework should help develop the student's responsibility by providing an opportunity for the exercise of independent work and judgment. Students who fail to complete assignments by the due date will be required to do so without a reduction to the grade.
- Requiring students to correct other student's graded work is prohibited by FERPA.
- Families have a major influence on their children's achievement in school and throughout life. To help support our families, the district prohibits homework from being due on Thursday.
- Homework should not be confused with makeup work or given to compensate for students' absences.
- Under no circumstances should homework be given as busy work or for disciplinary purposes.

PROMOTION AND RETENTION OF STUDENTS

The administration and teaching staff must strive to create plans of instruction and instructional organization that will permit students to progress through school according to their needs and abilities.

Students will normally progress annually from grade to grade. However, exceptions to this general policy may be made when it becomes evident that a student should proceed more slowly.

Retention will not be used until other possibilities have been exhausted, including special help, and remedial work.

In all cases of retention, parents must be informed of such possibility well in advance (usually by the third reporting period) and a conference with them sought. In all instances, the advice and help of the guidance counselor and other special school personnel will be used by teachers.

Although teachers may recommend retention, all retention's (as well as promotions) will be assigned by the school principals. Teachers, in recommending retention's and principals in assigning them, will give the reasons why they feel the student should repeat.

The principal will take particular care in assigning more than one retention during a child's elementary school life. The superintendent must approve a second retention assigned any student.

GRADUATION/EARLY GRADUATION

Participation in Graduation Ceremonies

In order to be able to participate in the graduation ceremony, a senior must be within one (1) credit of the 24 total credits needed completing all graduation requirements, be currently enrolled in school and be enrolled in summer classes to finish the required work.

Early Graduation

As a general rule, the school board, administration, faculty, and guidance counselor are not in favor of early graduation, except in cases for students with extenuating circumstances. Students that desire to graduate earlier than the typical four-year program must follow the prescribed procedures below.

1. A student must indicate at spring class registration, prior to their senior year, their intentions and make preliminary arrangements with the guidance counselor. The guidance counselor will work with the student to build their senior schedule.
2. The student must have an extenuating circumstance in order to submit an early graduation request.
3. The student must not need more than 4 total credits at the end of their Junior year in order to graduate and must be on pace to receive their high school diploma, meeting all requirements for graduation.
4. In order to be considered and eligible for a CHAWK Advantage award, a student must have completed at least 7 semesters of courses.
5. A telephone or personal conference must be held with the student, his or her parent/guardian, guidance counselor and/or the high school principal regarding the early graduation request.
6. The student and parent/guardian must attach a statement to the early graduation request stating the extenuating circumstances, indicating the reasons for the early graduation request.
7. The early graduation request form must be signed by the student, parent/guardian, guidance counselor, high school principal, and superintendent to grant permission for the early graduation request. The Board of Education has final approval on granting the early graduation request.
8. If advanced plans for early graduation are not submitted by the student prior to their senior year, the student must have their early graduation request submitted no later than the third day of school if they plan to graduate at semester time.
9. The high school master schedule of classes will not be changed to accommodate early graduation requests.
10. Student schedules will only be changed to meet emergency situations that may arise.
11. Graduation exercises only occur once per year, at the end of the school year (generally on a Saturday in May).

TESTING PROGRAMS

The Board believes that a program of group testing can provide a meaningful source of information about the curriculum and overall student achievement. The Board, therefore, authorizes a program of group testing to help accomplish the following objectives:

1. To evaluate strengths and weaknesses of the current curriculum and instruction to identify areas needing change.
2. To compare achievement of district students with themselves and with students nationally as one means to evaluate student growth.
3. To provide a degree of diagnostic instructional information to teachers about the group(s) of students they work with.
4. To provide general information about a student's probable attitude for school-related tasks.
5. To provide one basis for longitudinal study of student achievement.

Information gained through the use of group tests will be used to design educational opportunities for students to better meet their individual and collective needs. The Board views such information gathering as a primary function of the public schools. Therefore, individual permission of parents will not be required for the administration of these group tests.

The Board recognizes that all tests provide only a limited source of information about an individual student. Information drawn from group tests will therefore be used only in conjunction with all other information known about a student in advising the student or assisting the student in improving his work.

Records of the results of group tests shall be maintained in accordance with the Board's policy on student records.

The Superintendent shall report the findings of the investigation to the South Dakota Department of Education. The Superintendent will also make a formal report the Board, excluding any personally student identifiable information of students involved.

Cheating is defined as any form of academic dishonesty or cheating, including the unauthorized knowledge of the achievement test by a student or providing unauthorized access to secure test questions or tampering or altering of student answer sheets by school district personnel.

Student and staff handbooks will contain information what constitutes cheating and communicate the possible personal and district sanctions.

The District shall not collect information that is not necessary for the determination of student academic progress, state and federal reporting requirements, other duties prescribed to the District, or for the calculation of funding for public education.

Pursuant to such procedures as established by the South Dakota Department of Education, the parent of a student to whom an assessment is administered pursuant to state law or the eligible student may request to inspect and review the assessment of the student after it is scored and the results are provided to the parent or eligible student. The law requires the Department of Education, to provide through its website information to parents and eligible students regarding the process and procedures for the inspection and review as authorized by law. The District will also provide parents and eligible students information regarding the process and procedures for the inspection and review as authorized by law. CANTON SCHOOL DISTRICT TEACHING ABOUT CONTROVERSIAL ISSUES

Background – Preparation for effective citizenship is accepted as one of the most important purposes of the Canton School District. The instructional program developed to achieve this purpose properly places great emphasis upon our American heritage, the rights and privileges we enjoy as citizens, and the citizenship responsibilities that must be assumed in maintaining a free society. In preparing for effective citizenship, it is frequently necessary, often imperative, that students investigate in an intelligent

manner, issues that are controversial. The democratic process of decision-making essential to a free society depends on this rational and objective approach to controversy.

Statement – In considering controversial issues, it shall be the purpose of the District to recognize the student’s rights:

1. To study a controversial matter, which has political, economic or social significance, and concerning which at appropriate level, he/she should begin to have an opinion.
2. To have free access to all relevant information, including the material that circulates freely in the greater community.
3. To study under competent instructors in an atmosphere of freedom from bias and prejudice. To form and express his/her own opinions on controversial issues in a civil manner without jeopardizing his/her relations with his/her teacher or the school.
4. To refuse information or materials, or to refuse to discuss issues which he/she or his/her parent/guardian find completely incompatible with their family values.
5. This policy shall be applicable to all instructional materials, LMC resources, presenters and speakers, demonstrations, as well as, instructional practices.

Application:

1. The approach of the teacher to controversial topics must be impartial and objective.
2. Teachers should use the following criteria for determining the appropriateness of certain issues for consideration as part of the curriculum.
 - a. The treatment of the issue in question must be within the range, knowledge, maturity and competence of the students.
 - b. There should be study materials and other learning aids available from which a reasonable amount of data pertaining to all aspects of the issue could be obtained.
 - c. The consideration of the issue should require only as much time as needed for satisfactory study of the class, but sufficient time should be provided to cover the issue adequately.
 - d. The issue should be current, significant, real, and important to the students and teacher. Significant issues are those, which in general concern considerable numbers of people, are related to basic principles, or at the moment are under consideration by the public, political bodies or the mass media.
3. In discussing controversial issues, the teacher should keep in mind that:
 - a. The classroom is a forum and not a committee for producing resolutions or dogmatic pronouncements.
 - b. The class should feel no responsibility for reaching any agreement or consensus.
 - c. The regular school curriculum should be enhanced and not disrupted by study of such issues.
4. It is the teacher’s responsibility to bring out the facts concerning controversial questions. He/she has the right to express his/her opinion, but in doing so, it is important that the students understand that it is an opinion, and is not to be accepted by them as an authoritative answer.
5. The principal bears a major responsibility for the administration and supervision of the curriculum, including the selection of materials and methods of instruction. He/she must be continuously aware of what is being taught or presented in his/her school.
6. A teacher who is in doubt concerning the advisability of discussing certain issues in the classroom should confer with his/her principal as to the appropriateness of doing so. If the principal and the teacher are unable to agree, and the teacher wishes to pursue the issue, it should be referred to the Superintendent.

7. A student, parent/guardian or other citizen of Canton may challenge the inclusion of or presenting of specific issues and/or instructional materials as follows:
 - a. The complainant should first review the district's policy regarding controversial issues carefully scrutinizing the Statement and Application sections of the policy.
 - b. After careful review, if the complainant still desires to protest the advisability of teaching or presenting said controversial issue of using said instructional material, he/she should file the attached Request for Review of Instructional Material and/or Teaching of a Controversial Issue form with the respective school principal. The complaint could involve the teaching of a specific issue, instructional(s), method of presentation, procedure(s) of discussion, speakers, etc.
 - c. Upon receipt of Request for Review form, the Principal shall meet with the teacher(s) involved, the complainant and other appropriate parties to determine if there is a solution to the issue. If the issue is resolved at the principal's level, the initial complaint form will be filed with the Superintendent's office appropriately recorded as resolved. In the case that the complainant is not satisfied with the resolution at the Principal's level, a form would be forwarded to the Superintendent's Office.
 - d. The superintendent shall meet with the principal, the complainant and other appropriate parties to determine if there is a solution to the issue. When a complaint reaches the Superintendent's level, the Board shall be provided with a brief characterization of the issues and notice that a complaint is being processed. If no mutually agreeable solution is possible, the complainant may take the issue to the School Board.
 - e. The School Board will review the matter in open session providing all concerned parties a full hearing. After careful consideration, the Board will take whatever action it deems appropriate. The Board's decision shall be final.
8. Materials, presentations, procedures, speakers, etc., already in place when a Request for Review is filed shall remain in place while the review is being processed in accordance with this policy. Materials, presentations, procedures, etc. which are being newly introduced to the educational programs will not be utilized until the Request for Review process is completed.
9. When a request for Review is received by the Superintendent he/she shall notify the Board members about the essence of the request. However, since the Board is the final arbitrator in such situations, the Board should not be given the full details about the review, or engage in a discussion of such a review until said issue comes before the Board as set forth in 7e) above.
10. School principals shall annually provide notification to all students and parents that this policy exists and how to file a Request for Review.

SCHOOL ATTENDANCE AREAS

The Board will determine attendance areas for the various schools of the district, as recommended by the superintendent. In recommending boundary lines, the superintendent will take into consideration the best of use of school facilities, the equalization of enrollments in classrooms, natural barriers, and traffic hazards and patterns. Except as the foregoing factors influenced boundary lines, the areas established should permit each student to attend the district's school nearest his/her place of residence.

Students are expected to attend the school in the area in which they live, with such individual exceptions as fall within Board policy or may be made in the best interests of the student and/or the school.

Individual school attendance boundaries may be changed as population warrants or as capacities of buildings require adjustments of student loads.

ENTRANCE AGE

Kindergarten

All children entering kindergarten for the first time must be five years of age on or before September 1. When a child has been enrolled in kindergarten prior to moving to the district and does not meet South Dakota entrance age requirements, a conference involving the building principal, the teacher, and the parent will be held. The parent will be informed that the child will be placed in kindergarten on a trial basis until such time as the principal and teacher can determine whether the welfare of the child can

best be served by retaining him/her in school or by withholding admission until the following school year. In most cases, the trial period will not exceed two or three weeks.

First Grade

All children entering first grade must be six years of age before September 1, or successfully completed kindergarten. First grade transfer students who do not meet state age requirements will be handled in the same manner as the kindergarten students. An elementary aged child who has been attending an unaccredited school in another state or country or has been receiving alternative instruction and seeks to enroll in the District shall be placed at the child's demonstrated level of proficiency as established by the standardized test administered to enrolled students in that grade in this District. Such child's placement may be in one grade level higher than warranted by the child's chronological age assuming entry into the first grade at age six and annual grade advancement thereafter. After initial placement the child may be advanced according to his or her demonstrated performance.

A child of secondary school age who has been attending an unaccredited school in another state or country or has been receiving alternative instruction who seeks to enroll in the District shall be placed in English and math at the level of achievement demonstrated by standardized tests administered to enrolled students of that age, and in all other subjects on a review of transcripts according to this policy. The child's placement may be in one grade level higher than warranted by the child's chronological age assuming entry into the first grade at age six and annual grade advancement thereafter. After initial placement the child may be advanced according to his/her demonstrated performance.

Procedures for determining units of credit for high school age students who have attended an unaccredited school or alternative program:

1. The principal shall appoint a credit review committee consisting of the high school staff deemed appropriate, and the parents or guardians. The purpose of the credit review committee is to make recommendations to the principal regarding which high school credits should be awarded to the applicant for work completed in the unaccredited school or alternative instruction program.
2. The credit review committee shall ensure that the student enrolling has completed at least one standardized achievement test in the areas of English and Math selected by and administered by the

school district.

3. The credit review committee shall recommend to the principal units of credit for English and Mathematics based on the student's composite Subtest achievement scores in Reading (English) and Mathematics as deemed appropriate by the committee.
4. The credit review committee shall recommend to the principal units of credit for subjects other than English and Mathematics based upon factors, including but not limited to the following: classes taken, transcripts, class or course syllabus for each course taken, and District approved minimum competency tests in particular subject areas.
5. Should there not be a consensus within the credit review committee, the committee shall submit to the principal the differing recommendations and the rationale for each recommendation given.
6. Upon receipt of the credit review committee recommendations, the principal shall determine which credits are to be applied for purposes of grade and class placement and toward graduation credits.
7. All students who have attended an unaccredited school or alternative program and enrolling in the District shall be required to meet District graduation requirements before being issued a diploma.

Any parent or guardian who is dissatisfied with the District's placement of the child may appeal it to the secretary of the Department of Education.

The following procedure shall be used to address an appeal of the Principal's placement decision.

1. The appeal shall be in writing. The appealing party must attach the Principal's written decision.
2. In the Superintendent's sole discretion, the Superintendent may (a) meet and discuss the matter with the Complainant, (b) meet and discuss the matter with the Complainant and Principal, or (c) meet and discuss the matter with the Principal.
3. Within fourteen (14) calendar days from the date the appeal was filed with the Superintendent, the Superintendent shall render a decision in writing. The time frame for rendering a decision by the Superintendent may be extended by the Superintendent for good cause and upon written notification to the Complainant and Principal; the notification shall identify the reason for the extension and the date on or before which the decision shall be rendered. The Complainant and Principal shall receive copies of the decision. The Superintendent may uphold, reverse or modify the Principal's decision. The Superintendent may also refer the matter back to the Principal for further investigation. The Principal may uphold, modify or reverse his or her initial decision. After a matter has been referred back to the Principal, and the Principal rendered a second decision, that decision may also be appealed to the Superintendent.
4. The Superintendent's decision may be appealed by the Complainant to the Secretary of Education within (10) ten calendar days of receipt of the Superintendent's written decision.

TRANSFER FROM AN ACCREDITED SCHOOL

Grade placement shall be the responsibility of the principal. Students transferring into the system from accredited schools will be placed in the same grade level as in the school from which they transferred.

Upon recommendation of the Superintendent, the Board may award credit for promotion and/or graduation through the results of proficiency testing, correspondence courses, and other educational endeavors during the regular school year which are not within the school curriculum. In awarding credit, the course or program must be pre-approved by the Principal, Superintendent and Board.

The District shall accept transfer credits earned by a student outside the regular school year for any course taken by the student from another school accredited by the South Dakota Department of Education.

The District shall accept the transfer credits only if the parents or emancipated student notifies the high school principal in writing, prior to taking the course(s) for which credit is to be received. The notification must include the student's name, the starting and ending dates for each course to be taken, the school accredited by the South Dakota Department of Education from which the course is to be taken, and provide documented verification of enrollment or registration for the course. The course syllabus must be attached to the notification.

If the school fails to receive such prior written notice, the school shall refuse to accept the credits.

If, upon review of the coursework for which transfer credit is sought, the principal determines that the course rigor is not sufficient to meet the graduation requirements established by the South Dakota Board of Education or by the District, the transfer credits earned by the student for the course will count as elective credits, but the course will not count as a course required for graduation.

If the principal determines that the credit(s) do not meet graduation requirements, the principal shall notify the student in writing and explain the reason for that determination and to cite the provisions of formally adopted school policy that apply.

The following procedure shall be used to address an appeal of the Principal's decision.

1. The appeal shall be in writing. The appealing party must attach the Principal's written decision.
2. In the Superintendent's sole discretion, the Superintendent may (a) meet and discuss the matter with the Complainant, (b) meet and discuss the matter with the Complainant and Principal, or (c) meet and discuss the matter with the Principal.
3. Within fourteen (14) calendar days from the date the appeal was filed with the Superintendent, the Superintendent shall render a decision in writing. The time frame for rendering a decision by the Superintendent may be extended by the Superintendent for good cause and upon written notification to the Complainant and Principal; the notification shall identify the reason for the extension and the date on or before which the decision shall be rendered. The Complainant and Principal shall receive copies of the decision. The Superintendent may uphold, reverse or modify the Principal's decision. The Superintendent may also refer the matter back to the Principal for further investigation. The Principal may uphold, modify or reverse his or her initial decision. After a matter has been referred back to the Principal, and the Principal rendered a second decision, that decision may also be appealed to the Superintendent.
4. The Superintendent's decision may be appealed by the Complainant to the School Board within (10) ten calendar days of receipt of the Superintendent's written decision.

The following procedure shall be used to address an appeal of the Superintendent's decision.

1. An appeal to the School Board shall be in writing. The Complainant must attach the complaint, the Principal's written decision if a decision was rendered, the appeal to the Superintendent, the response to the appeal, and the Superintendent's decision.
2. The appeal must be filed with the President/Chairperson of the School Board or Business Manager within ten (10) calendar days of Complainant's receipt of the Superintendent's written decision.
3. The School Board shall schedule a date, time and location for the appeal hearing.

OPEN ENROLLMENT POLICY

This policy is enacted to fairly allow admission and assignment of both resident and non-resident students in the Canton School District.

The board will accept all students from other districts wishing to enroll, providing the Canton School District's facilities can accommodate the students without adversely affecting the quality of the educational program. This determination will be based upon criteria adopted by the board, see Section C below, and is subject to the following conditions:

A. GENERAL PRINCIPLES

1. A student who is legal resident of another South Dakota district seeking to transfer to the Canton School District must make application on forms provided by the Department of Education and Cultural Affairs. The application must be made by an-un-emancipated student's parent or guardian or by the emancipated student. (The parent with the authority to request enrollment is the resident custodial parent.)
2. The application for open enrollment will be approved or disapproved by the Canton School Board and the applicant and resident district will be notified of the decision within five days of the decision. Applications will be reviewed in the order received.
 - A. Open enrollment applications maybe e acted on anytime during the year.
 - B. The application may be withdrawn by the applicant prior to the approval of the request and upon notification of the district to which the student applied.
 - C. Once approved by the Canton School District, the applicant's intent to enroll obligates the student to attend school in the Canton School District for the next school year, unless the two boards agree in writing to allow a student to return to the original district or if the parent, guardian, or student changes residence to another district. Students, once accepted under this, may continue enrollment for subsequent years without reapplication. Enrollment procedures for resident students apply to non-resident student in subsequent school years.
3. Once enrolled in the Canton School District, the enrollment will continue unless a bona fide change of residence occurs or a subsequent transfer application is received.
4. The Canton School District will accept credits granted for any courses successfully completed in another accredited district. The Canton School District may award a diploma to a non-resident only if the student satisfactorily meets the Canton School District's graduation requirements.
5. Transportation of non-resident students to the school is the responsibility of the applicant. Both the resident and non-resident districts may provide transportation of non-resident students if approved. The receiving district may charge a reasonable fee if the student elects to use the transportation services offered by the receiving district.

B. SPECIAL EDUCATION STUDENTS

Both state and federal law require that the resident district be responsible for providing a free and appropriate public education for students in need of special education and related services. All applications for transfer of a student who is currently on an Individualized Educational Plan (IEP) will

first be considered by the Coordinator of Special Education and possibly, a placement committee, if deemed necessary by the Coordinator. The placement committee will include representatives of both resident and non-resident districts. In addition to the other considerations of the 1997 Open Enrollment Act, the following additional considerations will apply:

1. An IEP team consisting of representatives from both the resident and nonresident districts will determine if the nonresident district can provide an appropriate instructional program and facilities, possibly including transportation, to meet the student's needs.
2. If the request to transfer is granted, the non-resident district is responsible for the provision of a free appropriate public education for the student in need of special education and related services, if required.
3. Notwithstanding the provisions of 13-28-45, the individualized education program team shall also determine whether the student in need of special education requires transportation as a related service. If so, the non-resident district shall provide or ensure the provision of transportation within the boundaries of the attendance center to which the student is assigned.
4. If a parent or guardian of a student in need of special education or special education and related services requests to transfer the student back to the resident district, the individualized education program team shall consider the request.

C. CRITERIA FOR MAKING TRANSFER DETERMINATIONS

The criteria will be available to any individual so requesting. Discrimination based upon race, gender, religious affiliation, or disability is prohibited. All members of the same family residing in the same household will be treated the same.

1. The criteria for approval will be established based on the capacity of each of the following elements within the district. The criteria should be adopted or amended prior to acting upon any request for the subsequent year.
 - a. Programs;
 - b. Classes;
 - c. Grade levels;
 - d. Buildings;
 - e. Pupil/teacher ratio.
2. The Department of Education and Cultural Affairs has authority to promulgate rules setting forth procedural and administrative requirements of the open enrollment program. The school district shall follow any and all such rules and procedures.
(Note: As of September 2000, no rules have been proposed.)
3. The board may deny applications for any of the following reasons:
 - a. Any criterion established in paragraph C-1 is violated;
 - b. The applicant is under suspension or expulsion in the resident district;
 - c. The applicant has been convicted of possession, use, or distribution of any controlled substance, including marijuana and is under suspension pursuant to SDCL 13-32-43; (SDCL 1332-9)
 - d. The applicant has been convicted of a weapons charge relating to the schools and is under suspension pursuant to SDCL 13-42-43.

D. MISCELLANEOUS PROVISIONS

1. The district will make relevant information about the district, schools, programs, policies, and procedures available to all interested people.

The Board has the authority to make assignments and distribute the students residing within the district to the schools. In assigning students to the schools, the Board shall take into consideration its duty to provide an education within the guidelines of the state board of education's accreditation rules, the wishes of the parents or guardians of the child being assigned and the district patrons, the miles and time involved in transporting the child to school, and the educational and financial impact on the district.

Any parent or guardian who is not satisfied with the decision of the Board, may, within 30 days, request a hearing before the Superintendent of Elementary and Secondary Education. The DESE Superintendent's decision is final, unless the matter is appealed to the courts.

STUDENT WITHDRAWAL FROM SCHOOL

Student withdrawal from school may be classified into two categories: Those who transfer to another school system, either public or private, and those who choose to drop out of school.

If a student wishes to withdraw from school to transfer to another school district he/she should see the principal who will instruct him/her as to procedure. When transferring to another school, a student should make arrangements with the office to forward credits to the proper school. All outstanding obligations to the school the student is currently enrolled in must be satisfied before credits can be transferred.

The Board is very concerned about those students who may permanently withdraw from school. The Board believes a high school diploma signifies the minimum preparation for life. Consequently, students who withdraw from school may have less than a minimum preparation. Therefore, the Board strongly urges every teacher, guidance counselor, principal, parent, and citizen to exert all influence to keep all students in school through high school graduation.

The instructional staff should be alert to at-risk students and do everything possible to give the necessary guidance to such students. The regular school program should be organized and modified to suit the student's needs and aspirations. Conferences with parents may be necessary and encouraged. All students should be asked to notify the principal before withdrawing. The school should keep in contact with students who have withdrawn.

Students who are 16 years of age, and who have parent/guardian written approval to withdraw, may withdraw from school. Each student will be informed of his/her right to be readmitted to school upon request.

Students seeking readmittance to the district schools will be permitted to reenroll at the beginning of established semesters, and will be required to provide notification of their intent to reenroll one week prior to the start of a semester.

STUDENT ABSENCES AND EXCUSES

A student's contribution to and achievement in class are directly related to attendance. Both students and parents must understand that students miss a vital portion of their education when they are absent from school.

While it is true that written work can be completed for make-up, class instruction or presentations, discussions, some audio-visual presentations, or student-teacher interaction can never be made up. Certain absences of students will be excused by the principal on receipt of a written, signed explanation from the parent or guardian. These absences will include:

1. Illness or quarantine;
2. Bereavement or serious illness in family;
3. Weather so inclement as to endanger the health of the child;
4. Observance of major religious holidays.

A child may also be excused for other exceptional reasons with approval of the school administrator. Also with such approval, students may be eligible to be counted for school attendance for up to five days each term if an excuse from actual school attendance is requested by a parent or guardian for attendance at a state or nationally recognized youth program of educational value or for the purpose of working as a precinct election official if the student is at least eighteen years old. In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician's statement certifying such absences to be justifiable. Any absence other than excused absence is considered truancy.

TRUANCY

Through cooperation with parents, strict adherence to regulations in regard to tardiness and unexcused absence, and diligence in investigating the causes of absence, the Board will endeavor to reduce tardiness and truancy.

STUDENT DISMISSAL PRECAUTIONS

Students in any school, grade, or class may not be dismissed before the regular hour of dismissal except with the approval of the superintendent or his/her designee.

A teacher may not permit any individual student to leave school prior to the regular hour of dismissal except by permission of the principal.

No student will be permitted to leave school prior to the dismissal hour in the company of anyone other than a school employee, or parent of the child, unless the permission of the parent has been first secured. If a policeman or court official requests the dismissal of a pupil during school hours, he/she must have a warrant or written request by parents before the student is dismissed.

STUDENT RIGHTS AND RESPONSIBILITIES

The Board recognizes that it has the responsibility to assure students the legal rights that are theirs by virtue of guarantees offered all persons under the federal/state constitutions and statues. In connection with rights are responsibilities that must be assumed by students.

A student is responsible for the way he/she exercises his/her rights, and he/she must accept the consequences of his/her actions and recognize the boundaries of his/her rights. Each exercise of an individual's rights must demonstrate respect for the rights of others.

These statements set forth the rights of students in the public schools of the district and the responsibilities that are inseparable from these rights:

1. Civil rights—including the rights to equal educational opportunity and freedom from discrimination; the responsibility not to discriminate against others.
2. The right to attend free public schools; the responsibility to attend school regularly and to observe school rules essential for permitting others to learn at school.
3. The right to due process of law with respect to suspension and expulsion.
4. The right to free inquiry and expression; responsibility to observe reasonable rules regarding these rights.
5. The right to privacy, which includes privacy in respect to the student's school records.

As part of the educational process, students should be made aware of their legal rights and of the legal authority of the Board to make, and delegate authority to its staff to make, rules regarding orderly operation of the schools.

STUDENT DUE PROCESS RIGHTS

All students are entitled to due process when they are subjected to disciplinary actions such as suspension or expulsion. The Board and school officials have the legal authority to deal with disruptive

Due process procedures will conform to the following basic practices:

1. They must be fair.
2. They must apply equally to all.
3. They must be enforced in a fair manner, which involves:
 - adequate and timely notice and an opportunity to prepare a defense.
 - an opportunity to be heard at a reasonable time and in a meaningful manner.

EDUCATION OF HOMELESS CHILDREN

The McKinney-Vento Homeless Assistance Act guarantees rights and services to remove educational barriers for homeless children and youth.

A homeless child is a child without permanent housing who:

- lives on the streets;
- stays in a shelter, mission, single room occupancy facilities, abandoned building or vehicle; or
- is in any other unstable or non-permanent situation.

The Board will appoint a liaison for homeless children. Every homeless child is entitled to equal access to the same free, appropriate public education as provided to other students. The District will strive to ensure the enrollment and attendance of homeless children not currently attending school. The District will enroll a child who is homeless regardless of residence and irrespective of whether the homeless child is able to produce records normally required for enrollment.

Homeless children will have access to services comparable those offered to other students, including but not limited to:

- Transportation services;
- Educational services for which a student meets eligibility criteria (e.g., Title I);
- Educational programs for students with disabilities and limited English proficiency;
- Programs in vocational and technical education;
- Programs for gifted and talented students; and
- School nutrition program.

The District will strive to ensure the enrollment and attendance of homeless children not currently attending school.

The District will review and revise as necessary those policies, rules or procedures that may be barriers to enrollment of homeless children. In reviewing and revising such procedures, the District will consider issues of transportation, immunization, residence, birth certificates, school records, and other documentation.

Dispute Resolution Process

The McKinney-Vento Homeless Assistance Act guarantees rights and services to remove educational barriers for homeless children and youth. The District has developed a dispute resolution process for when parents, guardians, or unaccompanied youth and schools, disagree on the eligibility, enrollment, or educational placement of homeless children and youth. The designated District Homeless Liaison is responsible for carrying out the dispute resolution process in an expeditious manner.

The District will provide a written explanation of the decision to the parent or, in the case of an unaccompanied youth, to the unaccompanied youth. The written explanation must include a description of the parent's or unaccompanied youth's right to appeal the decision. When a dispute arises over eligibility, enrollment, or school selection, the child or youth shall be immediately admitted to the school in which enrollment is sought, pending resolution of the dispute.

Should a dispute occur regarding eligibility, enrollment, or school selection of a homeless child or youth, the dispute process as outlined in regulation JFB-R(1) must be used.

**EDUCATION OF HOMELESS CHILDREN
Dispute Resolution**

The McKinney-Vento Homeless Assistance Act guarantees rights and services to remove educational barriers for homeless children and youth. The District has developed a dispute resolution process for when parents, guardians, or unaccompanied youth and schools, disagree on the eligibility, enrollment, or educational placement of homeless children and youth. The designated District Homeless Liaison is responsible for carrying out the dispute resolution process in an expeditious manner.

The District will provide a written explanation of the decision to the parent or, in the case of an unaccompanied youth, to the unaccompanied youth. The written explanation must include a description of the parent's or unaccompanied youth's right to appeal the decision. When a dispute arises over

eligibility, enrollment, or school selection, the child or youth shall be immediately admitted to the school in which enrollment is sought, pending resolution of the dispute.

Should a dispute occur regarding eligibility, enrollment, or school selection of a homeless child or youth, the following process must be used:

- **Level 1:** If a parent or unaccompanied youth wishes to appeal a District Homeless Liaison's decision related to a student's eligibility, enrollment, or educational placement, the case is appealed to the District Superintendent or the Superintendent's designee (who may not be the District Homeless Liaison).
- **Level 2:** If the appeal is unresolved, the case is appealed to the School Board.
- **Level 3:** If the appeal continues to be unresolved, the case is appealed to the McKinney-Vento State Coordinator.

Every effort should be made to resolve the complaint or dispute at the local level before it is brought to the South Dakota Department of Education.

Initiation of the Dispute Resolution Process

The District's Homeless Liaison must log their receipt of the appeal, including the date and time, with a written description of the situation and the reason for the dispute, and a copy of the complaint must be forwarded to the District Superintendent within seven (7) calendar days of receipt of the notice of appeal.

The Liaison may uphold, modify or reverse his or her initial decision. After a matter has been referred back to the Liaison, and the Liaison rendered a second decision, that decision may also be appealed to the Superintendent.
- E. The Superintendent's decision may be appealed to the School Board within fourteen (14) calendar days of receipt of the Superintendent's written decision. If the Superintendent does not render a written decision within the required time frame the matter may be appealed to the School Board pursuant to Step 3.

Consultation with any other person during deliberation may occur only if a representative of both parties are present. The Board may, in its sole discretion, continue the proceedings and make a final decision on the appeal at a later date.
 - 12) Within twenty (20) calendar days of the hearing, the School Board shall render its decision and issue its written Findings of Fact, Conclusions of Law and Decision. The time frame for rendering a decision may be extended by the Board President for good cause and upon written notification to the parties.
 - 13) The decision of the School Board must be based solely on the evidence presented at the hearing and must be formalized by a motion made in open meeting. The Board will reconvene in open session. The Board may uphold, reverse, or modify the Superintendent's decision, or render a decision on the merits of the complaint in the absence of a Superintendent's decision. Findings of Fact, Conclusions of Law and Decision, consistent with the Board motion, shall be in writing and approved by the Board. STUDENT CONDUCT ON SCHOOL BUSES

When a child is riding, boarding, or leaving the bus, the bus driver has supervisory control over the student and may exercise reasonable, necessary and legal discipline to maintain that control and to provide for the safety of the bus operation.

In view of the fact that a bus is an extension of the classroom, the Board will require children to conduct themselves in the bus in a manner consistent with established standards for classroom behavior.

In cases when a child does not conduct himself properly on a bus, such instances will be brought to the attention of the building principal and transportation supervisor by the bus driver. The **transportation**

supervisor will inform the parents immediately of the misconduct and request their cooperation in checking the child's behavior.

Children who become a serious disciplinary problem on the school bus may have their riding privileges suspended by the principal. In such cases, the parents of the children involved become responsible for seeing that their children get to and from school safely.

The **transportation supervisor** shall adopt rules of conduct while riding school buses and parents and students will be informed of these regulations at the beginning of each school year. Parents will be asked to return signed forms indicating that the regulations have been received and read.

STUDENT BULLYING

The Canton School District is committed to maintaining a constructive, safe school climate that is conducive to student learning and fostering an environment in which all students are treated with respect and dignity.

Persistent bullying can severely inhibit a student's ability to learn and may have lasting negative effects on a student's life. The bullying of students by students, staff or third parties is strictly prohibited and shall not be tolerated.

Bullying consists of physical, verbal, written or electronic conduct directed toward a student that is so severe, pervasive and objectively offensive that it:

1. has the purpose of effecting or creating an intimidating, hostile or offensive academic environment, or
2. has the purpose or effect of substantially or unreasonably interfering with a student's academic performance which deprives the student access to educational opportunities.

This policy is in effect while students are on property within the jurisdiction of the board; while students are in school-owned or school-operated vehicles; while students are attending or engaged in school-sponsored activities; and while students are away from school grounds if the misconduct directly affects the good order, efficient management and welfare of the school district.

It shall be the responsibility of the superintendent to develop administrative regulations, in accordance with this policy, to protect the district's students from the harmful effects of bullying. Regulations accompanying this policy shall include, but are not limited to:

1. Additional definitions, if necessary, to assist in the implementation of this policy;
2. A procedure to report incidents of bullying;
3. A process to investigate reported acts of bullying;
4. A procedure, consistent with district policy, to provide appropriate consequences for any individual found to have engaged in bullying;
5. A statement prohibiting retaliation against individuals who, in good faith, report acts of bullying; and
6. A process to inform staff, students and parents of the district's bullying prevention policies and efforts.

This policy shall not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions where the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

Adoption Date: August 2012

The report shall be on a form available from the building principal or from the district office. **A report may be made anonymously, although disciplinary action may not be based solely on an anonymous report.** At the time a report is made, district staff may request any evidence of the alleged bullying, including, but not limited to, letters, tapes, pictures or electronic communication devices.

1. **Designated Personnel.** The building principal is designated to receive written reports of bullying at each school building. Reports may also be received by the Dean of Students or an alternate, as designated by the building principal. If the complaint involves the building principal, the complaint shall be filed directly with the superintendent. In such cases that a

SMOKING, USE OF TOBACCO PRODUCTS AND USE OF CERTAIN NICOTINE DELIVERY PRODUCTS ON SCHOOL PROPERTY AND IN SCHOOL OWNED VEHICLES

Introduction

The U.S. Surgeon General has warned the citizens of the United States about the hazards of smoking and the use of tobacco products. Tobacco products contribute to various health problems; however, some of the most noteworthy include the following: heart attacks, high blood pressure, stroke, emphysema, and cancer. A byproduct of tobacco, smoke, can affect non-smokers in a similar manner when smoke is inhaled over a period of time.

The Canton School Board is dedicated to a comfortable, healthy, safe, and productive environment for its students, staff, patrons, and visitors. The school board believes that education is a key element in establishing appropriate patterns of behavior related to good health. The school board also recognizes the importance of adults modeling appropriate health related behavior for students at school.

Use of Tobacco and Simulated Smoking Products

No person shall be allowed to use on school property or in school vehicles; tobacco products of any kind, devices that simulate the act of smoking, or devices that have the capability of delivering nicotine or other chemicals to the user through inhalation. Inhalers prescribed for medical use are exempt from the policy. This policy applies but is not limited to teachers and other school employees, students, patrons, and visitors. The school board issues this policy in an attempt to preserve the health, safety, and environment to all people who use the school and attend school activities at Canton School District.

6. State and federal regulations regarding special education students will be followed.

USE OF ALCOHOL SENSORS

In keeping with its commitment to protect all pupils and the school community from the harm of alcohol use, the Board authorizes the Superintendent, Principals, and designee(s), to use a portable breath test (PBT) and passive breath alcohol sensor device (PBASD) to screen for evidence of breath alcohol.

The purpose for using a PBT and PBASD is to protect pupils who may be under the influence of alcohol, other pupils, staff and community members attending school events and to deter the use of alcohol by pupils. As PBT and PBASD implementation is intended primarily as a deterrent to student and youth alcohol use, nothing set forth in this policy precludes school district personnel from using the power of observation and professional judgment when there is reasonable suspicion of youth alcohol consumption.

The Board authorizes PBT and PBASD screening of students during the school day upon reasonable suspicion that a student may have consumed alcohol, and of attendees before, during and after school activities/events including, but not limited to dances, athletic events, proms, class trips, drama productions, graduation ceremonies, or school assemblies.

Procedurally, district personnel will not vary from the normal course of action outlined in Policy JGD: Student Suspension or Expulsion when evidence of alcohol consumption is derived from a PBT, PBASD reading or personal observation.

If the PBT or PBASD screening indicates the presence of alcohol on District student, the matter shall be reported to the Principal or designee and law enforcement. District students violating this policy will be disciplined according to the discipline procedures outlined in this policy and other relevant policies. School age persons from other districts attending school and district sponsored events who are suspected of alcohol consumption will be reported to the Principal or designee and law enforcement.

The Board shall provide notices to students, staff, parents and guardians of this policy.

STUDENT DRUG ABUSE

The Board recognizes its share of the responsibility for the health, welfare, and safety of the students who attend the district's schools. The Board is concerned about the community problem of drug abuse and further recognizes that the use of drugs, **including but not limited to**, narcotics, depressants, and other controlled substances illegally and/or inappropriately constitutes a hazard to the positive development of students. **Including the abuse of over the counter and prescription drugs.** Therefore, the district's policy on drugs requires:

1. The education of students to bring about awareness and understanding of the dangers inherent in the use of controlled drugs.
2. The provision in each school of counseling services that will make it possible for drug-troubled students to seek and get counseling any time without fear of reprisal and with assurance of the confidentiality of the counseling.
3. Emergency health and safety care which may be in order for students under the active influence of drugs at school or in connection with any school activity.
4. Close cooperation by school officials with parents or guardians of students seriously suspected or reliably reported to be illegally involved with controlled drugs. This requires that

parents/guardians be notified and conferences with them arranged when suspicion of drug abuse in any form (use, possession, or distribution) is sufficiently founded. This is intended as a time when school officials may work with parents or guardians without involving law enforcement agencies and without taking disciplinary action.

5. The prohibition of the use, possession, or distribution of illegal drugs on school property or in connection with any school activity. Violation of this provision must be reported to the proper law enforcement agency and is cause for suspension from school.

The superintendent will be responsible for developing legally sound procedures for implementation of this policy.

NOTE: **All new policies must be board approved.**

CELL PHONES AND PORTABLE DIGITAL MEDIA DEVICES

The Canton School District, as part of a commitment to upholding academic integrity and providing a safe learning environment free from distraction, limits student use of cellular phones and portable digital media devices.

Students may possess cellular phones and portable digital media devices on school property, while in school-owned or school-operated vehicles and while students are attending or engaged in school-sponsored activities, subject to limitations of this and other policies and regulations of the District.

Students found in violation of this policy shall be subject to appropriate disciplinary action, up to and including expulsion. Severe violations of this policy involve highly inappropriate activities including, but not limited to:

1. Electronic communication that contains inappropriate content, profanity, intimidation or threats to others;
2. Sexting, which includes intentionally creating, producing, distributing, presenting, transmitting, posting, exchanging, disseminating, or possessing, through any computer or digital media, any photograph or digitized image or any visual depiction of a person in any condition of nudity, or involved in any prohibited sexual act;
3. Academic dishonesty or cheating;
4. The use of camera or recording features of cellular phones and portable digital media devices in restrooms, locker rooms or for any use constituting an invasion of any person's reasonable expectation of privacy;
5. Communicating in any way with outside groups or individuals to participate in violent acts or other inappropriate or unlawful activities on school property or at school-sponsored activities;
6. Refusal to relinquish phone to persons of authority upon request.

This policy shall not be interpreted to justify unreasonable searches of cellular phones or other digital media devices by school personnel. Any search of a student's cellular phone or portable digital media device by school personnel shall be:

- Justified at its inception and based on reasonable grounds that the search would reveal evidence of a student's severe violation of this policy;

- Reasonably related to its objectives and not excessively intrusive in light of the nature of the infraction; or
- Conducted in accordance with district policy and procedures.

As necessary for the implementation of this policy, the superintendent may establish regulations, consistent with this policy, further limiting or prohibiting the possession and use of cellular phones or portable digital media devices.

The District assumes no responsibility for loss, damage or theft of cellular phones and digital media devices, whether in the possession of students, on school property or if confiscated by school personnel pursuant to this policy.

PREGNANT/MARRIED STUDENTS

The marriage or pregnancy of students will not affect their rights to receive a public education; their privileges as students of the district; nor their opportunities to take part in any extracurricular activities or honors offered by the school.

Girls who become pregnant and wish to remain in school will be permitted to do so with the approval of their physician. The physician will state whether or not attendance and full participation in the regular school program is medically advisable. If continued attendance is not advised by the physician, the principal is authorized to make special arrangements for the instruction of the student and to provide an educational program designed to meet her special needs.

INTERROGATIONS AND SEARCHES

Searches by Staff

The right of inspection of students' school lockers is inherent in the authority granted school boards and administrators. Lockers remain the property of the school district and the school district has the right of access to these lockers at any time for any reason. This authority may be exercised as needed in the interest of safeguarding children and their own and school property.

Whenever school authorities have any cause to believe that articles may be in a locker, desk, or other storage space which constitute contraband or are in violation of a school rule, a search will be made.

The following rules apply to the search of school property assigned to a specific student (locker, desk, etc.), and the seizure of items in his/her possession:

1. There should be reasonable cause for school authorities to believe that articles are kept in the locker, desk, or other storage space whose possession constitutes a crime or rule violation.
2. Search of an area assigned to a student should be for a specifically identified item, and should be conducted in his/her presence and with his/her knowledge.
3. General housekeeping inspection of school property may be conducted with reasonable notice.
4. Illegal items (drugs, weapons, etc.) or other possessions reasonably determined to be a threat to the safety or security of others may be seized by school authorities at any time.

Searches of Student Property by Police

A proper search warrant is required for any search of a student's personal property kept on school premises; however, upon notification to the administration, if the police have reason to believe any item that might pose an immediate threat to the safety or security of others is kept in a student locker, desk, or other storage space, searches may be conducted without a previously issued warrant.

Interviews by Police

The school district has physical custody of students during the school day and during hours of approved extracurricular activities. School authorities stand in place of the parents (in loco parentis) to the students and thus have responsibility regarding the circumstances under which access to students is allowed. Therefore:

1. When law enforcement officials find it necessary to question students during the school day or periods of extracurricular activities, the school principal or his designee will cooperate. An effort will be made to contact the student's parent or guardian so that the responsible individual may be notified of the situation.
2. School officials will follow the instructions of the authorities in suspected child abuse cases. School officials will not block this kind of investigation.
3. If custody and/or arrest is involved, an effort will be made to contact the student's parent or guardian.

STUDENT COMPLAINTS AND GRIEVANCES

The Board recognizes that there may be conditions in the school district that are in need of improvement and that students should have some means by which their concerns may be effectively expressed, considered, and dealt with fairly. Such means, if well conceived and understood in advance, can do much to maintain harmonious relationships between the schools, students, and community.

The Board desires student complaints and grievances to be resolved through orderly processes and at the lowest possible level, but that channels be provided for eventual hearing by the Board in instances when this becomes necessary. Therefore:

1. Any student or his/her parents or guardian will be provided the opportunity to discuss with the student's teacher a decision or situation which he/she considers unjust or unfair,
2. If the incident remains unresolved, the student or his/her parents or guardian or the teacher, may bring the matter to the principal's attention for his/her consideration and action.
3. The student may also bring a matter of general student concern to the attention of class officers or the student council (in grades and schools where such are elected) for possible presentation to the principal.
4. If the matter is still unresolved after the procedure outlined above, it may be brought to the superintendent of his/her consideration.
5. Complaints that remain unresolved following any action of the superintendent may be referred in writing to the Board for review.

Appeal may be taken from the Board's decision as permitted by law.

PUBLIC COMPLAINTS ABOUT SCHOOL PERSONNEL

The Board places trust in its employees and desires to support their actions in such a manner that employees are freed from unnecessary, spiteful, or negative criticism and complaints.

Whenever a complaint is made directly to the Board as a whole or to a Board member as an individual, it will be referred to the school administration for study and possible solutions. The individual employee involved will be advised of the nature of the complaint and will be given every opportunity for explanation, comment, and presentation of the facts as he sees them.

If it appears necessary, the administration, the person who made the complaint of the employee involved may request an executive session of the Board for the purposes of fuller study and a decision by this body. Generally, all parties meeting for the purposes of presenting additional facts, making further explanations, and clarifying the issues. Hearsay and rumor will be discounted, as well as emotional feelings except those directly related to the facts of the situation.

The Board will conduct such meetings in as fair and just a manner as possible. The parties may agree upon a disinterested third party to act as a moderator to help them reach a mutually satisfactory solution. The Board shall however, reserve the right to determine what, if any, action is to be taken.

Any parent, guardian, or other person who upbraids, insults, or abuses any teacher or other employee on school property or in the presence of students will be prosecuted by the Board under the provisions of law. School employees shall be indemnified for the cost of legal services in defending suits arising from the performance of their assigned duties unless liability is established based upon the employee's own gross negligence, willful misconduct, or unlawful conduct.

COMPLAINTS ABOUT THE CURRICULUM OR INSTRUCTIONAL MATERIALS

The Board reserves to itself the final responsibility for all instructional materials used and curriculum taught in the district schools. The Board recognizes that without a free and vigorous exchange of ideas, learning and teaching cannot take place effectively.

The board also recognizes that district residents have a right to express concerns about the educational programs of their schools. When citizens have concerns about particular courses or instructional materials, these concerns should be stated in writing, carefully considered, and accorded the courtesy of a prompt reply by school personnel. All such replies will be based on the instructional goals of the district, upon course objectives and standards, and upon the criteria for selection of instructional materials.

Staff members will attempt to accommodate serious religious or moral objections to particular instructional materials by providing alternate materials whenever possible. However, attempts by parents or students to control what others read and study will be subject to careful scrutiny and question by school employees and the Board.

1. The material in question should first be discussed with the teacher or librarian who will report the results of this meeting in writing to the principal. During that initial meeting between the complainant and teacher and/or librarian relevant data will be collected concerning the objections and grounds for the complaint will be determined. If satisfaction is not reached, the complainant may continue with Step 2.
2. The principal will meet to discuss the material with the complainant and the teacher or librarian. The results of the meeting will be reported in writing to the superintendent. If satisfaction is not gained, the complainant will be requested to complete the form, "Request for Reconsideration of Instructional Materials," before proceeding to Step 3.
3. The superintendent will appoint a review committee composed of the following members:
 - The building principal.
 - The building librarian.
 - Two building teachers.
 - Three adult citizens.
 The committee members will be requested to read or view the material and response to the complainants' answers to the questions on the form "Request for Reconsideration of Instructional Materials." The recommendation of the committee will be sent to the complainant by the superintendent. If the complainant is not satisfied, he may continue with Step 4.
4. The superintendent will meet with the complainant to resolve the problem. If an impasse has developed, the matter is to be directed to the Board in Step 5.
5. The complainant will appear before the Board as the final step in the request for reconsideration of instructional materials.

PUBLIC COMPLAINTS

Constructive criticism of the schools will be welcomed by the Board when it is motivated by a sincere desire to improve the quality of the educational program or to equip the schools to do their tasks more effectively.

Whenever a complaint is made directly to the Board as a whole or to an individual Board member, the individual or group involved will be advised to take their concern to the appropriate staff member.

The Board believes that complaints and grievances are best handled and resolved as close to their origin as possible, and that the staff should be given every opportunity to consider the issues and attempt to resolve the problem prior to involvement by the Board. Therefore, the proper channeling of complaints involving instruction, discipline, or learning materials will be as follows:

1. Teacher.

2. Principal.
3. Superintendent.
4. Board.

If a complaint, which was presented to the Board and referred back through the proper channels, is adjusted before it comes back to the Board, a report of the disposition of the matter will be made to the Board and then placed in the official files.

The Board expects the professional staff to receive complaints courteously and to make a proper reply to the complainant.

Matters referred to the superintendent and/or Board must be in writing and should be specific in terms of the action desired.

Exceptions to this policy will be made when the complaints concern Board actions or Board operations only.

Sample Complaint Policy for Federal Programs

A parent, student, employee, or district stakeholder, who has a complaint regarding the use of federal NCLB funds and is unable to solve the issue, may address the complaint in writing to the district’s superintendent.

Disputes addressing the enrollment, transportation (including inter-district disputes), and other barriers to the education of children and youth experiencing homelessness are also addressed under this procedure. Parents, guardians, and unaccompanied youth may initiate the dispute resolution process directly at the school they choose, as well as at the district or district’s homeless liaison’s office. The parent or guardian or unaccompanied youth shall be provided with

a written explanation of the school's decision including the rights of the parent, guardian, or youth to appeal the decision. Students should be provided with all services for which they are eligible while disputes are resolved.

The superintendent will investigate, within one week, the circumstances of the complaint and render a decision, within two weeks, after receipt of the complaint.

The superintendent will notify the complainant of the decision in writing.

The complainant will be allowed one week to react to the decision before it becomes final.

The complainant will either accept or disagree with the decision and will provide such acknowledgment in writing, addressed to the district superintendent.

If the issue is not resolved with the superintendent, the complaint will be forwarded to the district's Board of Education for further review. The parent or guardian or unaccompanied youth shall be provided with a written explanation of the district's decision including the right of the parent, guardian, or youth to appeal the decision.

Unresolved complaints may be forwarded by the stakeholder to the South Dakota Department of Education for review. (Consult SD Department of Education Complaint Procedure)

STUDENT DISCIPLINE

Staff and students share responsibility for maintaining a climate in which education can be pursued. What is best for the individual must be balanced with what is most desirable for the entire school population.

The following principles will be observed by the school staff in maintaining student control and discipline in the schools:

1. It is believed that most individuals modify behavior faster under praise than by criticism. Therefore, the general approach to discipline will be a positive one. This will include attempting to identify the social, emotional, and academic problems that underlie a student's poor attitude or misconduct, and striving to meet his/her social, emotional, and academic needs.
2. Every individual needs to feel worthy and accepted as a person. In criticizing a student for his/her conduct or attitude and in taking disciplinary action, teachers and other staff members will endeavor to show him/her that it is his/her behavior that is objectionable, not the student himself/herself.
3. The best discipline is self-discipline. Modes of student control over classroom management will offer students the freedom to acquire self-control and self-discipline. This freedom will be extended in keeping with the student's maturity.

Within the above guidelines and specific policies regulating conduct and disciplinary action, the superintendent will set up procedures for dealing with disciplinary problems.

The Board extends to all of its school employees, professional and nonprofessional, the authority to enforce policy and regulations governing student behavior. Students will comply with the directions given them by staff members.

Seclusion and Restraint

The Canton School District will notify the parent or guardian of the student, unless the student is emancipated, of an incident requiring the use of restraint or seclusion. This notice will occur within the school day if school is in session that day.

No employee of the Canton School District will use the method of prone restraint, defined as physical pressure applied to any part of the student's body to keep the student in a face down position on the floor or other surface, except when that use is necessary and reasonable in manner and moderate in degree. In addition, no student will be placed in involuntary confinement in a locked room alone unless there is a clear and present danger.

Student Discipline-Bully Prevention

Persistent bullying can severely inhibit a student's ability to learn effectively or a member of the staff's ability to do their job. The negative effects of bullying can have an impact on a person for their entire life. We are committed to providing a caring, friendly and safe environment of all of our students so they can learn in a relaxed and secured atmosphere. Bullying of any kind is unacceptable. If bullying does occur, all pupils should be able to tell and know that incidents will be dealt with promptly and effectively.

Bullying is repeated and intentional harmful behavior initiated by one or more students and directed toward another student. Bullying exists when a student with more social and/or physical power deliberately dominates and harasses another who has less power. Bullying is unjustified and typically repeated. Bullying differs from conflict. Two or more students can have a disagreement or a conflict. Bullying involves a power imbalance element where a bully targets a student who has difficulty defending himself or herself.

The forms of bullying:

- Physical-involves harmful actions against another person's body
- Verbal-involves speaking to a person or about a person in an unkind or hurtful way
- Emotional-involves behaviors that upset, exclude, or embarrass a person
- Sexual-involves singling out a person because of gender and demonstrates unwarranted or unwelcome sexual advances
- Racial-involves rejection or isolation of a person because of ethnicity

The school board expects students to conduct themselves in a manner in keeping with their levels of development, maturity, and demonstrated capabilities with proper regard for the rights and welfare of other students and staff.

The school board believes that standards for student behavior must be set cooperatively through interaction among the students, parents and guardians, staff and community members of the school district, producing an atmosphere that encourages students to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well for district and community property on the part of students, staff, and community members.

The school board requires its school administrators to develop and implement procedures that ensure both the appropriate consequences and remedial responses to a student or staff member who commits one or more acts of harassment or bullying.

The school board requires the principal and/or the principal's designee at each school to be responsible for receiving complaints alleging violation of this policy. All school employees, students, parents, visitors or any other member of the community are required to report alleged violations to the school principal. The school principal and/or principal's designee are to be responsible for determining whether an alleged act constitutes a violation of this policy. In so doing, the principal and/or principal's designee shall conduct a prompt, thorough, and complete investigation of each alleged incident.

The superintendent and/or designee shall develop an annual process for discussing the school district policy on bully prevention with student and staff. The school district will incorporate information regarding this policy in each school handbook.

STUDENT SUSPENSION/EXPULSION

Serious breaches of standards of behavior may result in suspensions or expulsions from school. By law, the Board has the authority to suspend or expel beyond five days students for violation of school rules or policies, or for insubordination or misconduct. The superintendent or the building principal may suspend a student for five or less days.

Generally, a suspension may be imposed when a student's behavior creates a threat to his/her own or other's safety. Behavior such as fighting or committing an assault on another; stealing; vandalism; possessing weapons, explosives or other prohibited materials; making false alarms or bomb threats; lewd or threatening behavior or language; or possession of beer or alcoholic beverages or drugs on the school premises or at school activities may result in suspensions.

Students who are guilty of continued serious misconduct which results in repeated suspension and who therefore interfere with the opportunity of other students to carry on their learning activities may be recommended to the Board for expulsion from school.

Hearing procedures as established by state regulations will be followed for all students who receive short or long-term suspensions or expulsion.

Short-term suspension is defined as five or less days. Long-term suspension is defined as more than five days.

PHYSICAL EXAMINATIONS OF STUDENTS/INOCULATIONS OF STUDENTS

The Board encourages parents and students to preserve and protect each student's general health. The Board will, therefore, recommend that each child should have a complete physical examination by a licensed physician upon entrance to the kindergarten or first grade, and upon entering fourth, eighth and twelfth grades. All new entrants to the school system will also receive a recommendation for a physical examination.

Any child entering school or an early childhood program in the District, shall, prior to admission, be required to present to the appropriate school authorities certification from a licensed physician that the child has received or is in the process of receiving adequate immunization against poliomyelitis, diphtheria, pertussis, rubeola, rubella, mumps, tetanus, meningitis, and varicella, according to recommendations provided by the Department of Health. The Department of Health may modify or delete any of the required immunizations. As an alternative to the requirement for a physician's certification, the child may present:

1. certification from a licensed physician stating the physical condition of the child would be such that immunization would endanger the child's life or health; or
2. a written statement signed by one parent or guardian that the child is an adherent to a religious doctrine whose teachings are opposed to such immunization;

Any child entering an early childhood program, kindergarten, sixth grade, and any student transferring into the District, shall present such certification as required by the S.D. Department of Health regulations unless a medical or religious exemption authorized by Department of Health regulations applies.

Physical examinations may also be required for all students who participate in interscholastic athletics and other school activities.

Annually, students may also be subject to routine health screenings for hearing and visual acuity, and dental, scoliosis, and communicable diseases.

Pursuant to state law, the school board or superintendent may, with the concurrence of the county health officer, exclude from school attendance a student who is determined to be a risk or nuisance to the health of other students or school employees due to the presence of infectious disease or communicable parasite. A student may be readmitted when the school board or school superintendent, with the concurrence of the county health officer, determines that the state of communicability or infectiousness no longer exists.

STUDENT COMMUNICABLE DISEASES

Students who are afflicted with a communicable contagious, and/or infectious disease and who are infected with communicable parasites or who are liable to transmit such a disease or parasite may be excluded from school attendance.

The board recognizes the need and right of all children to receive free and appropriate education. The board further recognizes its responsibility to provide a healthy environment for all students and school employees.

A determination of whether an infected student be excluded from the classroom or school activities shall be made on a case-by-case basis, under the direction of the principal/building administrator or designee, with concurrence of the County Health Officer.

In situations where the decision requires additional expertise and knowledge, the building administrator will refer the case to an advisory committee for assistance in the decision making.

The advisory committee may be composed of any or all of the following:

1. a representative from the State Health Department;
2. the student's physician;
3. the student's parents or guardian(s);
4. the school principal or designee;
5. the school health service's supervisor;
6. the superintendent or designee; and

- 7. primary teacher(s).

In making the determination, the advisory committee shall consider;

- 1. the behavior, developmental level, and medical condition of the student;
- 2. the expected type(s) of interaction with others in the school setting;
- 3. the impact on both the infected student and others in that setting;
- 4. the South Dakota Department of Health guidelines and policies; and
- 5. the recommendation of the County Health Officer, which may be controlling.

The advisory committee may officially request assistance from the State Department of Health.

If it is determined that the student will not be permitted to attend classes and/or participate in school activities, arrangements will be made to provide an alternate educational program. If that requires personal contact between student and school employees, only trained volunteer employees shall be utilized.

Public information will not be revealed about the student who may be infected. If the student is permitted to remain in the school setting, the following procedure will be followed by the superintendent/principal:

Information will be provided, as appropriate, to school employees who have regular contact with the student, as to the student’s medical condition and other factors needed for consideration in carrying out job responsibilities.

Health guidelines for school attendance are established and interpreted within the context of the case. The guidelines are not inclusive but are available to be used as a resource. School personnel will refer to school health professionals for specific judgments in interpreting the guidelines.

Instruction in appropriate handling of blood and body fluids will be provided. Hand washing after contamination, food preparation and health/hygiene care performed in different sink and work areas, maintenance cleaning and other personal hygiene measures are part of creating a health environment.

STUDENT COMMUNICABLE DISEASE GUIDELINES

Numerous communicable diseases may affect a school-age population and/or school staff. Some of these have a high degree of communicability. Some are life threatening in nature. Some are both.

Disease and Incubation* Period	Rules for School Attendance
Acquired Immune Deficiency Syndrome (AIDS)	Determination will be made by the Advisory Committee as outlined in the Communicable Disease policy.

6 months-five years

Chicken Pox 14-21 days	The student may attend school after all pox are dry and scabbed.
Cytomegalovirus (CMV) Salivary Gland Viruses	The student may attend school. Precautions should be taken by contacts with immunosuppression as anti-cancer or organ transplants as well as anyone with suspected or known pregnancy. Good hand washing in all cases should eliminate risk of transfer of infection.
Fifth Disease (Erythema Infectiosum) 6-14 days	The student may attend school with physician's permission.
Giardiasis (Intestinal Protozoan Infection) 5-25 days or longer	The student may attend school if the student practices independent and hygienic bathroom skills. Other students may attend school after the third day or drug treatment. Good hand washing in all cases should eliminate risk of transfer of infection.
Herpes Simplex 2-12 days	The student may attend school during an active case if the student has the ability and practices personal hygiene precautions and the area of lesion is covered.
Impetigo variable 4-10 days	The student may attend school if treatment is verified and covered or dry.
Infectious Hepatitis 15-40 days Average 25 days	The student may attend school with physician's written permission and if the student has the ability to take appropriate personal hygiene precautions.
Measles (Red, Hard, Rubeola, 7-day) 8-14 days	The student may attend school after a minimum of 7 days. Students who have had contact with measles may attend school if immunization is up to date.
Infectious Mononucleosis (Glandular Fever) 2-6 weeks	The student may attend school with physician's permission. The student may need adjusted school days and activities.
Mumps 12-21 days	The student may attend school after swelling has disappeared.
Pediculosis (Lice, Crabs)	The student may attend school after treatment. After repeated infestation of the same student, the student may be excluded until all nits are removed.
Pink Eye (Conjunctivitis)	The student may attend school after the eye is clear, under treatment or with physician's

	written permission.
Plan tar’s Wart	The student may attend school. Students should not be permitted to walk barefoot.
Ring Worm (Scalp, Body, Athlete’s Foot)	The student may attend school if the area is under treatment and covered. Restrict known cases of athlete’s foot from pools and showers until under treatment.

POLICY AND PROCEDURES RELATED TO HEAD LICE

1. School principals, school secretaries, and selected staff members should be trained by public health personnel or others with expertise to examine children’s hair for the presence of head lice. These school staff members should then train all teachers to recognize head louse infestation.
2. Any found infested should be managed as described below.
3. During the school year, any child who shows signs of infection (i.e., scratching) should be examined by the teacher or nurse, and if head lice are suspected, the identification should be confirmed by the principal, school secretary, or other staff member trained to do so.
 The infested child should then be sent home with an appropriate note to parents describing the recommended treatment procedure. The parent may then contact the family physician for a prescription for a pediculocidal product or obtain an over-the-counter product directly from the local pharmacist.
4. A child sent home for head louse infestation should be readmitted on the following day provided he/she presents evidence of treatment with an approved product. Evidence may consist of (a) a box top, label, or other identifying item from an approved product, or (b) a note from a parent specifying the product used.
5. The child should then remain in school without restriction. In 7 to 10 days, the child should be reshampooed as described above. After 10 days have elapsed, if evidence of the second treatment has not been presented, the child should again be excluded.

An important element to consider, especially with school children, is that the presence of nits following treatment does not necessarily indicate continuing infestation. Although vigorous combing can often removed many of the nits, it is virtually impossible to remove them all. If the hair has been shampooed with an appropriate pediculocidal product, and there are no evident adult nymphs present, the child should be considered non-infested.

Attempts to remove all the nits by combing usually only frustrate the parent, and can be quite uncomfortable and distressing to the child.

6. Additional important control measures in schools are the avoidance of shared garments, shared pillows, shared coat hooks, and the like. Hats and coats should be stored separately, when possible, in individual lockers, and if not, on wall hooks at least 12 inches apart, or on seat backs. Sharing of personal articles such as combs, brushes, and towels should be discouraged.

Control of head lice in school and group situations is based on the premise that the recognition of head louse infestation does not require medical or nursing expertise and can be performed adequately by an appropriately trained lay person. This makes it possible to deal with head louse infestation with minimal interruption in the child's schoolwork and avoids the necessity of involvement of professional health personnel in a trivial problem. The State Department of Health recommends that schools not require a "note" from the physician or public health nurse before readmitting a child send home for head louse infestation; the evidence of treatment described above should be sufficient for readmission.

On those occasions when the family physician is consulted about head louse infestation in the family, it is important to remember the social connotations of head lice. The family should be reassured that head lice are not an indication of poor personal hygiene and that socioeconomic factors have little bearing on infestation. Indeed, head lice have been found both in public schools and in the most expensive private schools in Mississippi. Careful explanation of this to families can avoid much emotional trauma.

Occasionally, children in the family will be repeatedly infested because inadequate control measures are taken in the home among household contacts. In such cases, the public health nurse may be a valuable resource in resolving the problem.

ADMINISTERING MEDICINES TO STUDENTS

School personnel shall not administer prescription or nonprescription medication to students unless appropriate administration cannot reasonably be accomplished outside of school hours.

For purposes of this policy, the term "medication" includes both prescription medication and nonprescription medication, but does not include medical cannabis. The administration of medical cannabis shall be in accordance with the Board's policy on administration of medical cannabis to qualified students.

Students will not be permitted to take medication while at school unless the administration of such medicine is coordinated by the school district nurse acting under specific written request of the parent or guardian and under the written instructions of the student's physician.

When such a request is made by a parent or guardian, a full release from the responsibilities pertaining to the administration and consequences of such medications must also be presented to the principal by the student's parent or guardian.

Parent/guardian requests to store and/or administer prescription or nonprescription medications to students must be in writing, on a Consent for Medication Administration District Form. The Consent for Medication Administration must be completely filled out, signed and dated by the parent/ guardian. The Consent for Medication Administration must be renewed annually. Any product that could be considered a drug, including "natural remedies", herbs, vitamins, dietary supplements or homeopathic medications will be managed as a prescription medication. These products would require a written order from a physician or licensed health care provider and completion of a Consent for Medication Administration by the parent/guardian.

When medication is brought to school for a student, the student's teacher, building principal, nurse or secretary will be made aware that the student will be taking medication. If a child has medication at school without prior notification the parent/guardian will be contacted. Medications should be transported to and from school by a parent/guardian.

All medications must be stored in a locked medicine cabinet, managed by the school nurse or school personnel trained in medication administration. Prescription medications to be stored and/or administered must be in the original pharmacy labeled container. The label must specify the student's name, name of the medication, name of physician/licensed health care provider, the date of the prescription and the directions for use. If the dosage of the medication is changed by the physician/licensed health care provider, a new bottle must be received from the parent and a new Consent for Medication completed. Non-prescription medications to be stored and/or administered should be in the original container.

It is the responsibility of the student to come to the office to take his/her medication. Any student who uses the medication in a manner other than the manner prescribed may be subject to disciplinary action.

Prescription medication administration may be delegated only to those individuals who have successfully completed the training program as required by law. No school employee, other than the school nurse, shall be required to be trained by a licensed health care profession for the purpose of being trained in the administration of prescription medication, or shall be required to administer prescription medication, without the employee's prior written consent.

4. A record shall be kept when the medication is given, noting the date, time and initials of the person who administered it.
5. If medicine is for emergency use only, parents must demonstrate proper procedures to the person responsible and leave complete written instructions provided by the physician for administration.

Non-prescription medication may be administered by school personnel with the parent/guardian's signed permission for the treatment of: sore throat, cough, headache, stomach ache, or menstrual cramps. The permission slips will be filed in the health record of the student.

All epinephrine auto-injectors must be stored in a secured medicine cabinet, managed by the school nurse or school personnel trained in administration of epinephrine auto-injector or administration of medication. Epinephrine auto-injectors to be stored and/or administered must be in a pharmacy labeled container. The label must specify the name of physician/licensed health care provider, the date of the prescription and the directions for use.

No school employee, other than the school nurse, shall be required to be trained by a licensed health care profession for the purpose of being trained in the administration of epinephrine auto-injectors, or shall be required to administer epinephrine auto-injectors, without the employee's prior written consent. SUPERVISION OF STUDENTS

When students are in school, engaging in school-sponsored activities, or traveling to and from school on school buses, they are responsible to the school, and the school is responsible for them. School personnel assigned to their supervision serve in loco parentis.

The Board expects all students to be under assigned adult supervision at all times when they are in school, on school grounds, traveling under school auspices, or engaging in school-sponsored activities. School personnel assigned this supervision are expected to act as reasonably prudent adults in providing for the safety of the students in their charge.

In keeping with this expected prudence, no teacher or other staff member will leave his/her assigned group unsupervised except as an arrangement has been made to take care of an emergency.

During school hours, or while engaging in school-sponsored activities, students will be released only into the custody of parents or other authorized persons.

The school administration will assure that anyone who wishes to contact a student during the school day is doing so for proper reasons.

The principal or superintendent shall orally and immediately report this information to the state's attorney of the county in which the child resides; or the Department of Social Services; or the County Sheriff; or the city police. The report will contain the following information: name, address, and age of child; name and address of parent or caretaker; nature and extent of injuries or description of neglect; and any other information that might help establish the cause of injuries or condition.

School employees, including administrators, will not contact the child's family or any other persons to determine the cause of the suspected abuse or neglect. It is not the responsibility of the school employees to prove that the child has been abused or neglected, or to determine whether the child is in need of protection, but only to report his suspicions of abuse or neglect.

Anyone who participates in making a report in accordance with the law and in good faith is immune from any civil or criminal liability that may otherwise arise from the reporting, or from any resulting judicial proceeding, even if the suspicion is proved to be unfounded.

Any personal interview or physical inspection of the child should be conducted in a considerate, professional manner. The release to persons other than those provided by law (26-10-12-.2) is punishable by a \$1,000 fine, one year in jail, or both (SDCL 26-10-12.3). Failure to make a report where abuse or neglect is suspected is subject to the same punishment (SDCL 26-10-10).

Copies of this policy will be distributed by the superintendent to all school employees at the beginning of each school term, and to new employees when they begin employment if at a different time than the beginning of the school term.

STUDENT FEES, FINES, AND CHARGES

It is a responsibility of the Board to assure that the children of the district are provided with free public education. Therefore, no fee or required course, or for materials or activities that are part of a course requirement. Neither may a fixed activity fee be required of all students, replacing any school district materials or property that is lost or damaged through the student's negligence.

Certain fees and charges, however, may be established under the following conditions:

1. When established to pay for optional activities that are not part of the regular school program, nor essential to success in a course.
2. When established to pay for materials that are optional for use in a course, and when grades or credit are not dependent on their use.
3. When established to pay for materials that will result in shop products, clothing, or other items that the student will take home for personal use.

Certain other items or equipment required of students for personal use may be purchased by the school system and rented to the student. When these are no longer needed by the student, they may be returned to the school, with a refund of the rental fee, dependent upon their condition.

The Board will annually review a list of fees and charges proposed at the various school levels. In making recommendations, school administrators will consider the cost of the time and bookkeeping involved in collecting fees and rental charges for minor items.

STUDENT RECORDS - NOTICE OF DIRECTORY INFORMATION

The Family Educational Rights and Privacy Act (FERPA) requires that the school district, with certain exceptions, obtain written consent from a student's parent or guardian prior to the disclosure of personally identifiable information from a student's education records. However, the district may disclose appropriately designated "Publication Information" without written consent, unless a student's parent/guardian has advised the district to the contrary in accordance with district procedures. The primary purpose of Publication Information is to allow the district to include pertinent information about a student in certain school publications and press releases. Examples of Publication Information include but are not limited to:

1. A playbill, listing student's name and role in a dramatic production or musical performance;
2. The Annual Yearbook;
3. Honor roll or other recognition lists;
4. Graduation programs;
5. Sporting Programs which disclose grade, height and weight of team members.
6. Stats records to news outlets.

Student "Directory Information", which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, federal law requires local educational agencies receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with directory information including names, addresses and telephone listings. State law requires districts to provide, by November first of each year, a list of students by name in grades seven to twelve, inclusive, together with their mailing addresses, to the Executive Director of the SD Board of Regents and to each postsecondary technical institute located in the state. Because of this, the Canton School District has designated the following information as Directory Information:

1. student's name;
2. address;
3. telephone listing;
4. name(s) of parent(s)
5. e-mail address;

- 6. date and place of birth;
- 7. the most recent educational agency or institution;
- 8. major field of study;
- 9. grade level;
- 10. dates of attendance:

Parents/Guardians who do not want the district to release directory information about their student without their prior written consent must notify the Canton School District in writing by September 1 of each school year.

School districts, state education agencies, and the U.S. Department of Education all offer assistance about FERPA. Before contacting Federal officials, however, you can often get a direct and immediate response from your local or state education officials.

SCHOOL-COMMUNITY RELATIONS GOALS

The Board believes that responsible management of the school district requires that current laws, standards, attitudes, and philosophies of education be presented to the community on a continuing basis. The Board also recognizes that as elected representatives of the people it must consider the needs and desires of the community in establishing educational policy. In order to meet both of these aims, it is essential that effective two-way communication be maintained with the community.

The basis for an effective community relations program is to be found in the following statements of Board attitudes:

1. The community will be encouraged to participate and actively assist in the future planning of the school district.
2. All avenues of communication available will be used, when appropriate.
3. Special attention will be given to effective internal communication among the Board, administration, the staff, and students, to assure the full understanding of existing programs and to elicit reports and recommendations on those in effect, as well as those which should be considered.

The Board is devoted to the development and maintenance of a comprehensive year-round community relations program to assure a full appreciation of the educational program and the problems of the district, and to provide for the broadest participation of all—Board, staff and community, in seeking the solution to problems and in promoting the continuing improvement of the education available to the residents of the community.

PUBLIC COMPLAINTS ABOUT THE CURRICULUM OR INSTRUCTIONAL MATERIALS

The Board reserves to itself the final responsibility for all instructional materials used and curricula taught in the district schools. The Board recognizes that without a free and vigorous exchange of ideas, learning and teaching cannot take place effectively.

The Board also recognizes that district residents have a right to express concern about the educational programs of their schools. When citizens have concerns about particular courses or instructional materials, these concerns should be stated in writing, carefully considered, and accorded the courtesy of a prompt reply by school personnel. All such replies will be based on the instructional goals of the district, upon course objectives, and upon the criteria for selection of instructional materials.

Staff members will attempt to accommodate serious religious or moral objections to particular instructional materials by providing alternate materials whenever possible. However, attempts by parents or students to control what others read and study will be subject to careful scrutiny and question by school employees and the Board.

1. The material in question should first be discussed with the teacher or librarian who will report the results of this meeting in writing to the principal. During that initial meeting between the complainant and teacher and/or librarian relevant data will be collected concerning the objections and grounds for the complaint will be determined. If satisfaction is not reached, the complainant may continue with Step 2.
2. The principal will meet to discuss the material with the complainant and the teacher or librarian. The results of the meeting will be reported in writing to the superintendent. If satisfaction is not gained, the complainant will be requested to complete the form, "Request for Reconsideration of Instructional Materials," before proceeding to Step 3.
3. The superintendent will appoint a review committee composed of the following members:

- The building principal.
- The building librarian.
- Two building teachers.
- Three adult citizens.

CONTROVERSIAL ISSUES POLICY

Background – Preparation for effective citizenship is accepted as one of the most important purposes of the Canton School district. The instructional program developed to achieve this purpose properly places great emphasis upon our American heritage, the rights and privileges we enjoy as citizens, and the citizenship responsibilities that must be assumed in maintaining a free society. In preparing for effective citizenship, it is frequently necessary, often imperative, that students investigate in an intelligent manner, issues that are controversial. The democratic process of decision-making essential to a free society depends on this rational and objective approach to controversy.

Statement – In considering controversial issues, it shall be the purpose of the District to recognize the student's rights:

1. To study a controversial matter, which has political, economic or social significance, and concerning which at the appropriate level, he/she should begin to have an opinion.
2. To have free access to all relevant information, including the material that circulates freely in the greater community.
3. To study under competent instructors in an atmosphere of freedom from bias and prejudice.
4. To form and express his/her own opinions on controversial issues in a civil manner without jeopardizing his/her relations with his/her teacher or the school.
5. To refuse information or materials, or to refuse to discuss issues which he/she or his/her parent/guardian find completely incompatible with their family values.

6. This policy shall be applicable to all instructional materials, LMC resources, presenters and speakers, demonstrations, as well as, instructional practices.

Application:

1. The approach of the teacher to controversial topics must be impartial and objective.
 2. Teachers should use the following criteria for determining the appropriateness of certain issues for consideration as part of the curriculum.
 - a) The treatment of the issue in question must be within the range, knowledge, maturity and competence of the students.
 - b) There should be study materials and other learning aids available from which a reasonable amount of data pertaining to all aspects of the issue could be obtained.
 - c) The consideration of the issue should require only as much time as is needed for a satisfactory study of the class, but sufficient time should be provided to cover the issue adequately.
 - d) The issue should be current, significant, real, and important to the students and teacher. Significant issues are those, which in general, concern considerable numbers of people, are related to basic principles, or at the moment are under consideration by the public, political bodies or the mass media.
1. In discussing controversial issues, the teacher should keep in mind that:
 - a) The classroom is a forum and not a committee for producing resolutions or dogmatic pronouncements.
 - b) The class should feel no responsibility for reach any agreement or consensus.
 - c) The regular school curriculum should be enhanced and not disrupted by study of such issues.
 2. It is the teacher's responsibility to bring out the facts concerning controversial questions. He/she has the right to express his/her opinion, but in doing so, it is important that the students understand that it is an opinion, and is not to be accepted by them as an authoritative answer.
 3. The principal bears a major responsibility for the administration and supervision of the curriculum, including the selection of materials and methods of instruction. He/she must be continuously aware of what is being taught or presented in his/her school.
 4. A teacher who is in doubt concerning the advisability of discussing certain issues in the classroom should confer with his/her principal as to the appropriateness of doing so. If the principal and the teacher are unable to agree, and the teacher wishes to pursue the issue, it should be referred to the Superintendent.
 5. A student, parent/guardian or other citizen of Canton may challenge the inclusion of or presenting of specific issues and/or instructional materials as follows:
 - a) The complainant should first review the district's policy regarding controversial issues carefully scrutinizing the Statement and Application sections of the policy.
 - b) After careful review, if the complainant still desires to protest the advisability of teaching or presenting said controversial issue or using said instructional material, he/she should file the attached Request for Review of Instructional Material and/or Teaching of a Controversial Issue form with the respective school principal. The complaint could involve the teaching of a specific issue, instructional(s), method of presentation, procedure(s) of discussions, speakers, etc.
 - c) Upon receipt of Request for Review form, the Principal shall meet with the teacher(s) involved, the complainant and other appropriate parties to determine if there is a solution to the issue. If the issue is resolved at the principal's level, the initial complain form will

be filed with the Superintendent's office appropriately recorded as resolved. In the case that the complainant is not satisfied with the resolution at the Principal's level, a form would be forwarded to the Superintendent's office.

- d) The superintendent shall meet with the principal, the complainant and other appropriate parties to determine if there is a solution to the issue. When a complaint reaches the Superintendent's level, the Board shall be provided with a brief characterization of the issues and notice that a complaint is being processed. If no mutually agreeable solution is possible, the complainant may take the issue to the School Board.
 - e) The School Board will review the matter in open session providing all concerned parties a full hearing. After careful consideration, the Board will take whatever action it deems appropriate. The Board's decision shall be final.
6. Materials, presentations, procedures, speakers, etc., already in place when a Request for Review is filed shall remain in place while the review is being processed in accordance with this policy. Materials, presentations, procedures, etc. which are being newly introduced to the educational programs will not be utilized until the Request for Review process is completed.
 7. When a request for Review is received by the Superintendent he/she shall notify the Board members about the essence of the request. However, since the Board is the final arbitrator in such situations, the Board should not be given the full details about the review, or engage in a discussion of such a review until said issues comes before the Board as set forth in 7e) above.
 8. School principals shall annually provide notification to all student and parents that this policy exists and how to file a Request for Review.

The Board places trust in its employees and desires to support their actions in such a manner that employees are freed from unnecessary, spiteful, or negative criticism and complaints.

Whenever a complaint is made directly to the Board as a whole or to a Board member as an individual, it will be referred to the school administration for study and possible solutions. Policy KL notes the proper channels for resolving complaints and grievances. The individual employee involved will be advised of the nature of the complaint and will be given every opportunity for explanation, comment, and presentation of the facts as he sees them.

If it appears necessary, the administration, the person who made the complaint or the employee involved may request an executive session of the Board for the purposes of fuller study and a decision by this body. Generally, all parties involved, including the school administration, will be asked to attend such a meeting for the purposes of presenting additional facts, making further explanations, and clarifying the issues. Hearsay and rumor will be discounted, as well as emotional feelings except those directly related to the facts of the situation.

The Board will conduct such meetings in as fair and just a manner as possible. The Board may request a disinterested third party to act as a moderator to help it reach a mutually satisfactory solution.

Any parent, guardian, or other person who upbraids, insults, or abuses any teacher or other employee on school property or in the presence of students will be prosecuted by the Board under the provisions of law. School employees who are sued as a consequence of performing their assigned duties will be provided full legal services, unless suit is based upon gross negligence or willful misconduct of the employee.

RELATIONS WITH PARENTS ORGANIZATIONS

The Board is aware of the constructive role which the parent/teacher groups can play in the school system. The effective leadership provided by these organizations is valuable to the improvement of educational programs and community support of the schools. The Board will offer these groups its full cooperation, and urges parents, teachers, and administrators to become enthusiastic participants.

The parent-teacher association (PTA) may be of service to the schools in each area of the district by fostering community undertakings, encouraging social activities, working for needed legislation, discovering and reporting facts which lead to community or school improvements, studying school problems, supporting school projects, and cooperating with other community agencies.

Each school may set up its own form of parent-teacher association. Before official recognition, their organizational plan and rules of operation must be approved by the Board. The association membership

may then form its own committees, plan its own programs, study projects, and other activities in line with Board policies. Resolutions of a school's parent-teacher association will be accepted by the Board for processing and consideration when such resolutions have been adopted by a majority of the members present at an official meeting.

TITLE I PARENT INVOLVEMENT

The Canton Board of Education endorses the parent involvement goals of Title I and encourages the regular participation by parents of Title I eligible children in all aspects of the program. The education of children is viewed as a cooperative effort among the parents, school, and community. In this policy, the word "parent" also includes guardians and other family members involved in supervising the child's education.

Pursuant to federal law, the district will develop jointly with, and distribute to parents of children participating in the Title I program a written parent involvement policy.

A meeting of the parents of participating Title I students will be held annually to explain the goals and purposes of the Title I program. Parents will be given the opportunity to participate in the design, development, operation, and evaluation of the program for the next school year and to participate in planning activities, to offer suggestions, and to ask questions regarding policies and programs. Parents will be encouraged to attend the meeting and to become involved.

In addition to the required annual meeting, at least one (1) additional parent meetings shall be held for parents of children participating in the Title I program. Notices will be sent to the parents and articles will appear in the local newspaper advising parents and interested persons of the meetings. These meetings shall be used to provide parents with:

- Information about programs provided under Title I;
- A description and explanation of the curriculum in use, the forms of academic assessment used to measure student progress, and the proficiency levels students are expected to meet;
- Opportunities to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children; and
- The opportunity to bring parent comments, if they are dissatisfied with the school's Title I program to the district level.
- Title I funding, if sufficient, may be used to facilitate parent attendance at meetings through payment of transportation and childcare costs.

The parents of children identified to participate in Title I programs shall receive from the school principal and Title I staff an explanation of the reasons supporting each child's selection for the program, a set of objectives to be addressed, and a description of the services to be provided. Parents will be advised of

their children's progress on a regular basis. Opportunities will be provided for the parents to meet with the classroom and Title I teachers to discuss their children's progress. Parents will also receive inflation and training that will assist them in helping their children at home and at school.

Each school in the district receiving Title I funds shall jointly develop with parents of children served in the program a "School-Parent Compact" outlining the manner in which parents, school staff and students share the responsibility for improved student academic achievement in meeting state standards. The compact shall:
